Contributions - Each year, participants may voluntarily contribute, by salary reduction, from 2% up to 40% of pretax annual compensation, as defined by the Plan, to the maximum amount allowable under the IRC. The Plan includes an automatic deferral provision equal to 3% of compensation, and increases by 1% each Plan year up to 10%. The Company may contribute additional amounts to the Plan at its discretion, which are allocated based upon participant earnings or account balances, as defined by the Plan agreement. No such additional contributions were made during the years ending December 31, 2017 and 2016. All contributions are invested by the Trustee as stipulated by the participant. Rollover contributions are permitted for eligible employees or participants.

c. Participant accounts - Company and participant contributions are accounted for in individual participant's accounts. Each participant account is credited with the participant's contributions, any rollover contributions and an allocation of the Company's discretionary contribution, if any. Each participant's account will increase or decrease with the market value of the investments and the cost of investment management expenses and transactional costs and service charges. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

1. Description of the Plan (continued)

d. Vesting - Participants are immediately vested in their contributions plus actual earnings less losses thereon. Any employer optional contributions plus actual earnings less losses thereon vest after the first two years of service at the rate of 20% for each year of service up to the sixth year. Participants also immediately vest in the Company's discretionary contributions upon death, normal or early retirement or termination of employment due to permanent disability.

e. Investment options - The Plan provided for contributions to be invested in any of the twenty mutual funds and one stable value fund (Contract) managed by the Trustee. The Company's contributions, if any, are invested in the manner stipulated by each participant.

f. Notes receivable from participants - Participants may borrow from their fund accounts from $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance as of the most recent valuation date and charged interest at a reasonable rate. Terms of the notes range from one to five years. Note proceeds used to acquire a principal residence shall be repaid over a reasonable period of time. As of December 31, 2017 and 2016 the carrying amount of the notes approximates fair value. Principal and interest is paid through payroll deductions. Interest rates range from 4.25% to 10.00% and outstanding notes at December 31, 2017 and 2016 were $939,921 and $743,172, respectively.

g. Payment of benefits - A participant is entitled to receive a distribution of his or her vested interest in the Plan upon termination of employment, retirement, in the event he/she becomes disabled or in the event of financial hardship as defined by the Plan. The beneficiary or beneficiaries of a participant are entitled to receive a lump sum distribution of the participant's interest in the Plan upon the death of such participant. The Plan will make a mandatory distribution for vested account balances of $5,000 or less, following severance of employment before attaining age 62 or normal retirement age.

h. Forfeited accounts - At December 31, 2017 and 2016, the balance of forfeited accounts totaled $11,817 and $11,106, respectively. These accounts may be used to reduce any future employer contributions, if any.

2. Summary of significant accounting policies

a. Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment valuation and income recognition - The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value – see note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Trustee. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expense and are charged to the borrower's participant account. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

e. Payment of benefits - Benefits are recorded when paid.

f. Administrative expenses - Certain expenses incurred maintaining the Plan are paid directly by the Company and excluded from these financial statements. Fees related to the administration of notes receivable and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are deducted from net appreciation in fair value of investments.

3. Certified investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including the participant directed investments and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2017 and 2016, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan, Capital Bank and Trust Company.

4. Fair value measurements

The Plan reports investments in accordance with ASC 820, *Fair Value Measurements* that establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(continued)

4. Fair value measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 or 2016.

Mutual Funds: Valued at quoted market values.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at fair value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 48,287,554	-	-	$48,287,554

	Assets at fair value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 39,940,829	-	-	$39,940,829

5. Investment at contract value

The Plan has an indirect investment in a fully benefit responsive contract (the Contract), Reliance/MetLife Group Annuity Contract Series 25157 Cls 35, designated as the "Reliance Trust Company Stable Value Fund Collective Investment Trust" (the Trust/Issuer). The Contract is reported at Contract Value of $2,744,052 and $3,011,467 at December 31, 2017 and 2016, respectively.

The Contract meets the fully benefit-responsive investment contract criteria and therefore is reported at Contract Value. Contract Value is the relevant measure for fully benefit-responsive investment contracts because this is the amount to be received by participants if they were to initiate permitted transactions, such as withdrawals and transfers under the terms of the Plan. Contract Value, as reported to the Plan by the Plan's Trustee, represents contributions made under the Contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at Contract Value.

(continued)

5. Investment at contract value (continued)

The Plan's ability to receive amounts due is dependent on the Issuer's ability to meet its financial obligations. The Issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Under certain circumstances, the Issuer has the right to discontinue the Contract and make payment to the Plan participants at the lesser of the Contract Value or the fair value of the Issuer's investment assets. No such circumstances are probable of occurring that might limit the ability of the Plan to transact at Contract Value.

6. Risks and uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

8. Tax status

The IRS has determined and informed the Plan by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is exempt from income tax.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial

8. Tax Status (continued)

statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax for years prior to 2014.

9. Related-party transactions and party in interest transactions

Certain Plan investments are managed by American Funds Distributors, Inc., an affiliate of Capital Bank and Trust Company, the Plan's Trustee, (see note 1 and 3) and therefore these transactions qualify as party in interest transactions.

10. Subsequent events

Management has evaluated the impact of all subsequent events on the Plan through September 28, 2018 the date the financial statements are available to be issued. Management has determined that there are no material subsequent events that would require disclosure in or adjustments to the Plan's financial statements.
