Report on the Financial Statements

We have audited the accompanying financial statements of the Metcut Research Associates Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Metcut Research Associates Inc. Employee Stock Ownership Plan as of December 31, 2017 and 2016, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Metcut Research Associates Inc. Employee Stock Ownership Plan

**Notes to Financial Statements
December 31, 2017 and 2016**

Note 1: Description of the Plan

The following description of the Metcut Research Associates Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

Metcut Research Associates Inc. (Company) established the Plan effective as of January 31, 1976. As of February 1, 1991, the Plan was amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA). The Plan is administered by a board of trustees comprised of three persons appointed by the Metcut Research Associates Inc. Board of Directors (these individuals are collectively referred to as the Trustee in the trust agreement covering the Plan). The Company maintains the required employment records for all participants. All shares of the Company have been allocated to participants.

The Plan purchased Company common shares and holds the stock in a trust established under the Plan.

Participation

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are 21 years or older. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such year.

Participant Accounts

The Plan is a defined-contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

Participants are 100% vested after three years of service. Participants terminating due to normal retirement, death or disability will be 100% vested.

Metcut Research Associates Inc. Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2017 and 2016

Payment of Benefits

The total amount of any distribution will depend on a number of factors such as the number of years the individual has been a participant, the extent of Employer contributions during those years and the earnings (losses) of the trust fund during the period. The distribution of a participant's vested benefits may occur after retirement, separation from service or death. All distributions will be made in a lump-sum manner and paid in cash. In 2017 and 2016, all distributions were paid in cash.

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

At December 31, 2017 and 2016, Plan assets include \$2,952,220 and \$1,912,877, respectively, allocated to accounts of terminated or retired participants who have not yet been paid.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were no forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2017 and 2016. There were no forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2017 and 2016.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and all participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value on December 31, 2017 and 2016. Fair value is determined by annual independent appraisals.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Plan Tax Status

The Plan obtained its latest determination letter on August 8, 2016, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. Although the Plan has been amended since receiving its determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

**Notes to Financial Statements
December 31, 2017 and 2016**

Note 3: Administration of Plan Assets

The Trustee of the Plan hold the Plan's assets, which consist principally of Metcut Research Associates Inc. common shares.

Company contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants.

Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4: Investments

The Plan's investments, at December 31, 2017 and 2016, are presented in the following tables:

		2017	
		Cost	Fair Value
Metcut Research Associates Inc. common stock (2,745 shares)		\$ 4,300,674	\$ 22,347,045

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include interest-bearing cash. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. The Plan held no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Level 3 securities include Metcut Research Associates Inc. common stock. See the table below for inputs and valuation techniques used for Level 3 securities.

Fair value determinations for Level 3 measurements of securities are the responsibility of Plan management. Plan management contracts with a pricing specialist to generate fair value estimates on an annual basis. Plan management challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Metcut Research Associates Inc. Common Stock
Balance, January 1, 2016	\$ 19,822,084
Net appreciation	<u>798,356</u>
Balance, December 31, 2016	20,620,440
Net appreciation	<u>1,726,605</u>
Balance, December 31, 2017	<u><u>\$ 22,347,045</u></u>

All appreciation indicated above represents unrealized gains related to assets held at December 31, 2017 and 2016, respectively.

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31,		Valuation Technique	Unobservable Inputs
	2017	2016		
Company common stock	\$ 22,347,045	\$ 20,620,440	Adjusted book value Adjusted earnings value	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for various operating factors Discount for lack of liquidity of publicly available information

Note 6: Employer Contributions

The Company may make contributions in cash or in employer shares to the Plan at its discretion each plan year. In 2017 and 2016, Company contributions were made in cash.

Metcut Research Associates Inc. Employee Stock Ownership Plan

**Notes to Financial Statements
December 31, 2017 and 2016**

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Company provides certain administrative services at no cost to the Plan.

Note 8: Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 9: Subsequent Events

On April 26, 2018, the ESOP entered into a loan agreement with the Company in the amount of \$1,953,840. The loan is payable \$244,230 annually through April 2026 plus interest at a rate of 3.5%.

On April 26, 2018, the ESOP entered into a stock purchase agreement with the Company. The ESOP purchased 240 shares of the Company's stock for \$1,953,840.

Subsequent events have been evaluated through August 6, 2018, which is the date the financial statements were available to be issued.
