NOTE 1 – PLAN DESCRIPTION

The following description of the Golden State Lumber, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Golden State Lumber, Inc. (the Company), Advanced Building Solutions, Inc. (ABS), and as of October 1, 2017, Beronio Lumber Company (BL), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is the Plan's sponsor and serves as plan administrator. The Plan was restated effective as of May 1, 2016.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and can enroll on the first day of the first month and of the seventh month of the Plan year. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer contributions.

Contributions

Participant contributions – Each year, participants may contribute up to 100% of pre-tax eligible compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant. Unless elected otherwise by the participant, deferrals are automatically increased annually by 1%, up to a maximum auto-deferral of 10%.

Employer match and profit sharing contributions – The Company may elect to contribute a discretionary matching contribution to participants employed on the last day of the plan year and have worked at least 1,000 hours during the plan year. For the 2017 and 2016 Plan years, the Company made matching contributions of 35% of employee deferrals, up to an amount determined by the plan administrator. In addition, the Company may make discretionary profit sharing contributions to the Plan. Employer contributions are invested as directed by the participant. Contributions are subject to certain Internal Revenue Service (IRS) limitations. There were no discretionary profit sharing contributions for the year ended December 31, 2017.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are immediately vested in their contributions, plus actual earnings on the contributions. Vesting in the Company's matching and profit sharing contribution portion of their accounts is based on years of continuous service.

A participant is 100% vested after six continuous years of credited service. The employer's vesting schedule for plan participants is as follows:

Years of service	Vesting Percentage
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 30 years. The notes are secured by the balance in the participant's account that bear interest at the prime rate published in the Wall Street Journal on the first business day of the month the loan is originated. Principal and interest is paid ratably through payroll deductions. As of December 31, 2017, the rates of interest on outstanding loans ranged from 3.25-4.25% with various maturities through November 2047.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annuity benefit payments, or systematic withdrawals. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If the account balance of a terminated participant under the age of 62 is less than or equal to $1,000, such amount will be distributed in a lump-sum distribution. Vested account balances ranging from $1,001 to $5,000 will be automatically rolled over to an individual retirement account.

Forfeited accounts – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in Plan and will first be used to reduce future employer contributions; any remaining forfeitures will pay administrative expenses. At December 31, 2017 and 2016, forfeited nonvested accounts totaled $22,613 and $27,678. In 2017, employer contributions were reduced by $19,826 from forfeited nonvested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value and contract value. Great-West certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts (FBRIC) because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events – The Plan has evaluated subsequent events through July 23, 2018, which is the date the financial statements were available to be issued.

Reclassification – Certain amounts from the prior year statement of net assets available for benefits have been reclassified, in order to conform to the current year presentation.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Registered investment companies (mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the net asset value of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy of the Plan's assets at fair value as of December 31:

	2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 36,018,918	$ -	$ -	$ 36,018,918
Investments at fair value	$ 36,018,918	$ -	$ -	$ 36,018,918

	2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 28,844,448	$ -	$ -	$ 28,844,448
Investments at fair value	$ 28,844,448	$ -	$ -	$ 28,844,448

NOTE 4 – GUARANTEED INVESTMENT CONTRACT

In 2011, the Plan entered into an FBRIC with Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The FBRIC permits either party to terminate the agreement with at least a 60-day advance notice prior to maturity. Termination charges may apply at the discretion of the issuer if the contract is terminated prior to maturity. The FBRIC shall be deemed to terminate once all Plan assets have been distributed.

The contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West Life & Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE 5 – TAX STATUS

The plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

NOTE 7 – INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016;

- Net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017; and

- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of a guaranteed interest account managed by Great-West. As Great-West is the custodian of the Plan, transactions with Great-West qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
