Report of Independent Auditors

The Trustees
FirstBank Holding Company Savings & Employee Stock Ownership Plan

We have audited the accompanying financial statements of FirstBank Holding Company Savings & Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of FirstBank Holding Company Savings & Employee Stock Ownership Plan at December 31, 2017 and 2016, and the changes in its net assets available for benefits for the year ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

1. Description of the Plan

The following description of FirstBank Holding Company Savings & Employee Stock Ownership Plan (ESOP) (collectively, the Plan) provides general information only. Participants should refer to the Plan document and the summary plan description for a more complete description of the Plan's provisions.

General

The Plan consists of two portions: a profit-sharing plan portion with an Internal Revenue Code (the Code) Section 401(k) savings arrangement (collectively, the 401(k) savings arrangement) and an ESOP portion. The Plan is for the exclusive benefit of the employees of FirstBank Holding Company and its subsidiaries (collectively, the Company or FirstBank) and their beneficiaries. The provisions of the Plan meet the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participation

Participation in the 401(k) savings component of the Plan is available to eligible employees of the Company on the first day of the month following the employee's hire date. Participation in the ESOP component of the Plan is non-contributory for eligible participants. Eligible participants are defined by having one year of service as described below:

Year of Service: A 12-month period when an employee completes 1,000 hours of service with FirstBank. If the 1,000 hours of service during the initial 12-month period are not satisfied, the next 12-month period will begin on January 1 of the year following the employee's first day of employment.

Contributions

The ESOP component of the Plan is noncontributory for participating employees. Company contributions are at the discretion of the Company's Board of Directors. Contributions to the ESOP component of the Plan are made in shares of the Company's Class A and Class B common stock or cash. Class A common stock and Class B common stock are identical in all respects, share for share, except that the voting power for the election of directors and for all other purposes is vested in the holders of the Class B common stock. For the 2017 plan year, the Company made a $5,141 cash ESOP contribution. ESOP contributions are allocated to all eligible participants who were paid for 1,000 hours or more during the plan year, pro rata, based on eligible compensation.

Contributions to the 401(k) savings component of the Plan are made in cash. The investments in the 401(k) savings component of the Plan are participant-directed. Participants may contribute from 1% up to 80% of their pretax annual compensation, as defined in the Plan and trust agreement for the 401(k) savings component, not to exceed the maximum amount permissible by law ($18 in 2017). If the participant does not elect otherwise, a 3% automatic salary deferral will commence on the first payroll after the participant's plan entry date. In addition, participants who have attained the age of 50 before the end of the year are eligible to make catch-up contributions in the amount of $6 for 2017.

The Company also provides for a safe harbor employer contribution that is made to the Plan at each pay period. For the 2017 plan year, the safe harbor contribution was 3% of eligible compensation for all eligible Plan participants. Eligibility for safe harbor contributions is based on the year of service as defined in the *Participation* section of this document. The safe harbor rate may be changed by the Company upon sufficient notice to the participants. The Company may also make a discretionary

contribution to the 401(k) savings component of the Plan for all eligible Plan participants. For the 2017 plan year, the Company made a $1,280 discretionary cash contribution allocated pro rata based on eligible compensation.

Participants become fully vested in discretionary contributions with three or more years of service. The participant's account may also become fully vested when the participant reaches the age of 65 or in the event of death or permanent disability. The employee and Company safe harbor contributions are immediately vested.

Participant Accounts

Each year, participant accounts are credited with: (1) participant contributions; (2) employer contributions; (3) investment income due to dividends and interest; (4) realized and unrealized gains or losses; (5) reallocated forfeitures, which are allocated in the same manner as employer contributions, except for a last day of the year employment requirement.

ESOP Diversification

A participant can voluntarily diversify up to 25% of the Company stock shares in the participant's account upon 10 contribution years and the attainment of age 35. Upon meeting such voluntary diversification requirements, the participant could elect any of the five diversification options (with the diversification amount up to 25% of the Company vested shares) including the following: transfer to investment options offered under the 401(k) savings arrangement portion of the plan; a cash distribution; a cash rollover to an Individual Retirement Account (IRA); an in-kind share rollover to an IRA; and, finally, holding the shares in-kind outside of a retirement account. The voluntary diversification opportunity is available to the participant until the attainment of age 55 and 10 contribution years, at which time the diversification opportunity will last for a 6-year period. For the first five years, the participant has the right to diversify the Company stock shares in the ESOP account of up to 25%. In the last year of the diversification election period, the diversification election will apply to 50% of the Company stock shares in the ESOP account.

Mandatory diversification occurs when a participant retires or otherwise terminates employment from the Company. If the participant's account balance equals or exceeds $100, the trustee will convert 50% of the Company stock in the ESOP account to cash and transfer this cash to the 401(k) savings arrangement portion of the Plan in accordance with the participant's investment directions. This automatic diversification will not apply to the ESOP account, to the extent the participant has elected voluntary diversification prior to retirement or termination of employment.

Administration of the Plan

The operations and administration of the Plan are managed and controlled by an advisory committee, trustees, and a custodian appointed by the Board of Directors of the Company. The advisory committee and trustees are members of the Company's Board of Directors or management. The Company maintains a separate account for each participant. The investments of the ESOP component of the Plan are directed by the trustees. The investments in the 401(k) savings component of the Plan are participant-directed and are intended to comply with ERISA Section 404(c).

Payment of Benefits

On termination of service, a participant may elect to receive the vested balance of the account in a lump sum payment. Company stock is distributed in shares, with any fractional shares being paid in cash. Generally, if the account balance is greater than $5, payment of the ESOP shares will be made after election by the participant in March following the plan year that the participant terminated service. The 401(k) savings arrangement portion of the Plan can be paid at the same time (March), also in lump sum, unless a participant elects an earlier distribution of benefits. Mandatory distributions of account balances less than $5 occur as soon as administratively feasible after termination of service for the 401(k) savings arrangement portion of the account, and in June following the year of termination of service for the ESOP portion of the account. However, the participant can elect to postpone the 401(k) savings arrangement portion payment until June.

Put Option

If a participant receives a distribution of Company stock shares from the ESOP portion or account, the Company will provide a put option. The put option permits the participants to sell the stock to the Company, at any time during two option periods, at the then current fair market value. The first put option period runs for a period of 60 days commencing on the date of the distribution of the Company stock shares. The second put option period runs for a period of at least 60 days commencing in the year following the distribution to the Plan participants as the new determination of the fair market value of the shares becomes available and notice to the participant of the new fair market value is communicated. If the participant exercises the put option, the Company must make a payment in a lump sum, unless the distribution constitutes a total distribution. If the distribution is a total distribution and the purchase price of the shares which the participant elects to sell to the Company equals or exceeds $800, the Company may elect, in its sole discretion, to purchase the shares in substantially equal installments over a period not exceeding five years, unless the participant agrees to extend the period.

Forfeitures

If a participating employee terminates his/her employment, or receives a lump-sum distribution of the vested portion of his/her account balance because of termination as a plan participant, the nonvested portion of his/her interest, if any, is forfeited and reallocated among the remaining participants in proportion to his/her compensation in the year the forfeiture occurs. Forfeitures for participants who were not fully vested amounted to $99 for the year ended December 31, 2017, of which $81 were reallocated to the remaining participants in 2017 and $18 will be allocated to the remaining participants in 2018.

Plan Termination

In the event of termination of the Plan, the accounts of all participants will become fully vested and the advisory committee will direct the trustees to distribute all assets remaining in the trust to participants and beneficiaries in proportion to their respective interests.

2. Summary of Significant Accounting Policies

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and conform to accounting principles generally accepted in the United States (GAAP). The following is a summary of the Plan's significant accounting policies.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The common stock of the Company is stated at estimated fair value, as determined by an independent third-party appraisal performed annually as of December 31. Mutual funds and money market funds are valued using quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Common/collective trust funds are measured at net asset value using the net asset value per share practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of the investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year. Benefits are recorded when paid.

Dividends

Dividends declared and paid on the Company's common stock Class A shares and unvested Class B shares are reinvested into the corresponding Company share classes using the most recent readily available stock price. Dividends are distributed directly to participants for fully vested Company Class B shares held by the Plan. For the year ended December 31, 2017, dividends totaling $4,050 were paid directly to Plan participants.

Concentration and Risks and Uncertainties

At December 31, 2017 and 2016, approximately 60% and 63%, respectively, of the Plan's assets were invested in the Company's common stock. A significant change in the fair value of the Company's common stock would cause the value of the Plan's net assets to change significantly due to this concentration. It is at least reasonably possible that a change in the value of the Company's common stock will occur in the near term.

Administrative Costs

During the year ended December 31, 2017, all administrative costs of the Plan were paid by the Company, with the exception of $90 and $3 of fees paid respectively to White Horse Investment Advisors and Strategic Advisors for their services as the consultant and investment advisor of the Plan.

New Accounting Standards

In January 2016, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-1 requires equity securities (excluding equity investments accounted for under the equity method of accounting) to be measured at fair value with changes in the fair value recognized through earnings. The Update eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for non-public entities. In addition, the Update requires separate presentation of financial assets and liabilities by measurement category and form of financial assets on the balance sheet or in the accompanying notes to the financial statements. The amendments are effective for the annual reporting period beginning after December 15, 2018. This update will not have significant impact on the Plan's financial statements and the accompanying notes.

In July 2018, FASB issued ASU 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with ASC 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. The guidance is effective for fiscal years beginning after December 15, 2019. Plan management is currently evaluating the effect of this new pronouncement on the Plan's financial statements.

3. Non-Participant Directed Investments

The net assets related to non-participant-directed investments at December 31 are presented in the following table:

(in thousands)	2017	2016
FirstBank ESOP trust accounts	$ 14	$ 13
FirstBank Holding Company Class A shares	142,813	143,995
FirstBank Holding Company Class B shares	150,689	134,996
	$ 293,516	$ 279,004

The following table presents information about the significant components of changes in net assets related to non-participant-directed investments for the year ended December 31, 2017:

(in thousands)	2017
Change in net assets:	
Employer cash contributions	$ 5,141
Dividends, interest, and capital gain distribution	7,966
Net appreciation in fair value	25,738
Dividends paid directly to participants	(4,050)
Distributions to participants	(9,993)
Diversification of participant accounts	(10,290)
	$ 14,512

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). GAAP includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

-Quoted prices for similar assets and liabilities in active markets

-Quoted prices for identical or similar assets or liabilities in markets that are not active

-Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

-Inputs that are derived principally from or corroborated by observable market data, by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. Level 1 inputs are used for money market funds, where the carrying amount is a reasonable estimate of fair value, and mutual fund investments where quoted market prices are available. Level 2 inputs are used for the Company's stock. Company stock is valued based on an independent third-party appraisal. The appraiser relies on quoted prices for similar equity securities, observable transactions, and observable inputs relative to Company performance. No assets were valued using Level 3 inputs.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets carried at fair value for the years ended December 31, 2017 and 2016.

Assets at Fair Value as of December 31, 2017 *(in thousands)*	**Level 1**	**Level 2**	**Total**
Money market and short-term investment funds	$ 4,391	$ –	$ 4,391
Company stock	–	293,502	293,502
Mutual funds	155,207	–	155,207
	$ 159,598	$ 293,502	$ 453,100
Investments measured at net asset value:			
Common/collective trust funds[(a)]			$ 37,150
Total assets at fair value			$ 490,250

Assets at Fair Value as of December 31, 2016 *(in thousands)*	**Level 1**	**Level 2**	**Total**
Money market and short-term investment funds	$ 3,260	$ –	$ 3,260
Company stock	–	278,991	278,991
Mutual funds	143,254	–	143,254
	$ 146,514	$ 278,991	$ 425,505
Investments measured at net asset value:			
Common/collective trust fund[(a)]			$ 14,303
Total assets at fair value			$ 439,808

(a) The Plan offers certain common/collective trust funds to plan participants as available investment options in the 401(k) savings component of the Plan. These common/collective trust funds are designed to either deliver safety and stability to investors by preserving principal and accumulating earnings or seek the highest total return consistent with its asset mix and the adjusted risk tolerance based on the target year of participants' retirement age. These funds are primarily invested in guaranteed investment contracts and synthetic investment contracts or in stocks and bonds chosen by the trust management. Participant redemptions have no restrictions; however, one common/collective trust fund requires the Plan to provide a one-year redemption notice to liquidate its entire share in the fund. Upon receiving the notification, the shares will be liquidated in a timely manner but such liquidation could take up to 12 months depending on the liquidity of the fund.

5. Party-in-Interest Transactions

The Plan invests in the common stock of the Company. During 2017, the Plan received $7,966 in common stock dividends from the Company, of which $4,050 was paid directly to Plan participants. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fidelity is the recordkeeper of the 401(k) component of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are also exempt from the prohibited transactions rules under ERISA. Amounts due from parties-in-interest as of December 31, 2017 and 2016 were $1,280 and $1,187, respectively.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 11, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification status. The Plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Subsequent Events

Plan management has evaluated events subsequent to December 31, 2017 through September 14, 2018, which is the date these financial statements were available to be issued. On March 21, 2018, FirstBank's Board of Directors authorized and approved a 10-for-1 stock split of the Company's issued and outstanding Class A Common Stock and Class B Common Stock. The record date of the stock split was May 31, 2018, with share distribution occurring on June 1, 2018. As the result, the participants of the ESOP portion of the Plan received adjusted share amount (calculated as share balance x 10) of the Company's common stock for each fractional or whole share they held as of the record date. The stock split occurred in 2018 had no effect on 2017 financial statements.
