AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 — DESCRIPTION OF THE PLAN

The following brief description of the American Medical Alert Corp. 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted on January 1, 1997, is a defined contribution plan covering substantially all employees of American Medical Alert Corp. and Subsidiaries (the “Company”) who are not members of a collective bargaining unit and who elect to join the Plan. In order to be eligible, an employee must have completed one month of service. An employee can enroll in the Plan on the first day of the calendar quarter following satisfaction of the eligibility requirements. All contributions are participant directed. Participants may elect to invest contributions in one or more of the available investment options. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan includes safe harbor provisions.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A participant’s total contributions in any year may not exceed the maximum amounts for that year as specified in Sections 401(k) and 415 of the Internal Revenue Code and regulations thereunder. Safe harbor contributions are 100% matched up to 4% of the participant’s salary.

Participant Accounts

Each participant’s funds are kept in their own separate pre-tax and Company contribution accounts. Each participant’s pre-tax account is credited with the participant’s contribution, and the Company matching contributions are credited to the participant’s Company contribution account. Net investment gain or loss in each fund and administrative expenses are allocated to each participant’s account in proportion to account balances, as defined.

Vesting

Participants are immediately vested in their pre-tax contributions plus actual earnings thereon. Prior to January 1, 2013, vesting in the Company’s discretionary contributions plus actual earnings thereon are based on years of service. The vesting of discretionary contributions is 0% for the first and second year and 25% for years three through six. Prior to January 1, 2013, a participant is 100% vested for the fixed matching contributions after five years of service. As of January 1, 2013, the vesting for fixed matching contributions is 100% immediately.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of the vested value of their vested account balance. The loans must bear a reasonable interest rate and be adequately secured by the vested balance of the participant's account. Principal and interest are repaid through periodic payroll deductions. A participant may only have one loan outstanding at any one time. The term of the loan may not exceed five years unless it is for the purchase of a primary residence whereby the loan cannot exceed twenty years.

Payment of Benefits

Upon termination of service, participants receive the value of their vested accounts either in a lump sum distribution or in installments. The date of the initial payment of benefits depends upon the participant's plan status at termination, benefit payment method and age.

Investment Options

Voya Retirement Insurance and Annuity Company, formerly ING Life Insurance and Annuity Company, under a trust agreement, hold the assets of the Plan, including all contributions and earnings thereon. Upon enrollment in the Plan, participants may direct contributions in the insurance investment contract and pooled separate account, each of which contains several investment options.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies adopted by the Plan is as follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Guaranteed investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are participant-directed and reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are reported as investments on Form 5500. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon payment.

Administrative Expenses

The Company sponsors the Plan. Personnel of the Company perform various administrative duties for the Plan. The payroll and related overhead costs associated with these duties are not included as Plan expenses. Most administrative expenses of the Plan, including record keeping, consulting, and audit fees, are paid by the Company and excluded from the financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Recent Accounting Pronouncements

In July 2015, FASB issued ASU No. 2015-12 ("*I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient.*") Under Part I of the update, fully benefit-responsive investment contracts are measured, presented and disclosed at contract value for defined contribution and health and welfare benefit plans. Part II of the update eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investment by general type. Additionally, Part II requires that investments of employee benefit plans be grouped only by general type, eliminating the need to expedient to permit plans to measure investment and investment-related accounting as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month end.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements (Continued)

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. This guidance removes the requirement to categorize within the value hierarchy all investments for which fair value is measured using net asset value per share (or its equivalent) using the practical expedient. New guidance was given effective January 1, 2016. The standard is effective for interim and annual periods beginning after December 15, 2015.

The standards should be applied retrospectively to all periods presented and early adoption is permitted. The plan is assessing the potential impact of the recent accounting pronouncements but does not expect adoption will have a material effect on the Plan financial statements.

Subsequent Events

Plan management has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

NOTE 3 — INVESTMENTS

The Plan's investments are held in various funds with Voya Retirement Insurance and Annuity Insurance Company ("Voya"), formerly ING Life Insurance and Annuity Company. At December 31, 2015 and 2014, all investments are participant-directed. The following investments represent the fair value that consists of five percent or more of the Plan's net assets available for benefits at:

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 3 — INVESTMENTS (Continued)

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest, dividends and investment expenses for the year ended December 31, 2015 was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Voya.

Voya Fixed Account

The Plan has entered into a benefit-responsive investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported, to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Voya. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity was provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The current rate for the guaranteed investment contract is subject to change at any time, but will never fall below the guaranteed minimum. The current rate, expressed as annual effective yield, is 3%.

NOTE 4 — FAIR VALUE MEASUREMENT

Financial Accounting Standards Board *Accounting Standards Codification* ("Codification"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 — TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2014 that the Plan based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 6 —TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 7 — RECONCILIATION OF CERTAIN FINANCIAL STATEMENT AMOUNTS TO AMOUNTS
IN FORM 5500**

The Plan prepares its Form 5500 on the cash basis. The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014 to Form 5500:

NOTE 8 — PARTY-IN-INTEREST TRANSACTIONS

The pooled separate accounts and guaranteed investment contract are managed by Voya Retirement Insurance and Annuity Company, the Trustee, and considered as party-in-interest transactions. Fees incurred and paid directly by the Plan for the investment management services were \$2,160 for the year ended December 31, 2015. Certain administrative functions are performed by employees of the Company (who may also be participants in the Plan) at no cost to the Plan. The Company paid audit fees amounting to \$20,000 on behalf of the Plan for the year ended December 31, 2015.

NOTE 9 — RISKS AND UNCERTANTIES

The Plan invests in various investment options using a combination of investments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
