CECO ENVIRONMENTAL 401(K) SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1. Plan description

The following description of the CECO Environmental 401(k) Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all U.S. employees of CECO Environmental Corporation and its subsidiaries (collectively, the "Company"), who have one month of service and are age 18 or older. Certain individuals employed under a collective bargaining agreement, independent contractors, and leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants may contribute up to 100% of their annual compensation on a pre-tax or after-tax basis, as defined in the plan document. Participants who have obtained age 50 before the end of the plan year are eligible to make catch-up contributions. Unless specifically instructed by the employee, participants are automatically enrolled into the Plan deferring 3% of annual compensation on a pre-tax basis. Participants may roll over amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code ("IRC") as defined in the plan agreement.

The Company makes safe harbor matching contributions to the Plan of 100% of the first 3% of compensation and 50% of the next 3% of compensation that a participant contributes to the Plan. This will reflect a maximum company match of 4.5%. The Company may also elect to make a discretionary contribution which would be allocated in the same proportion as the participant's compensation bears to the total compensation paid to all participants in the Plan. No such discretionary contributions were made for the year ended December 31, 2017.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are allocated amongst investment options based on the participant's selected allocation percentage. The Plan currently offers various mutual funds and a collective trust fund as investment options for participants, managed by PNC Bank, N.A., trustee of the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan, and (b) decreases in investment value. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change their investment options at any time.

Vesting

Participants are vested immediately in their contributions and all of the Company's contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 5.25%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of amounts not vested are used to offset the Company's matching contributions. At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$28,160 and \$14,172, respectively. During 2017, forfeitures totaling \$15,523 were used to offset employer contributions to the Plan.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a specified period. The Plan also permits in-service withdrawals in which participants must attain age 59½ in order to withdraw amounts contributed through salary deferral or by the Company. Amounts contributed as rollover contributions or transferred from other plans may be withdrawn any time. Upon proof of an immediate and heavy financial need, employee deferral contributions may be withdrawn for a hardship purpose.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2017 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments including mutual funds and a collective trust funds. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, a portion of administrative expenses of the Plan are paid for by the Company.

Certain plan investments are managed by PNC Bank, N.A. Since PNC Bank, N.A. is the trustee and record keeper for the Plan, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. Fees paid by the Plan to PNC Bank, N.A. for other administrative fees amounted to \$163,709 for the year ended December 31, 2017.

4. Tax status

The IRS has determined that the prototype adopted by the Plan is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated March 31, 2014. Although the Plan has been amended since that date, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|----------|--|
| Level 1: | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2: | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3: | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and December 31, 2016.

- | | |
|--------------------------------|---|
| <i>Mutual funds:</i> | Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. |
| <i>Collective trust funds:</i> | Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. |

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 64,717,943	\$ -	\$ -	\$ 64,717,943
Total assets in the fair value hierarchy	64,717,943	-	-	64,717,943
Investments measured at NAV (a)	-	-	-	4,374,329
Investments at fair value	<u>\$ 64,717,943</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 69,092,272</u>

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 54,589,600	\$ -	\$ -	\$ 54,589,600
Total assets in the fair value hierarchy	54,589,600	-	-	54,589,600
Investments measured at NAV (a)	-	-	-	5,120,115
Investments at fair value	<u>\$ 54,589,600</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 59,709,715</u>

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

6. Reportable transactions

No reportable transactions were noted in 2017 and 2016.

8. Fidelity bonding requirements

The Plan was covered by a \$3,000,000 bond in 2017 and 2016.

9. Subsequent events

The plan administrator has evaluated subsequent events through September 14, 2018, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.
