(1) Description of Plan

The following description of the Clougherty Packing, LLC Retirement Plan for Certain Employees (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Clougherty Packing, LLC (the Company) covering substantially all hourly employees of the Company who are members of the local collective bargaining unit, as defined by the Plan. Eligible employees become participants upon their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Smithfield Foods, Inc. Investment Committee (Investment Committee) is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance, and controls and manages the operation and administration of the Plan.

On January 2, 2017, the Company and certain affiliated companies were sold by Hormel Foods Corporation to Smithfield Foods, Inc.

Contributions

Participants may contribute (rollover) amounts representing distributions from other qualified retirement plans. No other participant contributions are permitted. The Company contributes $0.50 per hour for each regular hour worked, as defined by the Plan.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan, which include common collective trusts, a pooled separate account and registered investment companies.

Participant Accounts

Each participant's account is credited with allocations of the Company's contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' rollover contributions are immediately fully vested. Employer contributions are 100% vested after three years of vesting service. Participants become immediately vested in employer contributions upon death, disability, or attainment of normal retirement age while employed.

(1) Description of Plan, Continued

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Amounts contributed on a pre-tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

Forfeitures

At December 29, 2017, there was no balance in the forfeited non-vested account. At October 29, 2017, forfeited nonvested accounts totaled $90,613. These accounts will be used to reduce future Company contributions and pay administrative expenses of the Plan. For the period ended December 29, 2017, forfeitures of $93,965 were used to offset employer contributions.

Plan Merger

On December 29, 2017, the assets of the Plan were transferred to various Smithfield Foods, Inc. sponsored retirement plans.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Expenses

The Plan's administrative expenses are paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 28, 2018, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company (Reliance), the trustee of the Plan, except for comparing such information certified by Reliance to information included in the Plan's financial statements. The following information was relied upon in the preparation of the financial statements:

- The investments at fair value at October 29, 2017.
- Net appreciation in fair value of investments for the period October 30, 2017 to December 29, 2017.
- Interest and dividends for the period October 30, 2017 to December 29, 2017.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codifications* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 29, 2017 and October 29, 2017.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Continued...

(4) Fair Value Measurements, Continued

Common stock fund: The common stock fund consists of common stock of Hormel Foods Corporation, which is valued at the last reported sales price on the last business day of the year, and a portion of unvested cash, which is reported at carrying value as maturities are less than three months.

Effective January 2, 2017, the Hormel Foods Corporation Stock Fund ceased to qualify as an employee stock ownership plan as defined by ERISA. As of this date, participants were no longer allowed to direct new contributions or transfer investments into this fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 29, 2017:

Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 208,946	$ -	$ -	$ 208,946
Common stock fund	-	826,227	-	826,227
	$ 208,946	$ 826,227	$ -	1,035,173
Investments measured at NAV as a practical expedient (a)				21,286,190
Total investments at fair value				$ 22,321,363

(a) In accordance with Accounting Standards Update (ASU) 2015-07, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the period ended December 29, 2017 and year ended October 29, 2017.

Continued...

(4) Fair Value Measurements, Continued

The following table summarizes investments measured at fair value based on the NAV per share as a practical expedient as of October 29, 2017:

Investment	Fair Value at October 29, 2017	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
BlackRock Funds	$ 19,853,691	None	Daily, subject to frequent	No defined period
Wells Fargo Stable Value Fund E	1,432,499	None	Daily, subject to frequent trading provisions	No defined period
	$ 21,286,190			

(5) Related Party Transactions and Party-In-Interest Transactions

For the period ended December 29, 2017, fees paid to Mass Mutual amounted to $5,788 for investment management and administrative services. Mass Mutual is the record keeper of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

(6) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 20, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
