INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Fayez Sarofim & Co. Profit Sharing Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Fayez Sarofim & Co. Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits – modified cash basis for the years then ended, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016 and the changes in its net

assets available for benefits for the years then ended in accordance with the basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting which is a basis of accounting other than U.S. generally accepted accounting principles. Our opinion is not modified with respect to that matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule, Schedule H, line 4i – Schedule of Assets Held at End of Year – Modified Cash Basis as of December 31, 2017, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Fayez Sarofim & Co. Profit Sharing Plan

Notes to Financial Statements

December 31, 2017

Note 1 - Significant Accounting Policies

Basis of accounting

The books and records of the Fayez Sarofim & Co. Profit Sharing Plan (the "Plan") are maintained on the modified cash basis of accounting and its financial statements and supplemental schedule are prepared on the same basis of accounting. Under this method, income is recorded when received rather than when earned and contributions to be made by the employing companies (sponsors) are accrued at year-end. Vested interest distributions are recorded when paid.

Determination of realized and unrealized gain or loss on investments

Unrealized appreciation or depreciation in the fair value of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gain or losses recognized in prior years. Unrealized appreciation or depreciation and realized gains or losses are reported as net appreciation or depreciation in fair value of investments in the statements of changes in net assets available for benefits.

Valuation of Plan assets

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Use of estimates

The preparation of financial statements, in conformity with the modified cash basis of accounting, requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Description of the Plan

General

The description of the Plan noted below provides only general information. Employees should refer to the summary plan description pamphlet for a more complete description of the Plan's provisions. Copies of the pamphlet are available from the plan administrator's office.

The Plan is a defined contribution plan covering all employees of Fayez Sarofim and Co. (the "Company") and other entities owned and controlled. Employees automatically become participants on January 1st immediately following their date of employment. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Note 2 - Description of the Plan (Continued)

Contributions

During the calendar years ending 2017 and 2016, the Company contributed an amount which, when added to the forfeitures, if available, was equal to 25% of compensation paid to all eligible participants for all entities of the Company, except for Sarofim Realty Advisors Co., which was paid 10% of compensation for calendar years ending 2017 and 2016. Compensation taken into account for purposes of the Plan cannot exceed an indexed dollar amount per individual per year ($270,000 and $265,000 for 2017 and 2016, respectively). Furthermore, the total amount of the Company contributions (and forfeitures) allocated in any year on behalf of a participant under this plan cannot exceed the lesser of $54,000 and $53,000 in 2017 and 2016, respectively, (as adjusted for cost-of living increases) or the percent of compensation described above. All contributions are placed in a trust fund to be invested for the exclusive benefit of the participants. Participants are not allowed to contribute to the Plan.

Participant accounts

Each participant's account is credited with an allocation of the Company's contributions, Plan earnings/losses, and forfeitures of non-vested accounts of terminated participants. Allocations of Company contributions and participant forfeitures are determined by dividing the total compensation each participant received during the Plan year by the total compensation received by all Plan participants during the Plan year. Allocations of investment income/loss and investment appreciation/depreciation are determined by dividing the participant's account value on the preceding valuation date by the total participants' account values on the preceding valuation date. All investments held in the Plan are non-participant directed.

Vested interest distributions and vesting schedule

Participants are vested in their accounts based on years of vesting service. One year of vesting service requires completion of 1,000 hours of service. A participant is 20% vested after two years of service and vests 20% each year thereafter until fully vested.

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the account, annual installment payments over a 20-year period, or a commercial life annuity.

Upon attaining the age of 59 ½ years, a participant who has participated in the Plan for at least 60 cumulative months may withdraw from his or her profit sharing account an amount not to exceed the value of such account. Amounts accumulated in the Pension Plan (which was merged into the Profit Sharing Plan in 2003) may not be distributed until termination of service. Annual required minimum distributions are necessary for participants over the age of 70 ½ or if later, the year in which they retire. If the account owner is a 5% owner who has reached age 70 ½, they are required to take a distribution regardless of whether they are retired.

Forfeitures

If a participant terminates employment before having a fully vested interest in their account, the non-vested balance of the account will be forfeited.

Fayez Sarofim & Co. Profit Sharing Plan

Notes to Financial Statements

December 31, 2017

Note 2 - Description of the Plan (Continued)

Forfeitures (continued)

Forfeitures are retained in the Plan and are used to first restore the forfeited amount of a terminated participant if he is reemployed prior to incurring a five consecutive year break in service assuming the participant repays the amount so distributed to him from the Plan within five years from the date the participant is reemployed. A reemployed participant, who had a 0% vested interest on their date of termination of employment, shall be considered to have repaid a distribution of zero dollars on the date of their reemployment. Any remaining forfeitures are used to offset the Company's contribution. No forfeitures were used to restore participant accounts during 2017 and 2016. During 2017, forfeitures used to reduce the Company contribution was $34,306. There were no forfeitures used to reduce the Company contribution in 2016. As of December 31, 2017 and 2016, there were no forfeitures that remained in the Plan.

Trustee

The Plan is administered by a committee of at least three members appointed by the directors of the sponsoring companies. A trust has been established to hold and invest employers' contributions and income thereon. Generally, the trust holds, manages, controls, invests, and disposes of the trust fund assets, subject to certain investment limitations in "qualifying securities," as defined in the Plan. Sarofim Trust Co. became the trustee of the Plan on February 1, 2014.

Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 - quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (Continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the valuation method is considered appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of the financial instruments could result in a different fair value measurement at the reporting date.

Common stock traded on the New York or NASDAQ Stock Exchanges is valued at the closing market price, while stock traded over-the-counter, if applicable, is valued at the closing bid price. All common stock as of December 31, 2017 and 2016 was valued at level 1.

Note 4 - Plan Administration Cost

The Company has elected to pay expenses related to the administration of the Plan.

Note 5 - Other Employing Companies

Corporations, associations or partnerships owned or controlled completely by Fayez Sarofim & Co. are part of the Plan. For purposes of the Internal Revenue Code ("IRC"), the Plan, as adopted by all employing companies, is a single plan. All assets in the Plan are available to pay benefits to all participants and their beneficiaries.

Note 6 - Income Tax Status

The Internal Revenue Service ("IRS"), in a determination letter dated May 7, 2015, has ruled that the Plan qualifies under Section 401(a) of the IRC and, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended and restated in its entirety effective January 1, 2014. The Administrative Committee of the Plan is not aware of any action or event that has occurred that might affect the Plan's qualified status. Fayez Sarofim & Co. Profit Sharing Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Top Heavy Status

The Plan is considered to be a top-heavy plan, as defined in the IRC, and therefore has vesting requirements and must provide minimum contributions for all participants.

Note 8 - Financial Instruments and Credit Risk

Financial instruments, which potentially subject the Plan to credit risk, include investments in common stock. Investment securities are exposed to various risks, such as interest rate, market, concentration and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits. Plan participants bear the risk of any Plan investment losses.

Note 9 - Subsequent Events
