Note 1 - Plan Description

The following description of Marion General Hospital, Inc. Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution plan that covers Marion General Hospital Inc.'s (the "Hospital") employees who meet certain requirements as to length of service and number of hours of service and provides for retirement, death, and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, the Plan was restated. An amendment to the Plan was approved in December 2014, which amended the Plan effective January 1, 2015 so that no new nonunion employees may enter the Plan and no further contributions will be made to nonunion employees. All nonunion employees are 100 percent vested in their account balances as of December 31, 2014.

Contributions

The Plan provides for employer contributions for union employees based on a percentage of each participant's annual compensation subject to limitations established by the Internal Revenue Code. Union employees are eligible for participation upon completion of one year of service. Entry dates into the Plan are January 1 and July 1 of each year. The Hospital makes contributions to the Plan on behalf of each employee who is a participant on the last day of the plan year and has completed the required number of hours of service. The required number of hours of service to be completed is 832. If the requirement for service hours is met, the employer contribution is 5 percent of a participant's annual compensation.

Participant Accounts

Each participant's account is credited with allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Hospital's contribution portion of its accounts, plus actual earnings thereon, is based on years of service. Upon completion of five years of service, a participant is 100 percent vested in his or her account balance; otherwise, participants are 0 percent vested.

Payment of Benefits

Distributions are payable upon the retirement, death, disability, or termination of employment. Distributions are available in the form of a lump-sum amount equal to the vested balance of a participant's account or various annuities over a 10-year period. Distributions in the form of a life annuity are also available. If the value of a participant's account is less than \$5,000 at the time of distribution, the amount will be paid in a single lump sum.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce hospital contributions. At December 31, 2017 and 2016, there were no forfeited balances.

December 31, 2017 and 2016

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by PNC Bank and Fidelity Management Trust Company or its affiliates. PNC Bank was the trustee of the Plan until September 14, 2017, at which point Fidelity Management Trust Company became the trustee; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Participant Notes Receivable

Effective July 1, 2007, no new loans were allowed under the plan document. Prior to July 1, 2007, under certain conditions, participants could borrow funds from the Plan at market rates of interest. The maximum loan balance was a formula based upon the participant's nonforfeitable account balance. No plan loan may exceed the lesser of \$50,000 or 50 percent of a participant's nonforfeitable account balance.

Termination

The Hospital has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The money market fund is valued at the outstanding balance, which is the best estimate of fair value. All other investments are valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 4 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid out of the Plan and include audit fees, investment fees, trustee fees, and recordkeeping fees.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 6, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

During the year ended December 31, 2017, the Plan changed its trustee from PNC Bank to Fidelity Management Trust Company (the "Trustees"). The Trustees held the Plan's investments and participant notes receivable and executed all related transactions during the period under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information certified by the Trustees.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable at commonly quoted intervals.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements

December 31, 2017 and 2016

Note 4 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2017				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	\$ 23,644,843	\$ 23,644,843	\$ -	\$ -

Total	<u>\$ 22,885,625</u>	<u>\$ 22,625,558</u>	<u>\$ 260,067</u>	<u>\$ -</u>

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2017.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
