(1) Description of the Plan

The Amersham Health Inc. Puerto Rico Pension Plan (the "Plan") is a frozen noncontributory defined benefit plan sponsored by GE Healthcare USA Holding Inc. (the "Company"), an affiliate of General Electric Company ("GE"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan provides participants with a lifetime income in retirement and the opportunity to continue payments for life to a surviving spouse, or under certain conditions, a specific designee following the participant's death during retirement.

On June 30, 1998, the Company sold its facilities and ceased operations in Puerto Rico. In connection with this transaction, all future benefits were effectively frozen and no new participants may be added on or after that date. All participants became fully vested as of the freeze date.

Participants are entitled to pension benefits (paid monthly) beginning at normal retirement age (65). The Plan permits early retirement beginning at age 55 if a participant has 5 years of credited service. However, benefits would be reduced by 2% per year from age 65 if commencing on or after age 62 or by 3% per year from age 65 if commencing prior to age 62.

Effective January 1, 2016, Wells Fargo Bank, N.A. became the trustee (the "Trustee") of the Plan assets.

On July 1, 2016, GE completed the sale of GE Asset Management ("GEAM"), a wholly owned subsidiary of GE to State Street Corporation. The investment objectives and policies of the Plan will not change as a result of this transaction.

This description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the Amersham Health Inc. Puerto Rico Pension Plan document. Information concerning the Plan, including benefits and vesting provisions, is also included in the Summary Plan Description and other material distributed to participants.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

Investment transactions are recorded on a trade date basis. Interest income is earned from settlement date and is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Notes to Financial Statements

December 31, 2017 and 2016

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities include registered investment companies.

See note 4 for additional information.

(d) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that will be required under the Plan's provisions based on the employees' contributions, compensation and service through year-end. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits payable as a result of retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of December 31, 2017 and 2016 were: (a) expected mortality rates of participants are determined using the MP-2014 aggregate base table with a generationally projected longevity improvement by a modified Scale MP-2017 (0.75% ultimate rate) for 2017 and the MP-2014 aggregate base table with a generationally projected longevity improvement by a modified Scale MP-2016 (0.75% ultimate rate) for 2016; (b) retirement age ranging from 55 to 65; and (c) interest discount assumption of 6.0% and 7.5%, respectively. The assumption changes in 2017 are primarily due to the decrease in the interest discount rate. The changes in actuarial assumptions in 2016 are primarily due to updates to the mortality tables.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

(f) Benefit Payments

Benefit payments to participants are recorded when paid.

Notes to Financial Statements

December 31, 2017 and 2016

(g) Reclassification

Certain prior year amounts have been reclassified to conform to current year presentation.

(3) Summary of Financial Information (Unaudited)

The information presented in this note and the "Fair Value Measurements" note (note (4)) below was derived from information that was certified as complete and accurate by the Trustee and was not subject to auditing procedures by the Plan's Independent Auditor as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2017 and 2016

(5) Related Party Transactions (Parties-in-Interest)

Through November 29, 2017, investments of the Plan included shares of a registered investment company previously advised by GEAM. Registered investment companies previously managed by GEAM are now advised by State Street Global Advisors ("SSGA"). Fees are paid in accordance with the prospectuses.

The Plan paid certain expenses related to Plan operations and investment activity to various service providers who are parties in interest under ERISA, including KPMG LLP, the auditor of the Plan's financial statements.

(6) Tax Status

The Internal Revenue Service has notified the Company by a letter dated April 1, 2015, that the Plan is qualified under the appropriate sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's counsel believe that the Plan's current design and operations comply in all material respects with the applicable requirements of the IRC, and that the letter remains valid.

The Plan has not previously been determined by the Puerto Rico Department of the Treasury ("Hacienda") to satisfy the tax qualification requirements of the Puerto Rico Internal Revenue Code ("PRIRC"). The Company has engaged Puerto Rico employee benefits counsel to address this by applying to Hacienda for a determination that the Plan satisfies such requirements for the current year and a period of preceding years.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. For the years ended December 31, 2017 and 2016, the Plan has not recognized a tax liability (or asset) related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions and its administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(7) Funding

It is the Company's policy to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine appropriate. The Company was not required to and made no contributions during 2017 and 2016. In addition, the Company had no formal commitment to contribute in 2018 for the 2017 plan year.

(8) Risks and Uncertainties

The Plan's investments are primarily in registered investment companies. Registered investment companies invest in U.S. equities, international equities, and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur (including in the near term) and that such changes could materially affect amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(9) Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth in ERISA.

Notes to Financial Statements

December 31, 2017 and 2016

In the event of complete Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in a prescribed order starting with benefits attributable to employee contributions.

Additionally, certain benefits under the Plan are insured by the PBGC, a U.S. government agency, if the Plan so terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants will receive their benefits should the Plan so terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018, that ceiling, which is adjusted periodically, is \$5,420 per month.

(10) Subsequent Events

Subsequent events after the statement of net assets available for plan benefits through September 10, 2018, the date the financial statements were issued, have been evaluated in the preparation of the financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
