Note 1. Description of Plan

The following description of Fidelitas, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated effective November 20, 2017.

General: The Plan is a defined contribution safe harbor plan that covers all employees of Fidelitas, LLC and participating affiliates (collectively, the Company or Plan Sponsor) who have completed one year of service (at least 1,000 hours) and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to contribute up to 75 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company contributes 100 percent of the first 4 percent of compensation, as defined in the Plan, that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's members. There were no profit sharing contributions for the year ended December 31, 2017. Contributions are subject to certain limitations.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also invest their contributions into self-directed brokerage accounts that permit the participant to invest their account balance in a broad range of investment options as permitted by law. Participants may change their investment options daily.

Each participant's account is credited with the participant's contribution, Company matching contributions and allocations of the Company's profit-sharing contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, employer contributions and actual earnings thereon.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any account balance under $5,000 is automatically paid out as soon as administratively possible based on participant election. In the absence of an election by the participant within the time period specified by the Plan Administrator, any balance that exceeds $1,000 but does not exceed $5,000, is paid as a direct rollover to an individual retirement account designated by the Plan Administrator and any balance that does not exceed $1,000, is paid directly to the participant in the form of a cash, lump-sum distribution. The Plan also allows for in-service distributions upon reaching age 59½.

Administrative expenses: Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the period. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through July 19, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company, the Trustee

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2017 and 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2017	2016
Investments at fair value:		
Mutual funds	$ 4,447,178	$ 3,096,443
Self-directed brokerage account	864,581	619,835
	$ 5,311,759	$ 3,716,278

The trustee also certified to the completeness and accuracy of $677,973 of net appreciation in fair value of investments and $179,745 of interest and dividend income for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account: The self-directed brokerage account consists of mutual funds and individual corporate common stocks and is valued at the closing price reported on the open market and are classified within Level 1 of the valuation hierarchy.

Note 4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,447,178	$ -	$ -	$ 4,447,178
Self-directed brokerage account	864,581	-	-	864,581
Total assets at fair value	$ 5,311,759	$ -	$ -	$ 5,311,759

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,096,443	$ -	$ -	$ 3,096,443
Self-directed brokerage account	619,835	-	-	619,835
Total assets at fair value	$ 3,716,278	$ -	$ -	$ 3,716,278

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no transfers in or out of Level 3.

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the trustee. Fidelity Management Trust Company is the trustee, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

Certain employees of the Company provide trustee and administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. The Plan Sponsor paid certain administrative expenses related to the Plan for the year ended December 31, 2017.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

Effective February 1, 2014, and restated in 2015, the Plan adopted a standardized form of a prototype plan. The Plan has received a determination letter from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

Note 1. Description of Plan

The following description of Fidelitas, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated effective November 20, 2017.

General: The Plan is a defined contribution safe harbor plan that covers all employees of Fidelitas, LLC and participating affiliates (collectively, the Company or Plan Sponsor) who have completed one year of service (at least 1,000 hours) and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to contribute up to 75 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company contributes 100 percent of the first 4 percent of compensation, as defined in the Plan, that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's members. There were no profit sharing contributions for the year ended December 31, 2017. Contributions are subject to certain limitations.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also invest their contributions into self-directed brokerage accounts that permit the participant to invest their account balance in a broad range of investment options as permitted by law. Participants may change their investment options daily.

Each participant's account is credited with the participant's contribution, Company matching contributions and allocations of the Company's profit-sharing contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, employer contributions and actual earnings thereon.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any account balance under $5,000 is automatically paid out as soon as administratively possible based on participant election. In the absence of an election by the participant within the time period specified by the Plan Administrator, any balance that exceeds $1,000 but does not exceed $5,000, is paid as a direct rollover to an individual retirement account designated by the Plan Administrator and any balance that does not exceed $1,000, is paid directly to the participant in the form of a cash, lump-sum distribution. The Plan also allows for in-service distributions upon reaching age 59½.

Administrative expenses: Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the period. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through July 19, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company, the Trustee

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2017 and 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2017	2016
Investments at fair value:		
Mutual funds	$ 4,447,178	$ 3,096,443
Self-directed brokerage account	864,581	619,835
	$ 5,311,759	$ 3,716,278

The trustee also certified to the completeness and accuracy of $677,973 of net appreciation in fair value of investments and $179,745 of interest and dividend income for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account: The self-directed brokerage account consists of mutual funds and individual corporate common stocks and is valued at the closing price reported on the open market and are classified within Level 1 of the valuation hierarchy.

Note 4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,447,178	$ -	$ -	$ 4,447,178
Self-directed brokerage account	864,581	-	-	864,581
Total assets at fair value	$ 5,311,759	$ -	$ -	$ 5,311,759

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,096,443	$ -	$ -	$ 3,096,443
Self-directed brokerage account	619,835	-	-	619,835
Total assets at fair value	$ 3,716,278	$ -	$ -	$ 3,716,278

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no transfers in or out of Level 3.

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the trustee. Fidelity Management Trust Company is the trustee, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

Certain employees of the Company provide trustee and administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. The Plan Sponsor paid certain administrative expenses related to the Plan for the year ended December 31, 2017.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

Effective February 1, 2014, and restated in 2015, the Plan adopted a standardized form of a prototype plan. The Plan has received a determination letter from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
