Jay Industries, Inc. Profit Sharing & 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Jay Industries, Inc. Profit Sharing & 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Jay Industries, Inc. (JII) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). In December 2016, the Plan was amended to allow the employees of Nanogate Jay Systems, LLC. as an unrelated employer to participate in the plan in January 2017.

Each full-time employee, with the exception of collective bargaining employees, of JII and its subsidiaries, Longview Steel Corporation (LVS), JTR Resins, Ltd (JTR) and Jay Mid-South, LLC (JMS), is eligible to participate in the Plan following the completion of six months of service and attainment of age 21. Participants are automatically enrolled in the Plan with an initial pretax deferral rate of 3% unless the participant affirmatively elects out of the automatic deferral feature, elects a different deferral rate or elects not to participate in the Plan. In addition, in order to participate in any employer discretionary matching or profit sharing contributions, the employee must be employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year. The Plan entry dates are January 1, April 1, July 1 and October 1. Participants direct the investments of contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds (registered investment companies) and a money market fund as investment options.

Contributions: Plan participants may authorize payroll deductions up to 100% of their compensation as a pretax contribution. The amount of a participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowed under the IRC. In addition, participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. JII, at its discretion, will match participant contributions (excluding catch-up contributions) not to exceed 2% of the participant's eligible compensation. JII may also make a discretionary profit sharing contribution to the Plan; no such profit sharing contribution was made for the year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) JII's matching contributions, (b) JII's profit sharing contributions and (c) Plan earnings and losses. Allocations are based on participant compensation or account balances, in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contributions along with the earnings thereon is based on years of continuous service; where a year is defined as one where an Employee works 1,000 or more hours.

Jay Industries, Inc. Profit Sharing & 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting in the Employer's contributions along with earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 year	10%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more	100%

Payment of benefits: A participant may receive the value of his or her vested account upon retirement, disability or termination in a lump sum distribution. Upon death or disability of a participant, the beneficiary shall be entitled to the full value of the account.

Forfeitures: As of December 31, 2017 and 2016, forfeited non-vested accounts totaled \$19,226 and \$11,818, respectively. Forfeitures of \$6,825 were used to pay plan expenses or reduce the employer contribution as stated in the plan document. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution in 2018.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the Employer.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Plan is responsible for certain administrative expenses, which are recognized when incurred. A portion of the administrative expenses are paid by JII at their discretion.

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Sponsor has evaluated subsequent events for potential recognition and/or disclosure through September 25, 2018, the date the financial statements were available to be issued.

Note 3. Tax Status

The Plan utilizes a standardized form of a prototype plan sponsored by Fidelity Management & Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and is, therefore, not subject to federal income taxes under present income tax laws.

Note 4. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016 and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that were prepared by or derived from information provided by Fidelity Management Trust Company (Fidelity) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2017	2016
Investments, at fair value:		
Registered investment companies	\$ 16,183,055	\$ 13,555,999
Money market fund	2,513,155	2,707,484

The trustee also certified to the completeness and accuracy of the net appreciation in fair value of investments of \$1,741,068, and interest and dividend income of \$847,746 related to the aforementioned investments for the year ended December 31, 2017.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Money market fund: Valued at the closing price reported on the active market on which the fund is traded, generally at \$1 per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Plan Termination

Although it has not expressed any intent to do so, JII has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Party-In-Interest Transactions

Certain Plan investments held during the year are shares of registered investment companies managed by Fidelity. Fidelity is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2017, the Plan paid administrative fees in the amount of \$39,356 to the trustee and plan service providers.
