RESCUE INCORPORATED 401(K) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

Note 1 – Description of plan

The following brief description of the Rescue Incorporated 401(K) Plan & Trust (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description for more complete information.

General

The Plan is a defined contribution plan adopted January 1, 2006, which covers all employees of Rescue Incorporated (the “Organization”) who are age twenty-one or older. Contingent employees are not eligible for employer matching or discretionary contributions but may make deferrals. Non-contingent employees are eligible for employer matching contributions subject to having worked 1,000 hours in the year preceding any semi-annual entrance date. Non-contingent participants are eligible for employer discretionary contributions if they meet the age and service qualifications for participation in the Plan. Employees may enter the Plan at the entry dates as specified in the Plan document after they have met all eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The provisions of the Plan are included in the Plan document which legally governs the operations of the Plan and participants should refer to it for more complete information.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation as defined in the Plan document. Employer contributions are accrued in the period in which they become obligations of the Organization. The Organization contributes matching and discretionary contribution amounts per pay period. Matching contributions are based on 100% of elective deferrals up to 2%. Discretionary contributions are 3% of eligible compensation, which is determined by pay period from entry date as a participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans as rollovers. Contributions are subject to certain limitations. All contributions are subject to compliance with the Internal Revenue Code regulations.

Participant accounts

Each participant’s account is credited with his or her contributions, employer matching and profit sharing contributions. Each day, the income, expenses, and the realized and unrealized gains and losses on securities are allocated to participant accounts. Participants are responsible for directing the investment of their Plan assets into any of the investment options offered by the Plan. The Plan currently offers several mutual funds as options for participants. Matching and discretionary amounts contributed by the employer are invested in the same portfolio investments.

Vesting

Participants are fully vested in their compensation deferral, the Organization’s matching and discretionary contributions, and all earnings thereon.

Forfeitures

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$0 and \$4,045, respectively. These accounts will be used to reduce future employer contributions.

Note 1 – Description of plan – continued

Payment of benefits

Payments of benefits will be made only as a lump sum payment as stipulated in the Plan. Participants entitled to a distribution also have the option of having their vested account balance transferred to another tax exempt plan and trust which is qualified under the Internal Revenue Code or to an individual retirement arrangement as provided under the Internal Revenue Code.

Notes receivable from participants

Beginning December 1, 2017, the Plan now allows participants to borrow from their participant deferred account a minimum of \$1,000 up to a maximum of \$50,000 or 50% of account balance not to exceed their total employee deferrals. The notes bear interest at a fixed rate commensurate with local prevailing rates at the inception of the note as determined by the Plan Administrator. The note repayment schedule can be no longer than 60 months or 120 months if the note is for the purpose of acquiring the principal residence of the participant. Principal and interest are paid ratably through after-tax payroll deductions. The notes are secured by the balance in the participants account. Only one note can be outstanding at a given time.

Plan termination

Although it has not expressed any intention to do so, the Organization has reserved the right to terminate the Plan at any time subject to the provisions of the ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 2 – Significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting, whereby income is recognized when earned and expenses are recognized when the obligations are incurred. Benefit payments are recorded when distributed by the Plan.

Income tax status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS), that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative costs

The Plan's administrative costs are paid by either the Plan or the Organization as provided by the Plan document.

Valuation of investments and income recognition

Investments held by the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

New accounting pronouncement

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 should be applied retrospectively to all periods presented and is effective for annual periods beginning after December 15, 2016 with early adoption permitted. The Plan elected to early adopt the new guidance applicable to the Plan for the year ended December 31, 2015.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15). ASU 2014-15 defines management's responsibility to evaluate whether there is a substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. In connection with preparing financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about an organization's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 is effective for fiscal years ending after December 15, 2016. Management has performed this assessment as of the date these financial statements were issued and no going concern uncertainties were identified.

Subsequent events

The Plan Sponsor has evaluated subsequent events through September 26, 2018, the date the financial statements were available to be issued.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2017 and 2016, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2017, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the current trustee and Alerus Financial, N.A., the former trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Note 4 – Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

- Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2. Inputs to the valuation methodology include:
 - a. Quoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in inactive markets;
 - c. Inputs other than quoted prices that are observable for the asset or liability;
 - d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4 – Fair value measurements - continued

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Money Market and Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

<u>Description</u>	<u>Total</u>	<u>Fair Value Measurements at December 31, 2017</u>		
		<u>Level (1)</u>	<u>Level (2)</u>	<u>Level (3)</u>

Total investment assets at fair value	<u>\$ 1,920,680</u>	<u>\$ 1,920,680</u>	<u>\$ 0</u>	<u>\$ 0</u>

Note 5 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of assets available for the plan benefits.

NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

Note 4 – Fair value measurements - continued

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Money Market and Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Description	Total	Fair Value Measurements at December 31, 2017		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 2,292,522	\$ 2,292,522	\$ 0	\$ 0
Total investment assets at fair value	\$ 2,292,522	\$ 2,292,522	\$ 0	\$ 0

Description	Total	Fair Value Measurements at December 31, 2016		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 1,691,638	\$ 1,691,638	\$ 0	\$ 0
Money market funds	229,042	229,042		
Total investment assets at fair value	\$ 1,920,680	\$ 1,920,680	\$ 0	\$ 0

Note 5 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of assets available for the plan benefits.
