Part V - Statement of Actuarial Assumptions/Methods

Catalyst Investors, LLC Cash Balance Plan

EIN / PN: 52-2221276 / 002

### **ACTUARIAL ASSUMPTIONS (Continued)**

#### **Actuarial Methods**

into Consideration

Actuarial Cost Method The actuarial cost method used to determine the actuarial

Target Liability and Target Normal Cost is the Unit Credit Actuarial Cost Method, as required under IRC Section 430. The actuarial valuation date is the last day of the plan year.

Asset Valuation Method Market value of all Trust Investments, plus any accrued but

unpaid contributions to the Trust discounted to the Valuation

Date.

### Other Facts Relevant to the Valuation of This Plan

Employee Data An employee census as of the Valuation Date was supplied

by the Company and included all employees in the Eligible

Class. We did not audit the census.

Asset Data Asset data as of the Valuation Date and contribution

amounts and dates were supplied by the Company. We did

not audit the asset data.

<u>Changes in Actuarial</u> The valuation interest rates are the rates required per IRC Assumption or Methods

Section 430, and the cash balance interest credit rate is the

Section 430, and the cash balance interest credit rate is the 30-year treasury rate for the third full month immediately

preceding the first month of the Plan Year.

This year the credit rate is 2.50% compared to 2.89% last year.

The mortality assumptions used are those mandated by the

Internal Revenue Service for this valuation, per IRC Section 430.

Because this plan has fewer than 500 participants, we use the

unisex assumptions.

Events and Trends Which To the best of our knowledge, there has been no event or

<u>Have Not Been Taken</u> trend which has not been taken into consideration and

which may require a material change in plan costs or required contribution rates. In addition, no Plan amendments adopted and effective after the valuation date of December 31, 2017 were considered for this Valuation, nor do any exist of which

we are aware except statutory CPI increases in maximum

benefits and considered compensation.
