NOTE A - DESCRIPTION OF THE PLAN

The following description of the Snap Diagnostics, LLC 401(k) Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan was a defined contribution profit sharing and 401(k) plan covering eligible employees of Snap Diagnostics, LLC (the "Company"). Employees were eligible to participate upon completion of two months of service and attaining age 21, subject to monthly plan entrance dates. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 16, 2017 Plan management voted to terminate the Plan, effective February 28, 2017, as discussed in Note E. All assets were distributed on or before December 15, 2017.

2. Contributions

   The Plan was funded by voluntary pre-tax and after-tax contributions of the participants and discretionary profit sharing contributions of the Company. Participants were able to contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Participants were also able to roll over amounts representing distributions from other qualified employee benefit plans. The Company made no discretionary profit sharing contributions for the period January 1, 2017 through December 15, 2017.

3. Investment Options

   Participants were permitted to direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants were allowed to change their investment options at any time.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account was credited with the participant's contribution, an allocation of the discretionary profit sharing contributions, and an allocation of plan earnings. The Company's discretionary profit sharing contribution was allocated as of the last day of the plan year and was based on percentage of each eligible participants compensation to total compensation for all eligible participants. Plan earnings were allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account balance.

5. Vesting

Prior to the plan termination, participants were immediately fully vested in participant, rollover contributions, plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary profit sharing contributions became 20% vested after two years of service and continued to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants became fully vested. Due to the plan termination, as described in Note E, participants were immediately fully vested in all contributions.

6. Payment of Benefits

On termination of service, a participant may have elected to receive a single, lump-sum payment equal to the value of his or her vested account balance, or a direct rollover distribution. In-service withdrawals were permitted to participants who have reached 59.5 years of age. Hardship withdrawals were also permitted by the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

7. Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Participants were permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans were collateralized by the borrowers' respective vested account balances and bore interest at 5.50% to 5.75%. Principal and interest were paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income was insignificant for the period January 1, 2017 through December 15, 2017.

8. Administrative Expenses

Certain expenses incurred maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Investment-related expenses were included in net appreciation of value of investments.

9. Forfeitures

At December 15, 2017 and December 31, 2016, there were no unallocated plan assets resulting from forfeited nonvested accounts. Forfeited nonvested accounts were allowed to be used to reduce future discretionary Company contributions or pay the Plan's administrative expenses. There were no forfeitures used during the period January 1, 2017 through December 15, 2017.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

As a result of the decision to terminate the Plan, the financial statements of the Plan were prepared on the liquidation basis of accounting for the period January 1, 2017 through December 15, 2017. The 2016 financial statements were prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:
* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's investments measured at fair value at December 31, 2016. As discussed in Note E, the Plan did not hold any investments as of December 15, 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The method described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed that its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016. As discussed further in Note E, the Plan did not hold any investments at December 15, 2017. Classification within the fair value hierarchy table was based on the lowest level of any input that was significant to the fair value measurement.

	Plan Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 410,290	$ -	$ -	$ 410,290
Investments, at fair value				$ 410,290

3. Investment Valuation and Income Recognition

Investments held at December 31, 2016 were reported at fair value. As discussed further in Note E, the Plan did not hold any investments at December 15, 2017. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determined the Plan's valuation policies utilizing information provided by the investment advisers. See Note B-2 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments purchased and sold as well as held during the period January 1, 2017 through December 15, 2017.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Use of Estimates

In preparing the Plan's financial statements, management was required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits were recorded when paid.

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

NOTE C - INFORMATION CERTIFIED BY RELIANCE TRUST COMPANY

The following is a summary of the Plan's asset information as of December 15, 2017 and December 31, 2016 and for the period January 1, 2017 through December 15, 2017, included throughout the Plan's financial statements, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental information related to the following assets:

NOTE C - INFORMATION CERTIFIED BY RELIANCE TRUST COMPANY (Continued)

	December 15, 2017	December 31, 2016
Investments, at fair value		
Mutual funds	$ -	$ 410,290
Notes receivable from participants	-	1,300
	$ -	$ 411,590

The trustee also certified the completeness and accuracy of $47,673 of net appreciation in value of investments and $2,495 of interest and dividends related to the aforementioned assets for the period January 1, 2017 through December 15, 2017.

NOTE D - INCOME TAX STATUS

Effective March 1, 2015, the Plan adopted a non-standardized form of a prototype plan sponsored by ADP, LLC. The prototype plan had received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter had been relied upon by this Plan. The Plan Administrator believed the Plan was designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE E - PLAN TERMINATION

On January 16, 2017, Plan management voted to terminate the Plan, effective February 28, 2017. As a result of the termination, participants became 100% vested in all employer contributions, and all further contributions to the Plan ceased. Participants were provided with the option to receive a lump-sum distribution, or transfer their account balance to another qualified benefit plan or IRA designated by the participant. The liquidation of the Plan's net assets was completed on or before December 15, 2017.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Plan investments were administered and recorded by Automatic Data Processing. Automatic Data Processing was the record keeper, as defined by the Plan; therefore these transactions qualified as party-in-interest transactions. Plan investments were managed by Reliance Trust Company, the trustee. Reliance Trust Company was the trustee, as defined by the Plan; therefore these transactions qualified as party-in-interest transactions. Fees paid by the Plan to trustees were included as a reduction of the return on each investment.
