CRISP ENTERPRISES, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. Description of Plan

The following description of the Crisp Enterprises, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan originally established October 5, 2008 by Crisp Enterprises, Inc. dba Crisp Imaging (the "Company" or "Plan Sponsor"), as defined in the Plan document, under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

On July 27, 2017, the Company changed the Plan name from C2 Reprographics 401(k) Plan to Crisp Enterprises, Inc. 401(k) Plan.

b. Administration

The Plan is overseen by a committee (the "Administrative Committee" or "Plan Administrator") appointed by the Company. The Company's contract administrator and third party trustee and custodian is Principal Life Insurance Company (the "Custodian" or "Principal"). The Custodian has the power to administer the Plan and apply all of its provisions on behalf of the Plan Sponsor and the Administrative Committee. The Plan Sponsor has the discretion to appoint or remove any trustee or agent of the Plan.

c. Eligibility

The Plan covers all employees of the Company who are age 21 or older.

d. Participant Contributions

Participants may contribute to the Plan up to 100% of eligible compensation through elective, pre-tax salary deferrals, subject to IRC limits of $18,000 for the years ended December 31, 2017 and 2016. Upon reaching the age of 50, participants may make additional catch-up contributions limited to $6,000 for the years ended December 31, 2017 and 2016. Participants may also make rollover contributions from other qualified defined plans and certain individual retirement accounts.

e. Employer Contributions

The Company may make matching contributions each payroll period equal to a uniform percentage of participants' elective salary deferrals, as determined by the Company. For the year ended December 31, 2017, the Company made safe harbor matching contributions to eligible participants equal to 100% of participants' elective salary deferrals, limited to 3% of compensation, plus 50% of participants' elective salary deferrals, between 3% and 5% of compensation. There was no employer match for the year ended December 31, 2016. Safe harbor matching contributions satisfy certain "safe harbor" requirements of the IRC, which eliminates the requirement for the Plan to perform certain annual non-discrimination testing.

The Company may also make a discretionary non-elective contribution to the Plan each year. To be eligible for these contributions, participants must be employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year. If made, such contributions are allocated to eligible participants' accounts based on each participant's compensation in proportion to total compensation for all eligible participants. The Company did not make any discretionary non-elective contributions for the years ended December 31, 2017 or 2016.

All contributions are invested in the participants' accounts according to their specified investment allocations as of the date of the contribution.

f. Participant Accounts

Individual accounts are maintained for each participant to reflect the participant's contributions, employer contributions, and allocations of Plan earnings (losses) and administrative expenses. Allocations are done daily using a weighted-average of participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

g. Vesting

Participants are always 100% vested in their elective salary deferrals, catch-up contributions, rollover contributions, safe harbor matching contributions, and any earnings (losses) thereon effective January 1, 2017. Participants vest in employer discretionary non-elective contributions, and any earnings (losses) thereon, as follows:

Years of Vesting Service	Vesting Percentage
Less than 1 years	0%
1 but less than 2 years	20%
2 but less than 3 years	40%
3 but less than 4 years	60%
4 but less than 5 years	80%
5 or more years	100%

Participants become 100% vested in their accounts if they are employed with the Company and reach normal retirement age (65), become totally disabled, die, or if the Plan terminates.

h. Forfeitures

Participants who terminate employment forfeit the non-vested portion of their employer matching and discretionary non-elective contributions and earnings thereon. As of December 31, 2017 and 2016, there were no forfeited non-vested accounts. Forfeitures may be used to pay Plan administrative expenses or reduce matching contributions. For the years ended December 31, 2017 and 2016, no forfeitures were used.

i. Notes Receivable from Participants

Participants may borrow from their accounts the lesser of a) $50,000, reduced by the highest outstanding note balance during the prior year, or b) 50% of their vested account balance, subject to a $500 minimum. Notes are secured by the vested balance in the participant's account. The number of loans approved for a Participant in any 12-month period shall be limited to three.

Note payments are made through payroll deductions over periods up to five years, unless the note is used to acquire a principal residence, in which case the term may be extended at the discretion of the Plan Administrator. New notes bear interest at the prime rate plus 1% per annum, fixed at inception of the note. As of December 31, 2017, notes mature through 2022 and bear interest at rates ranging from 4.25% to 5.25% per annum, which are commensurate with local prevailing rates as determined by the Plan Administrator at the time of the note.

j. Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive an amount equal to the participant's vested account balance in a lump-sum payment, installment payments over the participant's or beneficiary's assumed life expectancy, roll the amount to an individual retirement account or other eligible transferee plan, or delay payment until the required beginning date of minimum distributions, depending on the value of the account. In addition, the Plan permits in-service distributions for participants who are age 59 ½ or older. The Plan also permits in-service distributions of early retirement for participants who are age 55 or older and have completed 5 years of vesting service. Distributions paid prior to the participant attaining age 59 ½ or 55 for early retirement and not rolled into another retirement account are subject to federal income tax of 20% and a federal excise tax of 10%.

Vested account balances less than $5,000, but more than $1,000 may be distributed as a lump-sum cash payment or in the form of a direct rollover to an individual retirement account or eligible retirement plan at the consent of the

participant or beneficiary. Vested account balances less than $1,000 are distributed in a single lump-sum cash payment to the participant or beneficiary.

k. Hardship Withdrawals

Upon certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single lump sum, a portion of their elective deferral contributions as a result of an immediate and heavy financial need. These conditions include the payment of tax-deductible medical expenses, post-secondary education tuition for immediate family members, funeral or burial costs of immediate family members, natural disaster clean-up on the participant's primary residence, the purchase of the participant's primary residence, or to prevent eviction or foreclosure from the participant's primary residence. A participant's right to make elective salary deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

l. Administrative Expenses

All reasonable expenses of administration may be paid out of the Plan assets unless paid by the Company. Expenses, to the extent not paid by the Company, are paid by the Plan and allocated to participants based on their account balances. The Company paid $9,250 and $9,000 on behalf of the Plan for the years ended December 31, 2017 and 2016, respectively. Expenses that relate solely to a specific participant, such as fees for notes receivable or benefit payments, are assessed to the participant. Certain expenses are included in the transaction prices of investments bought and sold and cannot be separately quantified.

2. Summary of Significant Accounting Policies

a. Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") as set forth by the Financial Accounting Standards Board (the "FASB").

b. Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the amounts of net assets available for benefits, changes therein, accompanying notes and supplemental schedule. Actual results could differ from those estimates.

d. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Net appreciation in fair value of investments consists of the net change in unrealized gains or losses during the year and the realized gain or loss on investments sold during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

e. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If an active participant fails to make payments for more than 90 days after they are due, the note will be in default. Under certain circumstances, as indicated in the Plan document, a note that is in default may be treated as a taxable distribution from the Plan and will be included in the statements of changes in net assets available for benefits as a benefit payment.

f. Payment of Benefits

Benefits are recorded when paid.

g. Subsequent Events

Effective February 2018, the Company switched contract administrator, third party trustee and custodian from Principal Life Insurance Company to Transamerica Life Insurance Company. All assets were transferred to Transamerica Life Insurance Company on February 6, 2018.

The Plan Administrator has evaluated subsequent events through September 13, 2018, the date the financial statements were made available for issuance.

3. Information Certified by the Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was provided and certified by the Custodian as of December 31, 2017 and 2016 and for the years then ended as complete and accurate:

- Investments, at fair value
- Investment income
- Schedule of assets (held at end of year)

The classification of the investments into the appropriate levels (1, 2, or 3) as disclosed in Note 5.a is not certified by the Custodian and is the responsibility of Plan management.

4. Investments

All Plan investments are participant-directed and held by the Custodian as of December 31, 2017 and 2016. Participants can direct their accounts among various pooled separate accounts and guaranteed interest contracts.

The Plan has a group annuity contract issued by Principal Life Insurance Company. The investment option provides for a guarantee of principal and interest. Contributions and transfers allocated to this investment option will be credited interest as a guaranteed interest rate Principal Life declares for a set period of Time (the Guarantee Period). Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account. Guarantees are supported by the General Account of Principal Life.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. For the years ended December 31, 2017 and 2016, the contract value for guaranteed interest contract approximates fair value. For the years ended December 31, 2017 and 2016 the average yield earned by the fund and average interest rate credited to participants was 1.24% and 0.44%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe

that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

5. Fair Value Measurements

a. Fair Value Hierarchy

ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets,
    - Quoted prices for identical or similar assets or liabilities in inactive markets,
    - Inputs other than quoted prices that are observable for the asset or liability, and
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments at fair value. There have been no changes in the methodologies used at December 31, 2017 or 2016.

Pooled Separate Accounts

Pooled separate accounts are valued at net asset value ("NAV"), which is determined by dividing the fair market value of the underlying investments by the total number of units in the account. Pooled separate accounts invest in mutual funds, domestic stocks and fixed securities. Although the majority of the fair values of the underlying investments are publicly quoted pricing inputs (Level 1), pooled separate accounts are not publicly quoted and, therefore, are classified as Level 2 within the valuation hierarchy.

Guaranteed Interest Contracts

The guaranteed interest contracts ("GICs") are backed by Principal's general account. Due to the nature of these contracts, they do not have specific underlying assets assigned. Since Principal Life GICs are not traded on an open market and public prices are not available, fair value calculations are determined based on unobservable inputs that reflect the Plan's own assumptions about how the market would price the asset, based on the best information available in the circumstances. Therefore, the guaranteed interest contracts are classified as Level 3 within the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 948,328	$ -	$ 948,328
Guaranteed interest contracts	-	-	2,020	2,020
Total investments at fair value	$ -	$ 948,328	$ 2,020	$ 950,348

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2017 and 2016:

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input values
Guaranteed interest contracts	$ 2,020	Discounted Cash Flow	Composite Guaranteed Rate	0.10%
			Current Rate on December 31, 2017	1.24%

b. Investments Calculated at Net Asset Value per Share

The following table provides information regarding redemption of investments where the NAV has been used to measure fair value as of December 31, 2017 and 2016:

	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2017	2016			
Pooled separate accounts	$948,328	$530,163	None	Daily	None

6. Party-in-Interest Transactions

A party-in-interest is defined as a fiduciary or employee of the Plan, any person who provides service to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or a relative of such persons mentioned.

All of the Plan's investments are managed by the Custodian, as of December 31, 2017 and 2016 and for the years then ended. Therefore, these investments and their related investment transactions qualify as party-in interest transactions.

For the years ended December 31, 2017 and 2016, Aligne Wealth Preservation and Insurance Services, LLC ("Aligne") provided services to the Company related to the Plan and earned fees on these services. Therefore, Aligne qualifies as a party-in-interest.

Additionally, the Company is party-in-interest to the Plan. However, there were no transactions with the Company other than the funding of contributions to the Plan and payment of certain administrative expenses.

7. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its employer contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer matching and discretionary non-elective contributions and earnings thereon.

8. Tax Status

The Plan utilizes a Principal Life Insurance Company Prototype Non-Standardized Profit Sharing Plan Document which received an opinion letter dated March 31, 2014 in which the IRS stated that as of that date the Plan document was designed in compliance with the applicable IRC requirements. The Plan has been amended since Principal received the opinion letter. However, Plan management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, Plan management believes that the Plan is qualified and the related trust is tax exempt as of December 31, 2017 and 2016 and for the years then ended.

Assuming it meets certain initial and ongoing requirements, the Plan is generally exempt from federal and state income taxes. However, GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, foreign currency and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Non-exempt Transactions

During the years ended December 31, 2015 and 2014, employee withholdings in the amount of $205 and $17,509, respectively, were not remitted to the Plan by the Company within the time period required by the Department of Labor. These late remittances constitute a prohibited transaction as defined by ERISA. Management remitted the lost earnings related to these late contributions during 2017.
