RETIREMENT PLAN FOR PARTNERS – PLAN 1**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2017**

NOTE 1 - DESCRIPTION OF PLAN

The following description of Taft Stettinius & Hollister LLP Retirement Plan for Partners – Plan 1 (the Plan) provides only general information. Participants should refer to the Plan Instrument for a more complete description of the Plan's provisions.

General: The Plan was organized effective January 1, 2017, as a defined benefit cash balance pension plan covering all eligible equity partners of Taft Stettinius & Hollister LLP (the Firm and Employer) as of December 31, 2017 who have a profit allocation percentage as of the first day of the Plan year that is greater than 0.10% and have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Firm's Executive Committee is responsible for oversight of the Plan. The Retirement Plan Investment Committee determines the appropriateness of the Plan's investments, monitors investment performance and reports to the Firm's Executive Committee.

Cash Balance Accounts: The Plan provides for cash balance credits and earnings credits to hypothetical (notional) cash balance accounts. Participants are not permitted to make contributions to the Plan.

The cash balance credits are based on projected distributable net income of the Employer for the year, as approved by the equity partners. For 2017, the cash balance credits were credited in December 2017. Beginning in 2018, the cash balance credits will be credited each month if the participant is an equity partner on the last day of the month.

Earnings credits are credited daily based upon the actual rate of return earned by the Plan's assets but cannot exceed 6% on an annualized basis.

Funding Policy: The Plan's funding policy is for the Employer to contribute amounts which will meet or exceed the annual ERISA minimum funding requirement. The Plan exceeded the ERISA minimum funding requirements for the Plan year ending December 31, 2017.

Vesting: Participants are fully vested in their cash balance account.

Benefits: A participant's accrued benefit is the amount of his/her cash balance account consisting of accumulated cash balance credits and earnings credits. Upon attainment of normal retirement age (62) or retirement, a participant is eligible to receive his/her accumulated cash balance account. The automatic form of payment is a single life annuity for an unmarried participant or a 50% (or optional 75%) joint and survivor annuity for a married participant. The participant may also elect a single lump sum form of payment.

If Plan assets are not at least 80% of Plan liabilities, certain restrictions will apply to lump sum distributions. Furthermore, if such percentage is not at least 110%, additional restrictions may be applied to the top 25 paid individuals of the firm who are participants in the Plan.

In-service withdrawals of the entire cash balance account are permitted for participants who remain employed after age 62. In-service withdrawals are permitted once each year in April. Cash balance credits and earnings credits will continue to accrue after in-service distributions. The Plan also provides for a death benefit to the surviving spouse or beneficiary designated by the participant.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to amend, modify, suspend, freeze, or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. In the event of Plan termination, the Employer will direct the distribution of participant cash balance accounts in a manner permitted by the Plan as soon as practicable.

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC) if the Plan terminates without sufficient funds to pay all benefits. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. For further information, refer to the Plan Instrument available from the Plan Administrator.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated plan benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Tax Status: On August 31, 2018, the Employer submitted an application to the Internal Revenue Service (IRS) for a determination letter as to its initial tax qualification status for which a response from the IRS has not been received as of the date the financial statements were available to be issued. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan is subject to income tax examinations for all periods since its inception.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through September 18, 2018, the date the financial statements were available to be issued. See above and Note 7.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The Plan's independent actuary determines the actuarial present value of accumulated plan benefits by applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term, and the effect of such change could be significant.

The actuarial method and significant assumptions used in the January 1, 2017 valuation are as follows:

Actuarial method:	Standard unit credit cost method
Interest rate:	Segment rates in the month containing the valuation date
Mortality rates:	IRS 2017 Static Mortality Table
Normal retirement age	100% at age 62
Disability:	None
Withdrawal rate	None
Form of payment	100% assumed to elect lump sum payment
Expenses	\$0

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

NOTE 5 - RISK AND UNCERTAINTIES

Plan contributions and the actuarial present value of accumulated plan benefits are calculated and reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the Plan's financial statements.

NOTE 6 - FUNDING STATUS

The Plan was deemed to be not-at-risk by the Plan's independent actuary for the 2017 Plan year based on the Plan's funded percentage of 103.06%. Therefore, no benefit restrictions were required.

NOTE 7 - SUBSEQUENT EVENTS

Effective January 1, 2018, the Plan Instrument was amended to update the Plan's definition of eligible employee by adjusting the required profit allocation percentage from equal to or less than 0.10% to 0.05%.

In addition, the Plan Instrument was amended, effective January 1, 2018, to update the Plan's definition of eligible employee to include individuals who continue to provide services to the Firm that ceased to be a partner of the Firm, including an equity partner, as a result of the Firm's mandatory retirement age.

NOTE 7 - SUBSEQUENT EVENTS (CONTINUED)

As of September 18, 2018, distributions totaling \$4,761,850 were made from the Plan subsequent to December 31, 2017.

The Plan entered into a directed trust agreement with Mid Atlantic Trust Company on January 16, 2018, to provide trust services to the Plan. Pershing LLC continues as the Plan's custodian. Oxford Financial Group, Ltd. serves as the Plan's investment manager. In January 2018, the Plan's cash was invested in a money market fund, with subsequent investment into various equity, fixed income and balanced registered investment company shares (mutual funds).

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the month containing the valuation date.

Economic Assumptions

First segment rate (years 0 to 4):	4.16%
Second segment rate (years 5 to 19):	5.72%
Third segment rate (years 20 and after):	6.48%
Effective interest rate (current year):	5.40%
First segment rate (years 0 to 4), without stabilization:	1.57%
Second segment rate (years 5 to 19), without stabilization:	3.77%
Third segment rate (years 20 and after), without stabilization:	4.73%
Effective interest rate, without stabilization (current year):	3.38%
Interest crediting rate:	3.75%

The interest rates listed above are compounded annually.

Demographic Assumptions

Weighted average retirement age

100% of employees are assumed to retire at age 62, but no earlier than one year from the valuation date. The weighted average retirement age is calculated with equal weighting for all participants; i.e. simple average. The weighted average retirement age is 62.

Withdrawal

None.

Disability

None.

Rationale for retirement age, withdrawal and disability assumptions

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire at the plan's Normal Retirement Age.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Demographic Assumptions (continued)

Mortality and mortality improvement

The mortality follows the IRS 2017 Static Mortality Table with separate tables for annuitants and non-annuitants, as prescribed by Treasury regulation section 1.430(h)(3)-1(b).

Decrement timing

Decrements are assumed to occur as of the beginning of the year.

Other Assumptions

Form of payment

All participants are assumed to elect a lump sum form of payment.

Maximum earnings

The maximum compensation limit under IRC section 401(a)(17) is \$270,000 for 2017.

Maximum benefit

The maximum benefit payable under IRC section 415 is \$215,000 for 2017.

Expenses

Assumed expenses are \$0 for 2017, based on actual historical plan experience. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Actuarial Methods

Valuation date

The valuation date is January 1, 2017.

Actuarial value of assets

The actuarial value of assets is equal to the market value of assets.

Minimum funding method

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.
