K.M.A. Sunbelt Trading Corporation Retirement Savings Plan
Clearwater, Florida

We have conducted a Department of Labor ("DOL") limited-scope audit of the financial statements of K.M.A. Sunbelt Trading Corporation Retirement Savings Plan (the "Plan") as of and for the year ended December 31, 2017 and have issued our report thereon dated September 26, 2018. As permitted by 29 CR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements and in the supplemental schedule. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedule taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter dated August 7, 2018. Professional standards also require that we communicate to you the following information related to our audit.

SIGNIFICANT AUDIT FINDINGS

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2017. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was management's assessment for each of the Plan's investment input levels under Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. ASC 820 requires that the Plan assess and disclose in the financial statements the level of input for each Plan investment. We evaluated the key factors and assumptions used to make your assessments in determining that they were reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements was the disclosure of the measurement of fair value for each investment held by the Plan as of December 31, 2017. The Plan followed the guidance of ASC 820 which requires that the Plan disclose how they determined the fair value of its investments by three levels of inputs. The three levels of inputs are: 1) quoted prices in the active market, 2) significant observable inputs, and 3) significant unobservable inputs.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 26, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditor. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

The Company may contribute qualified nonelective matching contributions and other Company matching contributions at its discretion. The Company matched 10% of employee contributions, up to the maximum participant contribution allowed by the IRC, during the year ended December 31, 2017.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's contribution and withdrawals, employer matching contributions, and allocations of Plan earnings or losses; and is charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant investment account earnings, elective contributions, or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account. All participant accounts are maintained by Voya Retirement Insurance and Annuity Company ("Voya") as of December 31, 2017 and for the period from April 1, 2017 through December 31, 2017. Participant accounts were maintained by ADP Retirement Services as of December 31, 2016 and for the period from January 1, 2017 through March 31, 2017.

Vesting – Participants are immediately vested in their voluntary contributions and rollovers plus or minus any actual earnings or losses thereon. Vesting of employer contributions plus or minus any earnings or losses thereon is based upon the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Upon an employee's normal retirement, death, disability, or termination of the Plan, employer contributions become 100% vested.

Note 1—Plan description (continued)

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant or their beneficiary may elect to receive an amount not to exceed the value of the participant's vested interest in his or her account in either a lump-sum amount or a direct rollover. For termination of service due to other reasons, a participant may receive the value of the interest in his or her account as a lump-sum distribution.

The Plan allows, in certain hardship situations as defined in the Plan Agreement, participants to withdraw the amounts from their account balances while actively employed. A participant experiencing financial hardship may, with sufficient evidence, withdraw a portion of their account attributable to employee contributions and rollover contributions. The amount of the withdrawal may not be greater than the immediate financial need. These hardship withdrawals are subject to IRC restrictions and penalties.

Notes Receivable from Participants – Participants may borrow from their individual accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and may have no more than two loans outstanding at any given time. Loans are secured by the vested balance in the participants' account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator at the time the loan is approved. The interest rate on loans outstanding as of December 31, 2017 and 2016 ranged between 4.25% and 4.50%. Principal and interest is collected ratably through payroll deductions. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Investment Options – Upon enrollment in the Plan, a participant may direct employee and employer contributions into various investment options. Participants may change their investment options periodically as permitted by the Plan.

Forfeitures – When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures arising from the Plan are used to reduce the future employer contributions to the Plan. Excess forfeitures will first be used to offset Plan administration expenses or then can be reallocated to participants. The Plan had approximately $6,000 forfeitures available to be reallocated to eligible participants or to pay Plan expenses as of December 31, 2017.

Note 2—Summary of significant accounting policies

Investments, Investment Valuation, and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations, other than those measured using the net asset value ("NAV") as a practical expedient, are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 2—Summary of significant accounting policies (continued)

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money Market Fund – This investment is a public investment vehicle valued using $1 for the NAV as a practical expedient. This investment is excluded from the valuation hierarchy consistent with accounting principles generally accepted in the United States ("GAAP").

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

Excess Contributions Payable – The Plan is required to return excess deferral contributions to certain participants to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are included in the Plan's statements of net assets available for benefits as excess contributions payable as of December 31, 2017. There were no excess contributions payable as of December 31, 2016.

Note 2—Summary of significant accounting policies (continued)

Accounting Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through September 26, 2018 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

The fair value of amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amount presented in the statements of the net assets available for benefits.

Note 5—Plan termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6—Income tax status

The Plan is a prototype plan and obtained its latest opinion letter dated September 1, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7—Party-in-interest transactions

Notes receivable from participants are considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note 8—Reconciliation of financial statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2017 and 2016 to net assets available for benefits per the Form 5500:

	December 31,	
	2017	2016
Net assets available for benefits per the financial statements	$ 4,145,134	$ 3,685,481
Add liability for excess participant contributions payable	5,854	-
Total net assets available for benefits per the Form 5500	$ 4,150,988	$ 3,685,481

The following is a reconciliation of the net increase in net assets available for benefits included in the statement of changes in net assets available for benefits for the year ended December 31, 2017 to Schedule H of the Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 459,653
Add December 31, 2017, excess contributions payable	5,854
Net increase in net assets available for benefits per the Form 5500	$ 465,507

Note 9—Risks and uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
