NOTE 1 - PLAN DESCRIPTION

The following brief description of the Signature Brands, LLC 401(k) Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a contributory 401(k) savings and profit sharing plan, which covers all employees of Signature Brands, LLC ("the Company") meeting certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may contribute 1% to 60% of their compensation to the Plan as a 401(k) deferral, subject to certain Internal Revenue Service limitations. Eligible employees automatically enroll in the Plan contributing 3% of eligible compensation, unless otherwise declined. The Company contributes a matching amount equal to 50% of the participant's 401(k) contribution not in excess of 5% of eligible compensation. Additionally, the Company may, at the discretion of management and its Board of Directors, make a discretionary profit sharing contribution. Amounts are contributed to the Plan in the first quarter following the Company's fiscal year end. The Company elected to make profit sharing contributions of 5% of eligible compensation for 2013 and 2012.

Eligibility: To be eligible to participate in the Plan and to receive the Company's matching contributions, the employee must complete three months of service and be 18 years of age. Eligible employees can enter the plan on the first day of the month following the completion of the eligibility requirements. Eligible employees must be employed on the last day of the plan year and have more than 1,000 hours of service to receive discretionary profit sharing contributions.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contributions, and their share of the Plan's net earnings and losses.

Forfeitures: Forfeitures resulting from employer contributions and the earnings on those contributions that are allocated to participants who leave the Company prior to vesting are retained in a forfeiture account. Forfeitures are first used to reduce administrative expenses, with the remaining amounts used to offset future employer contribution amounts. At December 31, 2013 and 2012, forfeited accounts totaled $34,246 and $84,371, respectively.

Notes Receivable from Participants: The Plan allows participants to borrow from their individual accounts. Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance.

Vesting: Participants are immediately vested in their 401(k) salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based upon full years of service. A participant's portion of the Company's contributions and related investment income vests according to the following schedule:

Full Years of Service	Vested Percentage
1 year	20%
2 years	40
3 years	60
4 years	80
5 or more years	100

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment Options: Employees can choose any investment fund option offered or individual security investments (through a brokerage account option) to allocate their account balances. The contributions made by each participant, as well as Company contributions, are allocated to investments based on elections made by the participant or to a default fund if no election is made.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets available for benefits and results of operations are summarized below.

Accounting Methods: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

(Continued)

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Investments at fair value as determined by quoted market price		
Mutual funds		
Fidelity Contrafund Fund	$ 2,510,206	$ 1,834,932
Fidelity Equity Income Fund	1,143,972	474,447*
Fidelity Low Price Stock Fund	1,106,260	661,807*
Fidelity Freedom 2020 Fund	1,835,512	1,671,712
Fidelity Freedom 2030 Fund	1,208,537	1,430,430
Fidelity Retirement Money Market	2,188,848	2,511,285
Fidelity Government Income Fund	1,087,277	1,261,271

*This amount is less than 5% of the Plan's net assets available for benefits. This is shown for comparative purposes only.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,074,480. Interest and dividend income was $756,038.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day the valuation is reflected on a national securities exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined by a letter dated March 31, 2008 that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since the adoption of the prototype plan; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. During 2011, plan management applied for a new determination letter. A response from the Internal Revenue Service has not yet been received.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 - PARTY-IN-INTEREST INVESTMENTS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

As of December 31, 2013 and 2012, the Plan's investments were invested in mutual funds managed by Fidelity Investments, Inc. As Fidelity Management Trust Company is the trustee of the Plan and also a subsidiary of Fidelity Investments, Inc., these investments qualify as party-in-interest investments. Also, notes receivable from participants qualify as party-in-interest investments.

Fees paid by the Plan for the investment management services in the amount of $12,014 for the year ended December 31, 2013 were paid to Fidelity Management Trust Company and, thus, qualify as a party-in-interest transaction. Professional and other administrative fees are paid by the employer.

NOTE 7 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through July 30, 2014, which is the date the financial statements were available to be issued.

NOTE 1 - PLAN DESCRIPTION

The following brief description of the Signature Brands, LLC 401(k) Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a contributory 401(k) savings and profit sharing plan, which covers all employees of Signature Brands, LLC ("the Company") meeting certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may contribute 1% to 60% of their compensation to the Plan as a 401(k) deferral, subject to certain Internal Revenue Service limitations. Eligible employees automatically enroll in the Plan contributing 3% of eligible compensation, unless otherwise declined. The Company contributes a matching amount equal to 50% of the participant's 401(k) contribution not in excess of 5% of eligible compensation. Additionally, the Company may, at the discretion of management and its Board of Directors, make a discretionary profit sharing contribution. Amounts are contributed to the Plan in the first quarter following the Company's fiscal year end. The Company elected to make profit sharing contributions of 5% of eligible compensation for 2013 and 2012.

Eligibility: To be eligible to participate in the Plan and to receive the Company's matching contributions, the employee must complete three months of service and be 18 years of age. Eligible employees can enter the plan on the first day of the month following the completion of the eligibility requirements. Eligible employees must be employed on the last day of the plan year and have more than 1,000 hours of service to receive discretionary profit sharing contributions.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contributions, and their share of the Plan's net earnings and losses.

Forfeitures: Forfeitures resulting from employer contributions and the earnings on those contributions that are allocated to participants who leave the Company prior to vesting are retained in a forfeiture account. Forfeitures are first used to reduce administrative expenses, with the remaining amounts used to offset future employer contribution amounts. At December 31, 2013 and 2012, forfeited accounts totaled $34,246 and $84,371, respectively.

Notes Receivable from Participants: The Plan allows participants to borrow from their individual accounts. Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance.

Vesting: Participants are immediately vested in their 401(k) salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based upon full years of service. A participant's portion of the Company's contributions and related investment income vests according to the following schedule:

Full Years of Service	Vested Percentage
1 year	20%
2 years	40
3 years	60
4 years	80
5 or more years	100

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment Options: Employees can choose any investment fund option offered or individual security investments (through a brokerage account option) to allocate their account balances. The contributions made by each participant, as well as Company contributions, are allocated to investments based on elections made by the participant or to a default fund if no election is made.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets available for benefits and results of operations are summarized below.

Accounting Methods: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

(Continued)

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Investments at fair value as determined by quoted market price		
Mutual funds		
Fidelity Contrafund Fund	$ 2,510,206	$ 1,834,932

Fidelity Retirement Money Market	2,188,848	2,511,285
Fidelity Government Income Fund	1,087,277	1,261,271

*This amount is less than 5% of the Plan's net assets available for benefits. This is shown for comparative purposes only.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,074,480. Interest and dividend income was $756,038.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day the valuation is reflected on a national securities exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
