REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Benefits Committee
WBC Holdings, L.P.
Retirement Plan for Partners

Report on the financial statements

We have audited the accompanying financial statements of the WBC Holdings, L.P. Retirement Plan for Partners (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness

of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's financial status as of December 31, 2017 and 2016, and changes therein for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Supplementary information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2017, and of reportable transactions for the year ended December 31, 2017, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such supplementary information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

A person becomes an eligible partner, as defined by the Plan, when he or she has attained age 21 and has completed two years of service. Partner means either a Point or Production Partner as defined in the WBC Holdings, L.P. Operating Agreement. Certain Production Partners as of December 31, 2016, became Point Partners effective January 1, 2017.

Funding

The sponsor of the Plan contributes such amounts as are necessary on an actuarial basis to provide sufficient assets to meet benefit payments to Plan participants and fund prior-year service costs. The Plan has met the ERISA minimum funding requirements for 2017 and 2016.

Vesting

A participant shall have a fully vested and non-forfeitable interest in his or her accrued benefit under the Plan at all times. Participants receive an annual cash balance credit which is determined in accordance with the Plan's established formula credit matrix. Effective January 1, 2017, for purposes of determining cash balance credits, any participant who was a Production Partner effective as of December 31, 2016, will continue to be deemed a Production Partner, even if the Participant subsequently becomes a Point Partner. A participant's Plan benefit equals his or her annual cash balance credits plus their share of actual investment returns on Plan assets.

Benefit Payments

The Plan allows for benefit payments to commence upon the attainment of the normal retirement age, as defined by the Plan, permanent disability or death. The participant will be entitled to receive a single lump-sum payment or an annual retirement income. Any participant whose employment is terminated prior to normal retirement age is eligible to receive a distribution of his or her vested accrued benefit.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation is included the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Administrative expenses can be paid by the Plan or paid by William Blair & Company (the Company).

Payment of Benefits

Benefits are recorded when paid.

NOTE C - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by Charles Schwab and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The following summarizes the significant actuarial assumptions used in calculating the actuarial present value of accumulated Plan benefits using the entry age normal method of valuation:

Interest crediting rate	3.5% in 2017 and 2016
Assumed retirement age	Age 65
Mortality basis	The fully generational RP-2006 Base Mortality Table with the MP-2017 improvement scale in 2017
	The fully generational RP-2006 Base Mortality Table with the MP-2016 improvement scale in 2016

The foregoing actuarial assumptions were based on the presumption that the Plan will continue.

As of December 31, 2017 and 2016, the actuarial present value of accumulated Plan benefits is as follows:

	2017	2016
Vested benefits		
Participants	$72,621,053	$57,603,103
Actuarial present value of accumulated Plan benefits	$72,621,053	$57,603,103

Changes in the actuarial present value of accumulated Plan benefits between the December 31, 2017 and 2016, valuations are as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	$57,603,103
Increase during the year attributable to	
Benefits accumulated	15,868,119
Increase in interest	1,966,811
Benefits paid	(2,816,980)
Actuarial present value of accumulated Plan benefits at end of year	$72,621,053

NOTE D - TAX STATUS

The Company has received a favorable determination letter, dated October 16, 2017, for the Plan from the Internal Revenue Service (IRS). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon

examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

NOTE E - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION MATTERS

Although the Company has not expressed any intention of terminating the Plan, the Company has the right under the Plan, in certain circumstances, to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the Plan's net assets will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations and the Plan document.
If the Plan terminates, a portion of the benefits under the Plan is insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE F - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) has issued guidance that establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhance disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used to measure assets at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Mutual funds - Valued at the net asset value of shares held by the Plan at year-end based on quoted market prices.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$69,957,431	$ -	$ -	$69,957,431

	2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$54,989,961	$ -	$ -	$54,989,961

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE H - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Plan sponsor and; therefore, these transactions qualify as party-in-interest transactions.

NOTE I - SUBSEQUENT EVENTS

Management has considered subsequent events through September 14, 2018, the date through which the financial statements were available to be issued. No events or disclosures were noted that would have an impact on the December 31, 2017, financial statements or disclosures.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

A summary of the actuarial methods and assumptions used in the valuation is presented below:

Funding Methods

Cost Method – The actuarial cost method used in this report for determining ERISA contributions is the unit credit method as defined by the Pension Protection Act of 2006.

Asset Method - Assets represent the Market Value of Assets as of January 1, 2017 plus the discounted receivable contributions made in 2017 for the 2016 plan year.

Actuarial Assumptions

Interest Rate

The assumed discount rates on benefits paid in the future are based on the January 2017 PPA Segment rates reflecting the funding stabilization provisions within MAP-21 and modifications under the Highway and Transportation Funding Act (HATFA):

Segment	Rate	Applicable to benefit payments made:
1	4.16%	During first 5 years starting from the valuation date.
2	5.72%	During years 6-20 starting from the valuation date.
3	6.48%	During years 21 and beyond starting from the valuation date.

Salary Increase Rates – N/A

Interest Crediting Rate – 3.50%

Retirement Age – Participants are assumed to retire at the later of age 65 and his or her current age.

Mortality - The 2017 IRS Static Mortality table.

Turnover/Disability – None

Administrative Expenses – No administrative expense is expected to be paid from the invested plan assets.

Assumed Form of Payment – Lump Sum

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Changes Since Last Valuation:

As required by PPA and IRS regulations reflecting the retroactive application of the Highway and Transportation Funding Act (HATFA) of 2014, the interest rates used to determine the Funding Target were as follows:

January 1, 2017: IRS Segment Rates for January 2017 (4.16%, 5.72%, 6.48%);
January 1, 2016: IRS Segment Rates for January 2016 (4.43%, 5.91%, 6.65%)

The mortality table was changed to the 2017 IRS Static Mortality table. Previously, the 2016 IRS Static Mortality table was used.

The assumed interest crediting rate used to calculate the plan's funding target and target normal cost was changed to 3.50%. Previously an assumed interest crediting rate of 4.25% was used.

All other actuarial assumptions remained unchanged from the prior valuation.
