1. Description of Plan:

The following description of the Trailer Bridge, Incorporated Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1986 for the administration of any contributions made by Trailer Bridge, Inc. (the "Company") and to encourage eligible employees to defer a part of their current income to provide for their retirement, death or disability under the provisions of Section 401(k) of the Internal Revenue Code. The Plan covers all full time US employees. Employees who are not otherwise excluded may become a participant upon attaining age 18 and can enter the Plan the first of the month following hire or any date thereafter. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to defer, subject to the limitation by the Internal Revenue Code of 1986, as amended, up to 90% of their annual eligible compensation. The Company's matching contribution is subject to change at the discretion of the Board of Directors. As of July 2012, the Company's matching contribution was suspended. No optional profit sharing contributions were made during Plan years 2017 or 2016.

Participant Accounts

A Deferred Salary Account, Non-Deductible Voluntary Contribution Account, a Rollover Account, a Company Optional Profit Sharing Account, and a Company Match Account are maintained for each participant. Deferrals elected by each participant will be credited to the participant's Deferred Salary Account and all Company match contributions will be allocated to the participant's Company Match Account. Plan earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants invested in that fund. Any related administrative expenses based on participant earnings or account balances are deducted from the participant's account. The participants' accounts are adjusted daily to reflect contributions, income and expenses.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a common collective trust as investment options for participants.

1. Description of Plan (Continued):

Vesting

The participant's Deferred Salary Account, nondeductible Voluntary Contribution Account and Rollover Account are always 100% vested. The Company Match and Optional Profit Sharing Accounts are vested based on the following table:

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participant Loans Receivable

Participants are permitted one outstanding loan at a time. Participants may borrow a minimum of $500, up to 50% of their vested contributions and related earnings, not to exceed $50,000. Loans are secured by the balance in the participant's account and must be repaid in level payments through payroll deductions within a five-year period, except for loans for the purchase of a principal residence which may be repaid over a reasonable period of time not to exceed a maximum of 30 years. The participant pays an interest rate of one point above the prime rate.

Payment of Benefits

The entire vested balance in an individual participant's account, shall be payable to the participant, upon the election of the participant, upon retirement at or after age 65, upon determination of total and permanent disability, or to the participant's beneficiary in the event of death. Additionally, hardship withdrawals and certain other in-service withdrawals are also permitted by the Plan if certain criteria are met. Account balances that are under $1,000 may be automatically paid out at the discretion of the Plan. Balances between $1,000 and $5,000 may be transferred to an IRA, also at the discretion of the Plan.

Forfeited Accounts

Forfeitures from nonvested participant accounts are used to reduce future Company contributions and pay for Plan expenses. There were $10,842 and $5,458 in forfeited non-vested accounts at December 31, 2017 and 2016.

2. Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Valuation

Participants in the Plan direct their accounts to be invested in various investment options. Investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Income Recognition

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Realized gains and losses on the sales of securities are reported on the average cost method.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Loans Receivable from Participants

Loans receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributed based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Accounting Policies (Continued):

Administrative Expenses

The majority of administrative expenses are paid by the Company. Included in other income, the Company contributed $7,681 and $2,653 to the Plan to pay administrative expenses during the years ended December 31, 2017 and 2016, respectively. Administrative expenses recorded in the Plan pertain primarily to loan origination and record-keeping fees, which are charged directly to those participants with outstanding loans.

Risks and Uncertainties

The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market and credit. The Plan limits its credit risk by maintaining its accounts with what it believes to be a high quality financial institution. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that the changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Fair Value Measurements:

Financial Accounting Standards Board Statement Accounting Standards Certification Topic 820 (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
>
> Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
>
> Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following descriptions of the valuation methods and assumptions used by the Plan to estimate fair values of investments apply to investments held directly by the Plan.

3. Fair Value Measurements (Continued):

The following table summarizes by level within the fair value hierarchy, the Plan investments measured at fair value, as of December 31, 2017 and 2016:

		Fair Value	
December 31,	Level	2017	2016
Investments included in fair value hierarchy:			
Mutual funds	1	$ 3,234,604	$ 3,233,979
Common collective trust, measured at NAV *(a)*		93,556	228,642
Total investmnents at fair value		$ 3,328,160	$ 3,462,621

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value (NAV) have not been classified in the fair value hierarchy.

Mutual funds

The fair values of mutual fund investments held by the Plan are determined by obtaining quoted prices on nationally recognized security exchanges (Level 1 inputs).

Common Collective Trust

The Plan invests a common collective trust which owns investment contracts that may invest in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The investments in the common collective trust are valued at the net asset value (NAV) based on the fair value of the underlying securities within the investment in accordance with ASC Subtopic 820-10. It is possible that these redemption rights may be restricted in the future in accordance with the underlying fund agreements which could impact the fair value of the Plan's interests in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Information Certified by the Trustee:

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CRF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2017	2016
Mutual funds	$ 3,234,605	$ 3,233,979

Interest on participant loans receivable	890	1,488

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

5. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100 percent vested in their accounts.

6. Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 16, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Service.

Management evaluated the Plan’s tax positions and concluded that as of December 31, 2017 the Plan had taken no uncertain tax positions that require recognition of a liability (or asset) in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years before 2014.
