1. Description of Plan

General

The following description of the Newsela, Inc. 401K Retirement Savings Plan (the "Plan") of Newsela, Inc (the "Company") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan, established on January 1, 2016 in accordance with the provisions of Internal Revenue Code ("IRC") Section 401. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of the Plan

The Company is the Plan administrator and is responsible for providing the participants and their beneficiaries with information about their rights and benefits under the Plan.

Eligibility

All employees of the Company are eligible to participate in the Plan provided they have attained the age of 21.

Contributions

Participants are allowed to make pre-tax and Roth contributions up to 90% of their compensation up to the limitation contained in the Internal Revenue Code ("IRC") in effect for each taxable year. In 2017, participants were permitted to contribute up to a maximum of $18,000 with an additional $6,000 catch-up contribution for employees over 50 years old. The Plan automatically enrolls eligible participants at a rate equal to 4% of compensation, unless otherwise directed by the participant.

The Company has the option to contribute matching contributions and/or non-elective contributions. For the year ended December 31, 2017, there were no employer contributions.

Participant Accounts

Each participant directs participant and Company contributions to any of the investment options offered by the Plan. Each participant's account is credited with the participant's contribution, Company contributions, if any, and the Plan's earnings (losses), participant withdrawals, and administration expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Participants vest in Company contributions on a six year graded term.

Notes Receivable from Participants

Participants are allowed to borrow from their accounts an amount equal to no less than $500 and no greater than $50,000 or 50% of the participant's vested balance. The loans bear interest, and principal and interest are repaid ratably through payroll deductions. The loans generally bear interest at the prime rate at the time of the loan plus two percentage points. General purpose loans must be repaid within five years, and loans used to purchase a primary residence may be paid over 30 years. Interest rates range from 5.50% to 6.25% per annum for loans outstanding at December 31, 2017.

Payment of Benefits
In the event of retirement, disability or termination of employment, participants may elect a lump-sum distribution equal to the value of the participant's vested balance. Participants may also request in-service distributions upon attaining age 59 ½ or due to certain hardships.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared in compliance with the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Payment of Benefits
Benefit payments are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. No allowance for uncollectible balances is deemed necessary. Loans are considered in default if any missed payments are not repaid by the end of the calendar quarter following the calendar quarter in which the missed payment was due.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. See Note 4 Fair Value Measurements for further disclosure.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis and dividends are recorded on the ex-dividend date. Realized gains and losses are calculated as the difference between the proceeds from sales and the related investment's fair market value at the beginning of the Plan year, or acquisition cost if acquired during the year. Unrealized appreciation and depreciation are calculated as the difference between the fair value of investments at the end of the year less their fair values at the beginning of the year, or acquisition cost, if acquired during the year. Capital gain distributions are included in dividend income. Certain investment related expenses are netted in net appreciation and are not readily determinable.

Plan Expenses
Plan expenses can be paid directly by the Company or by the Plan. Administrative expense paid by the Plan were $670 for the year ended December 31, 2017.

Use of Estimates
The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein at the date of the financial statements and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

3. Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Reliance Trust Company, the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity in the accompanying statement of net assets available for benefits as of December 31, 2017, the statement of changes in net assets available for benefits for the year ended December 31, 2017 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017.

4. Fair Value Measurements

The Plan's investments are recorded in accordance with FASB ASC 820, Fair Value Measurement, which established a framework for measuring fair value and clarifies that fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

The fair value of the registered investment companies is based on the net asset value of the shares held by the Plan at year end as reported on the active market on which the funds are traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 1,443,897	$ -	$ -	$ 1,443,897

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 539,244	$ -	$ -	$ 539,244

5. Parties-in-Interest Transactions

Notes receivable from participants and Plan expenses paid by the Plan Sponsor are considered party-in-interest transactions. All such party-in-interest transactions are exempt from the prohibited transaction rules.

6. Tax Status

The Plan adopted a prototype profit sharing 401(k) plan which obtained its latest opinion letter on July 8, 2014 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Furthermore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the DOL. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA.

8. Risks and Uncertainties

In the normal course of business, all of the Plan's assets are transacted with and held by its Trustee. The Plan is subject to credit risk to the extent the Trustee is unable to fulfill contractual obligations on its behalf. The Plan does not anticipate any losses from this counterparty.

The Plan invests in various investment securities. These investments are exposed to risks such as interest rate, market and credit risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in risks in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2017	2016
Net assets available for benefits per the financial statements	$ 1,477,040	$ 559,958
Participant contributions receivable	(28,987)	(20,199)
Net assets per Form 5500	$ 1,448,053	$ 539,759

The following is a reconciliation of total contributions per the financial statements to the Form 5500 for the year ended December 31, 2017:

Total contributions:	
Per the financial statements	$ 803,861
Contributions receivable at December 31, 2017	(28,987)
Contributions receivable at December 31, 2016	20,199
Per the Form 5500	$ 795,073

10. Subsequent Events

The Plan administrator has evaluated subsequent events occurring after December 31, 2017 through August 16, 2018, the date the financial statements were available to be issued. Based on this evaluation, the Plan administrator has determined that no subsequent events require recognition or disclosure in these financial statements.
