SUMMARY OF ACCOUNTING POLICIES

DECEMBER 31, 2017 AND 2016

DESCRIPTION OF PLAN

The following description of Blastrac Global, Inc. 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

The Plan is a defined contribution plan covering all full-time employees of Blastrac NA, Inc., Global Polishing Solutions, LLC, and Cyclone Technology, LLC (the "Companies"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligible employees may make voluntary contributions through payroll deductions of not less than 1% and up to 100% of compensation on a tax deferred basis pursuant to Section 401(k) of the Internal Revenue Code of 1986. These employee contributions in any calendar year may not exceed a prescribed dollar amount that is increased from year to year for cost of living changes. The employee voluntary contributions are matched by the Company in an amount determined by the Company for each plan year. In addition, the Company provides accounting services to the Plan without charge and absorbs some of the Plan's expenses.

Each participant's account is credited with the participant's 401(k) contribution and the allocation of (1) the Company's contribution and (2) plan earnings. Allocations are based on participants' account balance or in the same manner as the Company's profit sharing contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Matching contributions are vested at 0% for less than 1 year of service, 34% between 1 to 2 years of service, 67% between 2 to 3 years of service, and 100% over 3 years of service plus actual earnings thereon.

Upon enrollment in the Plan, participants may direct their contributions among the various investment options as identified in the statement of assets available for plan benefits. Participants may change their investment options at any time.

On termination of service, a participant may elect to receive a lump-sum distribution of his or her vested account balance.

Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Employer contributions payable under the Plan

SUMMARY OF ACCOUNTING POLICIES

DECEMBER 31, 2017 AND 2016

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENTS

The plan assets, administered by Fidelity Management Trust Company, are part of a separate account established by Fidelity Management Trust Company. This separate account has varying investment divisions that invest in shares of diversified, open-end management investment companies. These investments are valued at the closing net asset value per share as determined by the appropriate fund portfolio at the end of each day. The cost of investments represents shares of the funds that were purchased for this separate account. Purchases are made at the net asset value from the net purchase payments or through reinvestment of all distributions from this separate account.

The Plan represents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its security investments in registered investment companies. This net appreciation (depreciation) consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent participant loans are reported as distributions.

A participant may request to borrow a minimum of \$1,000 and a maximum amount of the lesser of one-half of their vested account balance or \$50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. All loans from plans maintained by the participant's employer or a related employer will be considered for purposes of determining the maximum amount of the loan. Up to 50% of their vested account balance may be used as collateral for any loan. All loans shall bear a reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan. Principal and interest is paid ratably through monthly payroll deductions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

NOTE 1 – INFORMATION CERTIFIED BY PLAN’S TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2502.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2017 and 2016;
- Net investment activity as show in the statement of changes in net assets available for benefits for the year ended December 31, 2017;
- Investment information included in the footnotes and in the supplementary schedule of assets held at end of year as of December 31, 2017.

The Plan’s independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 2 – PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments held are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative duties are performed by officers and employees of the Plan Sponsor. No officer or employee receives compensation from the Plan for these services.

NOTE 3 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 4 - TAX STATUS

The trust established under the Plan to hold the Plan's assets qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from federal income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

NOTE 5 – ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

Accounting principles generally accepted in the United State of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that is more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years before 2014.

NOTE 6 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 – FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;

BLASTRAC GLOBAL, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

NOTE 8 – FAIR VALUE MEASUREMENTS (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
