Note 1 - Description of the Plan and Significant Accounting Policies

The following description of LONG Building Technologies, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994, most recently amended effective February 9, 2018. The Plan is available to all covered employees age 18 years or older, as defined by the Plan, who have completed six months of service. Leased employees, bargaining employees, and non-resident alien employees are excluded from participation. The entry date for eligible participants is the first day of each calendar month upon achieving eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

LONG Building Technologies, Inc. (the "Company") administers the Plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal") serves as trustee, manages Plan assets, and maintains the Plan's records. Principal offers Plan participants a variety of investment options through various mutual funds, collective investment trusts, and a fully benefit-responsive investment contract. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees are automatically enrolled at a deferral rate equal to 5% of eligible compensation, unless they make an affirmative election not to defer or to defer a different percentage. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contribution for the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a matching contribution of 50% of elective deferrals up to 5% of eligible compensation, which are funded each pay period. An additional match shall be made subsequent to year-end if the matching contributions calculated using a participant's annual deferrals and annual eligible compensation are greater than matching contributions made during the year. The Company may also make additional profit sharing contributions at its discretion. The Company did not make any discretionary profit sharing contributions during the year ended December 31, 2017.

The Plan allows participants to elect that some or all of their 401(k) contributions be designated as after-tax Roth 401(k) contributions. A participant's combined before-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

The Plan allows for voluntary and in-plan Roth rollover contributions. During the year ended December 31, 2017, there were $72,318 in voluntary and in-plan Roth rollover contributions, which is included within employee contributions in the accompanying statement of changes in net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are vested immediately in their contributions and allocated earnings or losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 100% vested in all Company contributions after two years of credited service.

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have a maximum of two loans outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 3.25% to 4.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through July 2042. Loans have a maximum term of five years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 25 years from the date of the loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. Loans in the amount of $10,079 were deemed a distribution in the current year.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum payment in the amount equal to the participant's vested account balance or partial payments in certain situations as defined by the Plan. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to reduce employer contributions. Forfeitures in the amount of $15,885 were applied to reduce Plan sponsor contributions during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $8 and $0, respectively, recorded in collective investment trusts on the statements of net assets available for benefits.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The Plan's investment in collective investment trusts are recorded at net asset value ("NAV") reported by the fund's manager as a practical expedient to estimating the fair value, as these investments do not have a readily determinable fair value. Due to the nature of the investments held by the collective investment trusts, changes in market condition and the economic environment may significantly impact the NAV of the collective investment trusts and, consequently, fair value of the fund's interest in the fund. The fair value of these investments has been measured using the NAV per share of the Plan's ownership interest in the collective investment trusts on an equivalent measure where it is not probable that the funds will sell collective investment trusts at a price other than NAV.

The fully benefit-responsive investment contract is valued based on the contract value of the fund's underlying investments using information reported by the investment advisor. There is a 5% surrender charge associated with this contract. The statements of net assets available for benefits and the statement of changes in net assets available for benefits present the contract value of the fully benefit-responsive investment contract.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Principal are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, two investments accounted for 28% of investment income. At December 31, 2017 and 2016, two investments accounted for 23% and 24% of total investments, respectively.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. With the exception of those matters discussed below, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

Effective February 9, 2018 the Plan was amended to limit the eligibility of the annual match true-up contribution to exclude employees that are not employed as of Plan year end, to change the definition of compensation for the annual match true-up to only include compensation while an active participant, and also allow for any number of transfers of investments during the year for in-plan Roth conversion and nonqualified contributions.

Note 2 - Assets Certified by the Trustee

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value or contract value and participant loans at amortized cost as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,655,198	$ -	$ -	$ 17,655,198
Investments measured at NAV				15,680,551
Total investments, at fair value				$ 33,335,749

Note 3 - Fair Value Accounting (continued)

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,635,938	$ -	$ -	$ 14,635,938
Investments measured at NAV				12,956,760
Total investments, at fair value				$ 27,592,698

There were no changes to the valuation techniques used during the period.

Reported Net Asset Values

The following table for December 31, 2017 and 2016 sets forth a summary of the Plan's investments with a reported net asset value.

	Fair Value					
	December 31, 2017	December 31, 2016	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Collective investments	$ 15,680,551	$ 12,956,760	$ -	Immediate	N/A	1 day

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, collective investment trusts, and a fully benefit-responsive investment contract, which are managed by Principal. Principal is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.
