J. Marchini & Son, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2017

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the J. Marchini & Son, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions. The Plan was established with an effective date of January 1, 2017 (date of inception).

General
The Plan is a defined contribution plan covering all J. Marchini & Son, Inc. (the "Company") employees who are 21 years old and have 12 months of service. This Plan, which became effective January 1, 2017, is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions
Participants may contribute up to the maximum dollar amount determined by the federal government. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a 100% match up to 3% of eligible compensation and then a 50% match up to 5% of eligible compensation which is deferred. The Company matching contributions are Safe Harbor Match contributions. Company contributions for the year ended December 31, 2017 totaled $86,306.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of the Company's contribution(s) and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' non-vested accounts may be used to reduce future Company contributions.

Vesting
Participants are immediately vested in their contributions and Company contributions plus actual earnings thereon.

Payment of benefits
On termination of service due to death, disability, or retirement the participant's vested account balance will be distributed in one lump sum in accordance with Plan provisions. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The change in the difference between current value and the cost of investments together with realized gains and losses on investments sold and interest income earned during the year is reflected in the statement of changes in net assets available for Plan benefits. See Note 4.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution, Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in Common Collective Trust (CCT) investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE 3 - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 4 - INVESTMENTS

The Plan has invested funds with Ascensus. These investments are also managed by Ascensus. The net realized and unrealized gain for these investments for the year ended December 31, 2017 was $994,852. The investments at fair value at December 31, 2017 and 2016 are as follows:

	2017	2016
Mutual Funds	$ 178,220	$ -
	$ 178,220	$ -

Individual investments that represent 5 percent or more of the Plan's net assets at December 31, 2017 and 2016 are as follows:

Description	2017	2016
Vanguard Life Strategy Income Investment	$ 40,679	$ -
Vanguard Institutional Target Retire 2035	$ 11,335	$ -
Vanguard Institutional Target Retire 2040	$ 20,685	$ -
Vanguard Institutional Target Retire 2045	$ 10,412	$ -
Vanguard Institutional Target Retire 2050	$ 11,379	$ -

Due to the nature of the trustee and investment management services provided by Ascensus, they qualify as a party-in-interest of the Plan.

NOTE 5 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, net appreciation or depreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Ascensus, the trustee/custodian of the Plan.

NOTE 6 - TAX STATUS

The Plan qualifies as a tax-exempt plan under Section 401(k) of the Internal Revenue Code. The Plan is also exempt from state franchise taxes. The Plan has been amended from time to time since its inception to comply with changing regulations or to clarify the original intent of the Plan. Management believes that the Plan, as amended, continues to qualify as a tax-exempt plan. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of the Independent Auditor’s Report, which is the date the financial statements were available to be issued.

NOTE 9 - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) provides a framework for measuring fair value under U.S. generally accepted accounting principles. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The following provides a general description of the three levels of inputs that may be used to measure fair value under ASC 820:

> Level 1 - Inputs to the valuation methodology are based on quoted prices available in active markets for identical assets or liabilities on the reporting date.
>
> Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 - Inputs to the valuation methodology include significant inputs that are generally unobservable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value including assumptions regarding risk. Level 3 instruments include those that may be more structured or otherwise tailored to the Plan's needs.

As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value.

> Mutual fund accounts are valued at the market value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies for assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 9 - FAIR VALUE MEASUREMENTS (continued)
