BELKNAP 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
For the year ended December 31, 2017

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Belknap 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full time employees of the Belknap Plumbing Systems, Inc. (the Company) and its affiliate Belknap Concrete Cutting, Inc. who have met eligibility requirements. Employees must be at least 21 years of age with at least 6 months of service to participate in all Plan contribution types. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent related amendments and revisions. The Plan's third party administrator (NOVA 401k Associates) and the Board of Trustees determine the appropriateness of the plan's investments and monitors investment performance.

Contributions

Qualified participants may elect to defer 100% of their annual compensation, subject to federal limitations. Participants who have attained age 50 before the end of the calendar year are eligible to defer an additional catch-up contribution. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investing of the contributions in any of the Plan's available investment options. Each year, the Company may contribute to the Plan, employer matching contributions at the option of the Company's board of directors. Each year, the Company may contribute to the Plan, a percentage of its current profits before 401k Plan and profit sharing costs and income taxes at the option of the Company's board of directors. Each year, the Company makes safe harbor matching contributions in an amount equal to the sum of 100% of the amount of each participant's elective deferrals that do not exceeded 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of participant's compensation but do not exceed 5% of the participant's compensation. For the plan year 2017, the Company did not make discretionary matching or profit sharing contributions. The employer contribution totaled $108,272 for the year ended December 31, 2017 and consisted of safe harbor matching contributions only.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's discretionary profit sharing and matching contributions, safe harbor contributions, Plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their voluntary contributions, including rollover contributions, plus actual earnings thereon as based on years of continuous service. Vesting in the Company matching and profit sharing contributions is based on years of continuous service as follows:

Years of Vesting Service	Vested Percentage
Less than two years	0%
Two years	25%
Three years	50%
Four years	75%
Five years	100%

Payment of Benefits

On termination of service due to death, disability, or retirement a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account at December 31, 2017.

Forfeited Accounts

The Plan allows the Company to use forfeitures to pay Plan expenses, reduce the Company's employer matching contribution (other than those that must be fully vested when contributed such as safe harbor matching), added to employer matching contributions and reallocated as an additional matching contribution, or added to employer discretionary profit sharing contribution. At December 31, 2017 and 2016 there were no forfeited nonvested accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through September 27, 2018, which is the date the financial statements were available to be issued. Management is of the opinion that there are no subsequent events to disclose.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in accordance accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintain the Plan are paid by the Company and are therefore excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments. Administrative expenses of the Plan are allocated to participant accounts.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying financial statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consists of quoted prices for similar assets in active markets, quoted prices for similar or identical assets in inactive markets, inputs other than quoted prices that are observable for the asset and inputs that are derived principally

NOTE C - FAIR VALUE MEASUREMENTS (continued)

from or corroborated by observable market data; Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of the investments.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fixed account is not actively traded but is valued using other observable inputs. The fair value of the fixed account reflects the approximate amount that would have been paid if the contract had been terminated as of the last day of the reporting period and potential surrender charges and market value adjustments were applied as of such date. There is a documented formula in the contract for the adjustment of the fixed account from contract value to fair value. Thus the value of the fixed income account is reported at fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

December 31, 2017	Fair Value	Quoted prices in active markets for identical assets (Level 1)	Other Observable Inputs (Level 2)
Mutual funds	$ 497,652	$ 497,652	$ -
VOYA fixed account	112,160	-	112,160
Total investments at fair value	$ 609,812	$ 497,652	$ 112,160

December 31, 2016	Fair Value	Quoted prices in active markets for identical assets (Level 1)	Other Observable Inputs (Level 2)
Mutual funds	$ 239,277	$ 239,277	$ -
VOYA fixed account	50,613	-	50,613
Total investments at fair value	$ 289,890	$ 239,277	$ 50,613

NOTE C - FAIR VALUE MEASUREMENTS (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2017, are reported in net appreciation in fair value of investments.

The following table reconciles the beginning and ending balances of the fair value measurements using other observable inputs (Level 2) of the fixed account for the years ended December 31, 2017 and 2016:

	VOYA fixed account	
	2017	2016
Balance, beginning of year	$ 50,613	$ -
Contributions	60,704	50,357
Interest	843	256
Balance, end of year	$ 112,160	$ 50,613

If the contract had been discontinued as of December 31, 2017 a contract surrender charge and certain market value adjustments may have applied to the amount withdrawn for the VOYA fixed account. The market value adjustment for the year ended December 31, 2017 totaled $3,143. There was no market value adjustment for the year ended December 31, 2016. The market value adjustment was not included in the statement of changes in net assets available for benefits for the year ended December 31, 2017 because there were no plans to discontinue the contract. The VOYA fixed account is stated at contract value which approximates fair value.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2017, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

NOTE D – GROUP ANNUITY CONTRACT – FIXED ACCOUNT

In 2015, the Plan entered into a group annuity contract (allocated pension or profit sharing plan) with VOYA Retirement Insurance and Annuity Company (VRIAC). The contract offers a fixed investment option with guaranteed interest rates and open-end, registered, management investment companies (mutual funds). The fixed account is an obligation of VRIAC's general account. Plan assets invested in mutual funds are held in a separate account. Plan assets invested in the fixed account are held in VRIAC's general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VRIAC is obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract adds interest daily to amounts held in the fixed account at a guaranteed annual rate no less than 1%.

The VOYA fixed account is presented on the face of the statement of net assets available for benefits at contract value which approximates fair value. Contract value, as reported to the Plan by VRIAC, represents contributions made under the contract, plus earnings, less withdrawals and

NOTE D – GROUP ANNUITY CONTRACT – FIXED ACCOUNT (continued)

administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an agreed-upon formula with the issuer, but it may not be less than 1%. Such interest rates are reviewed on an annual basis for resetting.

Certain events might limit the ability of the Plan to transact at contract value with John Hancock. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation

A material amendment to the agreements without the consent of the issuer.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE F – INCOME TAX STATUS

General IRS opinion letter was issued on March 31, 2014 on the prototype agreement that was used for the Plan document. The Plan sponsor did not request a separate determination letter from IRS.

NOTE F – INCOME TAX STATUS (continued)

The plan has been amended since, however, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by VOYA Retirement Insurance and Annuity Company (VRIAC). Also the fixed account funds are in the general account of VRIAC. VRIAC is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $880 for the year ended December 31, 2017.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
