Note 1 - Plan Description

The following description of Grecian Delight, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan generally covering all employees of Grecian Delight Foods, Inc. and affiliates (the "Company"), except for leased employees and residents of Puerto Rico. Employees who have attained the age of 21 and have completed 90 days of service are eligible to participate in the Plan. Employees who have elected to make employee deferrals in the Plan are eligible for employer safe harbor matching contributions. Employees who have attained the age of 21 and have completed one year of qualified service are eligible to receive discretionary nonelective employer contributions.

Employees who are covered by a separate collective bargaining agreement are eligible to contribute to the Plan and are eligible for employer matching contributions and discretionary nonelective employer contributions after reaching age 21 and completing one year of qualified service.

Employees are eligible to participate in the Plan on the first day of each month coinciding with or following the date when plan eligibility criteria are met. Employees are eligible to receive discretionary employer contributions on the first day of each plan year and the first day of the fourth, seventh, and tenth months of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2016, the Grecian Delight, Inc. Union Employees Profit Sharing and 401(k) Plan and Trust and the Grecian Delight, Inc. Employees Profit Sharing and Savings Plan & Trust, with net assets totaling $3,541,495, merged into the Grecian Delight, Inc. Retirement Savings Plan.

Contributions

The Plan provides for 401(k) deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to their regular deferral contributions. Participants may designate all or a portion of their contributions as Roth 401(k) contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company makes a safe harbor matching contribution equal to 100 percent of the first 3 percent of the participant's eligible compensation and 50 percent of the next 2 percent of the participant's eligible compensation. Eligible participants covered under separate collective bargaining agreements are not entitled to receive the Plan's matching safe harbor contribution. Instead, matching contributions for these participants are determined by specific collective bargaining agreement provisions.

The Company may make an additional discretionary nonelective matching contribution on behalf of each eligible participant. The Company made no discretionary nonelective contributions in 2017.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting

Participants are immediately vested in all employee deferral and company safe harbor contributions, including any earnings thereon. For nondiscretionary employer contributions, participants are 100 percent vested after reaching two years of qualified service. For employees that are covered as part of a collective bargaining agreement, refer to the plan document for a description of company matching contribution vesting provisions.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment, in the form of a lump-sum amount or installment payments equal to the vested balance of a participant's account. A participant who has attained age 59½ or is experiencing a financial hardship may request a withdrawal of a portion of his or her vested balance.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay administrative expenses of the Plan. Any remaining forfeitures are used to reduce future company contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

Mutual funds are valued at closing quoted prices recorded in active markets.

The common collective trust fund is valued at net asset value per share (NAV) (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets and liabilities. There are no redemption restrictions or unfunded commitments on this investment.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains include gains and losses on investments bought and sold, as well as held, during the year.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 5 for additional information.

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Administrative Expenses

Various administrative costs are paid out of plan assets.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 17, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017	
	Investments (at Fair Value)	Level 1
Mutual funds	$ 7,600,363	$ 7,600,363
Investment measured at NAV - Common collective trust fund	55,130	
Total investments at fair value	$ 7,655,493	

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2016	
	Investments (at Fair Value)	Level 1

General

The Plan is a defined contribution plan generally covering all employees of Grecian Delight Foods, Inc. and affiliates (the "Company"), except for leased employees and residents of Puerto Rico. Employees who have attained the age of 21 and have completed 90 days of service are eligible to participate in the Plan. Employees who have elected to make employee deferrals in the Plan are eligible for employer safe harbor matching contributions. Employees who have attained the age of 21 and have completed one year of qualified service are eligible to receive discretionary nonelective employer contributions.

Employees who are covered by a separate collective bargaining agreement are eligible to contribute to the Plan and are eligible for employer matching contributions and discretionary nonelective employer contributions after reaching age 21 and completing one year of qualified service.

Employees are eligible to participate in the Plan on the first day of each month coinciding with or following the date when plan eligibility criteria are met. Employees are eligible to receive discretionary employer contributions on the first day of each plan year and the first day of the fourth, seventh, and tenth months of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2016, the Grecian Delight, Inc. Union Employees Profit Sharing and 401(k) Plan and Trust and the Grecian Delight, Inc. Employees Profit Sharing and Savings Plan & Trust, with net assets totaling $3,541,495, merged into the Grecian Delight, Inc. Retirement Savings Plan.

Contributions

The Plan provides for 401(k) deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to their regular deferral contributions. Participants may designate all or a portion of their contributions as Roth 401(k) contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company makes a safe harbor matching contribution equal to 100 percent of the first 3 percent of the participant's eligible compensation and 50 percent of the next 2 percent of the participant's eligible compensation. Eligible participants covered under separate collective bargaining agreements are not entitled to receive the Plan's matching safe harbor contribution. Instead, matching contributions for these participants are determined by specific collective bargaining agreement provisions.

The Company may make an additional discretionary nonelective matching contribution on behalf of each eligible participant. The Company made no discretionary nonelective contributions in 2017.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting

Participants are immediately vested in all employee deferral and company safe harbor contributions, including any earnings thereon. For nondiscretionary employer contributions, participants are 100 percent vested after reaching two years of qualified service. For employees that are covered as part of a collective bargaining agreement, refer to the plan document for a description of company matching contribution vesting provisions.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment, in the form of a lump-sum amount or installment payments equal to the vested balance of a participant's account. A participant who has attained age 59½ or is experiencing a financial hardship may request a withdrawal of a portion of his or her vested balance.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay administrative expenses of the Plan. Any remaining forfeitures are used to reduce future company contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

Mutual funds are valued at closing quoted prices recorded in active markets.

The common collective trust fund is valued at net asset value per share (NAV) (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets and liabilities. There are no redemption restrictions or unfunded commitments on this investment.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains include gains and losses on investments bought and sold, as well as held, during the year.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Administrative Expenses

Various administrative costs are paid out of plan assets.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 17, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
