General

The Plan is a defined contribution plan covering certain employees of Bendix Commercial Vehicle Systems (the "Company") who have completed one hour of service for full-time employees and one year of service for part-time employees. Full-time employees are able to participate immediately upon meeting the service requirements and part-time employees are able to participate on the first day of the calendar quarter following the date they become eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute each pay period from 1 percent to 25 percent of their base pay, subject to certain restrictions. Contributions may be made on a before-tax or after-tax basis, or a combination of both. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. All contributing participants are eligible to receive employer matching contributions. The Company is required to contribute, on behalf of each participant, 25 percent of the participant's contribution to the Plan on the first 8 percent of the participant's contribution for such pay period. The match increases to 50 percent (on the first 8 percent) after five years of matched participation in the Plan. The Company makes no contributions with respect to a participant's contributions in excess of 8 percent of the participant's base pay for such pay period. The Company's required matching contribution begins immediately upon participant's enrollment in the Plan.

In addition to the required matching contribution, the Company also provides a contribution, known as the Retirement Investment Savings Plan contribution, to eligible employees, defined as a 1 percent contribution for U.S. salaried and Huntington plant hourly participants with an additional discretionary contribution of 2 percent for U.S. salaried and 1 percent for Huntington plant hourly participants based on eligible compensation. The Company paid a Retirement Investment Savings Plan contribution of approximately \$2,700,000 relating to the plan year ended December 31, 2017. The Company paid a Retirement Investment Savings Plan contribution of approximately \$2,425,000 relating to the plan year ended December 31, 2016.

Furthermore, the Company may make discretionary matching contributions to certain eligible participants, as defined, at two tiers equal to 12.5 percent or 25 percent (for eligible participants with one to five years of participation in the Plan) and 25 percent or 50 percent (for eligible participants with over five years of matched participation in the Plan) of the first 8 percent of the participant's contribution for such pay period. Not all employees are eligible for the discretionary matching contribution. The Company paid a discretionary matching contribution of approximately \$1,059,000 and \$2,001,000 during the plan years ended December 31, 2017 and 2016, respectively. Subsequent to year end, the Plan approved a discretionary matching contribution of approximately \$2,304,000 that will be recorded in the 2018 plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Benefit Payments

Upon termination of employment, the participant or, in the case of death, the beneficiary can elect to receive the participant's account balance in a single lump sum or in various installment annuities.

Vesting

Participants are immediately vested in their contributions, including rollover contributions, plus actual earnings thereon. Participants are 100 percent vested in the employer match, employer discretionary, and the Retirement Investment Savings Plan portion of their account after three years of credited service.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Vanguard Fiduciary Trust Company or its affiliates. Vanguard Fiduciary Trust Company is the Trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value (NAV) per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. All other investments are valued based on quoted market prices. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities and corporate debt securities. See Note 5 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Various administrative costs are paid by the Company. These transactions qualify as party-in-interest transactions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 18, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Vanguard Fiduciary Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 5 - Fair Value Measurements (Continued)

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
