Note 1. Description of Plan

The following description of the ICM Ventures/EMS Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General: The Plan was established on February 1, 1995, and is a defined contribution plan covering non-union employees of ICM Ventures, Inc. and Energy Management Solutions, Inc. (the Company). Full-time employees are eligible after completing six months of service and part-time employees must have at least 1,000 hours of service within the Plan year to be eligible. Entrance dates are the first day of each calendar quarter coinciding with or following the eligibility date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective January 1, 2017, to remove automatic enrollment. The Plan was also amended effective November 22, 2016 to merge in the Energy Management Solutions Retirement Plan.

Contributions: Participants may elect to contribute to the Plan, in the form of pretax or after tax (Roth deferrals), up to 90 percent of their eligible compensation, as defined in the plan documents, or the maximum amount allowable by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes safe harbor matching contributions equal to 100 percent of employee elective deferral contributions which are not over 3 percent of compensation, plus 50 percent of employee elective deferral contributions which are over 3 percent, but are not over 5 percent, of compensation. Participant and employer contributions are subject to certain limitations.

Other employer receivable: The other employer receivable of $716,591 as of December 31, 2017, of which approximately $614,000 relates to prior periods, is the amount that the Company contributed to the Plan in 2018 to correct errors through December 31, 2017, identified in the operation of the Plan related to the definition of eligible compensation. The Plan corrected this through the Voluntary Correction Program (VCP). The amounts were determined based on the proposed corrective action in the VCP filing. The submission was approved by the IRS upon receipt of the compliance statement on March 30, 2018.

Participant accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's salary deferral contributions, employer contributions, and account earnings; and may be charged with an allocation of administrative expenses. Participants direct the investment of their contributions into various investment options offered by the Plan, which are more fully described in the Plan's literature. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral contributions, employer safe harbor matching contributions, and earnings thereon.

Notes receivable from participants: Participants may borrow from their individual accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Note repayment terms may not exceed five years. Only one note per participant may be outstanding at a time. The notes are secured by the balance in the participant's account and bear interest at 4.25 to 5.25 percent, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Note 1. Description of Plan (Continued)

Payment of benefits: Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. The Plan also allows hardship distributions, as defined, subject to certain restrictions. Payments are made in the form of a lump-sum distribution or annual installments only if the participant is subject to lifetime required minimum distributions. If a participant terminates employment and the individual's vested interest in the Plan does not exceed $5,000 and is greater than $200, the distribution will be automatically rolled over into an IRA.

Note 2. Significant Accounting Policies

Basis of presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of asset and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was recorded as of December 31, 2017 and 2016. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Note receivable from participants have been classified as an investment asset for form 5500 reporting purposes, and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Certain operating expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' account. Investment related expenses are included in net appreciation in the fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 19, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Trustee

The following is a summary of the plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2017	2016
Cash	$ -	$ 7,372
Investments:		
Mutual funds	39,091,937	30,682,414
Money market fund	2,036,643	-
Collective investment fund	-	2,056,136
Notes receivable from participants	866,699	871,267
	$ 41,995,279	$ 33,617,189

INTRUST Bank, N.A. also certified to the completeness and accuracy of $5,005,873 of net appreciation in the value of the investments, $1,538,350 of interest and dividends related to the aforementioned investments, and $37,465 of interest income related to notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Accounting standards establish the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the net asset value of identical shares as determined in active markets, held by the Plan at year end.

Collective investment fund: Valued at the net asset value as reported by the trustee, based on audited financial statements of the fund at year-end. The net asset value is used as a practical expedient to estimate fair value.

Money market fund: Valued at net asset value (NAV) of shares held by the Plan as of year end, which approximates fair value, as a practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 39,091,937	$ -	$ -	$ 39,091,937
Total assets in the fair value hierarchy	$ 39,091,937	$ -	$ -	39,091,937
Investments measured at net asset value (a)				2,036,643
Total assets at fair value				$ 41,128,580

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds:	$ 30,682,414	$ -	$ -	$ 30,682,414
Total assets in the fair value hierarchy	$ 30,682,414	$ -	$ -	30,682,414
Investments measured at net asset value (a)				2,056,136
Total assets at fair value				$ 32,738,550

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net asset available for benefits.

Note 4. Fair Value Measurements (Continued)

Net asset value: The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. The following table includes categories of investments where NAV is available as a practical expedient:

	Fair Value as of December 31,		Redemption	Redemption
	2017	2016	Frequency	Notice Period
Money market fund	$ 2,036,643	$ -	Daily	Daily
Collective investment fund	-	2,056,136	Daily	None

Investments in this category can be redeemed daily at the current NAV per share based on their fair value of the underlying assets. There were no unfunded commitments for the investments where NAV is available as a practical expedient.

The objective of the money market fund is to provide current income consistent with stability of principal and liquidity, and it invests primarily in short-term U.S. Treasury and government securities.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6. Tax Status

The Plan has adopted a prototype, non-standardized profit sharing plan sponsored by INTRUST Bank, N.A. The prototype plan obtained an opinion letter dated March 31, 2014, in which the IRS stated that the form of the prototype plan, as then designed, is in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since adopting the prototype plan, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No provision for income taxes has been included in the Plan's financial statements related to this matter because the Company believes that the Plan continues to be qualified, and the tax status of the related trust continues to be tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related-Party Transactions and Party-In-Interest Transactions

INTRUST Bank, N.A. provides certain administrative services to the Plan pursuant to a Plan Administrative Services Agreement between INTRUST Bank, N.A. and the Company. Fees paid by the Plan to INTRUST Bank, N.A. were $69,274 for the year ended December 31, 2017.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2017 and 2016:
