NOTE 1: Description of the Plan

Williams Lumber, Inc. (the "Company") sponsors the Williams Lumber, Inc. 401(k) Profit Sharing Plan (the "Plan"). Substantially all employees of the Company are eligible to participate in the Plan subject to the eligibility criteria discussed below.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have three months of service and are at least twenty and one-half (20.5) years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and has been approved by the IRS as a qualified plan. The Plan was amended at various dates to conform with prototype plans utilized by the plan administrators. These Plans were amendments of the preexisting qualified plan which was originally effective October 1, 1976. The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, and monitoring investment performance.

Contributions

Employee 401(k) Accounts - Participants may make contributions to the Plan through payroll deductions up to 100% of compensation, as defined, up to the limit prescribed by the Internal Revenue Code (IRC). A participant age 50 or over may make an additional catch-up contribution as determined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Plan allows Roth contributions (after-tax contributions) through payroll deductions.

Matching Accounts - The Company shall, at its discretion, contribute and allocate to each participant who is employed on the last day of the Plan year and has at least 1,000 hours of service during the Plan year, a percentage of the participant's elective deferral contributed to the Plan. For the Plan year ended December 31, 2017 the Company elected to contribute 50% of each participant's deferral up to a maximum of 4% of compensation.

.

NOTE 1: Description of the Plan (Continued)

Profit Sharing Accounts - The Company also has the option to make an additional discretionary contribution up to certain IRS limitations. For the year ended December 31, 2017, there were no profit sharing contributions to the Plan

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan.

The benefit to which a participant is entitled is the accumulated balance of each participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participant accrued benefits derived from Company discretionary contributions are 0% vested when a participant has less than three (3) years of credited service, and 100% vested after three years of credited service.

Retirement Dates

Normal retirement age is the later of attaining age 65 or the fifth anniversary of the first day of the first Plan year in which the Participant commenced participation in the Plan. There is no provision for early retirement.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balances (whichever is less). Loans from the Plan may be used for any purpose. All loans are due on the termination of service of the participant. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The Plan administrator has set this rate at 1% above the prime rate. The rate of interest remains constant throughout the term of the loan. Principal and interest are paid ratably through weekly payroll deductions.

NOTE 1: Description of the Plan (Continued)

Payments of Benefits

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, severe financial hardship as defined by the Plan, qualified military duty, disability, death, or for any reason after attaining age 59 1/2. Distributions for reasons other than termination or death are eligible for a lump sum distribution or other elected payment amount. Participants who terminate employment shall be eligible for distribution as soon as administratively feasible following the participant's termination date. These distributions will be paid as a lump sum. Termination distributions of account balances greater than $5,000 may be deferred to a later date.

Forfeited Accounts

Forfeitures from participants' non-vested accounts may be used by the Company to reduce future Company contributions or pay administrative expenses under the Plan. At December 31, 2017 and 2016, forfeited non-vested accounts totaled $5,076 and $17,857, respectively. Forfeited funds totaling $17,857 were utilized to reduce the Company match for the year ended December 31, 2016.

NOTE 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual amounts may differ from those estimates.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The assets of the Plan are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by investment advisors and custodians. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's realized gains and losses from the sale of investments as well as unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the year. Net realized gains or losses from the sale of investments represent the difference between the sales proceeds and the fair value of the investment as of the beginning of the year or the cost of the investment if purchased during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Delinquent loans are recorded as a distribution based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Administrative Expenses

Investment management expenses are deducted from investment returns and classified under net appreciation in fair value of investments. Administration and investment advisor fees paid by the Plan are classified as administrative expenses. All other administrative expenses of the Plan are paid by the Company and excluded from these financial statements.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Excess Contributions Payable

The Plan is subject to certain non-discrimination rules under ERISA and the Code. For the year ended December 31, 2017, non-discrimination tests were passed without corrective refunds.

For the Plan year ended December 31, 2016, the Plan failed certain of the non-discrimination tests under the Code due to lower contribution percentages by non-highly compensated eligible employees relative to the contribution percentages of highly compensated eligible employees. In order to meet the requirements of the non-discrimination rules, the Plan refunded a portion of the contributions made by highly compensated participants, in accordance with applicable provisions of the Code. Amounts payable to participants for excess contributions are recorded as a liability in the Statements of Net Assets Available for Benefits and included in corrective distributions on the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

Management has evaluated subsequent events through October 3, 2018 the date the financial statements were available to be issued.

NOTE 3: Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management and Research Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for investment management services are assessed by Fidelity as a percentage of assets invested and included in net appreciation in fair value of the investment, as they are paid through revenue sharing rather than a direct payment. For the year ended December 31, 2017, the Plan made a direct payment to Fidelity in the amount of $3,900 for administration costs not covered by revenue sharing.

Fees paid by the Company for the benefit of the Plan for the year ended December 31, 2017 totaled $8,000.

NOTE 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all of their accounts.

NOTE 5: Tax Status

Effective June 1, 2010, the Plan adopted the Fidelity Basic Plan Document No. 14 Prototype Plan This Plan received a favorable advisory letter dated March 31, 2008. On April 28, 2015, the Plan adopted the Fidelity Volume Submitter Plan Document No. 17 which received a favorable advisory letter dated March 31, 2014. The Fidelity Basic Plan Document No. 14 Prototype Plan and the Fidelity Volume Submitter Plan Document No. 17 were designed to be qualified plans as described in Section 401(a) of the IRC and, accordingly, exempt from payment of Federal income taxes under provisions of Section 501(a) of the IRC. Although the Plan has been amended since receiving the advisory letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. The Plan is required to operate in conformity with the IRC to maintain its qualification.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has indicated that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress.

NOTE 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. Plan investments are not insured by the FDIC or similar loss coverage.

NOTE 7: Fair Value Measurements

The Plan's investments are reported at fair value in the statement of net assets available for benefits. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical instruments in active markets. The fair values of mutual funds are based on net asset values quoted in the active market where the funds are traded.

Level 2 – Significant other observable inputs (including quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, or inputs other than quoted prices that are observable for substantially the full term of the instrument). The Plan does not have any Level 2 investments.

Level 3 – Significant unobservable inputs that are not corroborated by market data. The Plan does not have any Level 3 investments.

A financial instrument's level within the fair value hierarchy is based upon the least observable input that is significant to the fair value measurement. The valuation techniques used by the Plan to measure fair value attempt to maximize the use of observable inputs and minimize the use of unobservable inputs. The inputs or methodology used for valuing securities are no indication of the risk associated with those investments.

The preceding method may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a description of the Plan's valuation methodologies used or assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

NOTE 7: Fair Value Measurements (Continued)

Money Market Funds: Valued at the carrying value which approximates fair value due to the short term nature of the securities.

Mutual Funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total
