Contributions

Employee contributions – Participants may elect to defer up to 75% of eligible compensation, as defined. The participants' elective deferrals are not taxed as compensation in the year of deferral. Participants may also make Roth contributions, subject to certain limits established by law. Participants may also make rollover contributions, which represent distributions from other qualified defined benefit or contribution plans. Participants who reach age 50 may elect to make catch-up contributions.

Employer matching contributions – Effective January 1, 2016, the Plan was amended to allow the Employer to make Employer safe harbor matching contributions equal to 100% of the first 4% of compensation deferred by the participant.

Employer profit sharing contributions – The Employer may also make an additional discretionary profit sharing contribution to those participants employed on the last day of the year and to those terminated employees who died, reached retirement age or became disabled during the year. There were no Employer profit sharing contributions during the years ended December 31, 2017 or 2016.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code (IRC), as defined in the Plan agreement.

Participant accounts

Each participant's account is credited with the employee's contributions, Employer contributions, and allocations of Plan investment earnings and appreciation in value. Each participant's account is decreased by allocations of Plan investment losses, depreciation in value, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan's investments are participant-directed.

Vesting

All participants are 100% vested in elective deferrals, rollover contributions and Employer safe harbor matching contributions. Participants are 25% vested after one year, 50% vested after two years, 75% vested after three years and fully vested after four years of service in Employer discretionary contributions.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer and are excluded from these financial statements. Investment related fees are included in net appreciation in fair value of investments. Certain fees related to distributions and loan withdrawals, as elected by the participant, are paid out of the participant accounts and are included in administrative expenses.

Participant notes receivable

Participant notes receivable are permitted under certain circumstances and are subject to limitations. Participants may borrow from their funds up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Notes are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest rates as determined reasonable by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon termination of service due to death, disability or retirement, a participant may receive a lump sum or installment payments in an amount equal to the vested value of his or her account. Normal retirement is age 60; however, if a participant was both a former employee of North American Logistics, Inc. and Exel Global Logistics, Inc. and attained age 55 on or before July 1, 2005, normal retirement age is age 55. The Plan allows for early retirement at the age of 55. For termination of service due to other reasons, participants may elect to receive a lump sum or rollover the vested balance to another qualified plan. The nonvested portion of the account is treated as a forfeiture. Hardship withdrawals are permitted in accordance with the Internal Revenue Service (IRS) guidelines and participants may also make a withdrawal of the vested balance upon reaching age 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Net appreciation includes the Plan's gains and losses on investment bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant notes receivable

Participant notes receivable are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Upon default (as defined), the Plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participant's vested account balance.

Payment of benefits

Distribution of benefit payments are recognized when paid.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through September 11, 2018, the date the financial statements were available to be issued.

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan has a traditional fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without consent of the issuer.

4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEES:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2017 and 2016 was obtained from data that has been prepared and certified to as complete and accurate by the Plan's trustees and furnished to the plan administrator. Massachusetts Mutual Life Insurance Company and Reliance Trust Company was the trustee from September 1, 2016 to December 31, 2017 and Bank of America, N.A. was the trustee from January 1, 2016 to August 31, 2016.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation method used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 or 2016.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

Total assets in the fair value hierarchy	<u>11,838,236</u>	<u>11,838,236</u>	<u>-</u>	<u>-</u>

6. PARTY-IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by Massachusetts Mutual Life Insurance Company and Reliance Trust Company, the trustees of the Plan. Certain Plan investments were managed by Bank of America, N.A., the prior trustee. In addition, certain fees are charged by the Plan's trustees for investment management services. Therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. TAX STATUS:

The Employer elected to adopt a volume submitter plan of the plan administrator. The IRS issued an opinion letter dated March 31, 2014 which stated the volume submitter plan was in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

9. FORFEITED ACCOUNTS:

Forfeited nonvested accounts were \$3 and \$4,848 at December 31, 2017 and 2016, respectively. During 2017, forfeited nonvested accounts of \$4,944 were used to offset Plan administrative expenses. During 2016, no forfeited nonvested accounts were used to offset Plan administrative expenses or reduce Employer safe harbor matching contributions.

10. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investments securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of the change in net assets per the financial statements to Form 5500 for the years ended December 31:

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
