Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Spinnaker Holding Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

STRATEGIC ACCOUNTANTS
& BUSINESS ADVISORS

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2017, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the Spinnaker Holding Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

Spinnaker Holding Inc. (the “Company” or “Plan Sponsor”) established the Spinnaker Holding Inc. Employee Stock Ownership Plan effective as of January 1, 2012. The Plan operates as an employee stock ownership plan (“ESOP”), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, (the “IRC”), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974.

The Plan is administered by an Employee Benefits Administration Committee (the “Committee”) comprising of up to three persons appointed by the Company’s Board of Directors. GreatBanc Trust Company has been appointed as the Plan’s trustee (“Trustee”). The Company contributions are held by the Spinnaker Holding Inc. Employee Stock Ownership Trust (the “Trust”) and managed by the Trustee, which invests Plan income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan purchased common shares of Spinnaker Holding Inc. using the proceeds of a secured borrowing with the Company on January 31, 2012 (See Note 4). Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year’s payments, plus all future years’ principal and interest payments. There were 7,625 shares released and allocated by the Plan for the year end December 31, 2017.

The Company has no rights against the shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the accompanying financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of participants with vested and non-vested rights in allocated shares of Company common stock (allocated); and
- (b) shares of Company common stock not yet allocated to participants (unallocated).

Prior to January 1, 2014, shares were released and allocated upon payment of principal and interest made during the year. Effective January 1, 2014, shares are released and allocated based upon payment of principal and interest made during the year, plus the Company contribution receivable related to the plan year.

Employee Stock Ownership Plan**

Notes to Financial Statements

1. Description of Plan (continued)

Eligibility

Employees of the Company are generally eligible to participate in the Plan on the first day of the quarter following the attainment of one (1) year of service, providing they worked at least 1,000 hours during the plan year. A participant who fails to work at least 1,000 hours during a plan year or is not employed on the last working day of a plan year is generally not eligible for an allocation of the Company contributions for that year.

Contributions

Company contributions are determined annually at the discretion of the Company's Board of Directors and may be in the form of cash, shares of Company common stock, or by means of the forgiveness of any amounts due under the outstanding ESOP loan. The contributions are allocated among eligible participants of the Plan in the ratio that the compensation of each eligible participant bears to the total of all such compensation of all eligible participants. The Plan does not permit voluntary contributions.

In addition, for any year during which the ESOP loan is outstanding, the Company shall pay over to the Trustee as contributions to the Plan for that year, no less than the amounts necessary to enable the Trustee to pay any maturing obligations under the outstanding ESOP loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant.

Any Company contributions and the forfeitures arising under the Plan during the year shall be allocated among participants who are credited with a year of service for such fiscal year and who are employed by the Company on the last day of such fiscal year, or who die, incur a disability or retire on a normal retirement date during such fiscal year, in the proportion that such participant's compensation for that year bears to all such participants' compensation for that year.

Dividends on the Company's common stock and all other income, losses and expenses earned or incurred on Plan investments are allocated pro rata among the accounts of the participants in proportion to their account balances. The Company did not declare any dividends for the year ended December 31, 2017.

Vesting

A participant's vesting percentage increases 20% per year, commencing on the second year of completed service, until becoming fully vested after six years of service. An individual becomes automatically 100% vested upon death, disability or normal retirement age, which is defined as age 65.

**Spinnaker Holding Inc.
Employee Stock Ownership Plan**

Notes to Financial Statements

1. Description of Plan (continued)

Forfeitures

Forfeitures are allocated in the same manner as Company contributions as described above. At December 31, 2017 and 2016, there are no forfeited non-vested accounts. Forfeitures allocated to participants during the year ended December 31, 2017 totaled approximately \$150.

Payment of Benefits

Generally, participants are entitled to receive distributions of their account balance following retirement, death, disability or other termination of employment. For so long as either the Company is an "S corporation" for federal income tax purposes or the articles of incorporation or the by-laws of the Company restrict the ownership of substantially all outstanding shares of common stock of the Company to current employees of the Company and to the Trust, then distribution of the balance credited to a Participant's Company Common Stock Account shall be made in the form of either (a) cash or (b) Company common stock, subject to the requirement that the Company common stock be immediately sold to the Company or back to the Trust at a price equal to its fair market value determined as of the most-recent valuation date. The Company adopted a Distribution Policy in 2013, pursuant to which only cash distributions are made from the Plan. During 2017, the Company repurchased from participants 3,861 shares at prices determined from the independent appraisal. These shares were then allocated to the remaining participants.

Voting Rights

Each participant is entitled to direct the Trustee as to how to vote the shares allocated to his or her account with respect to any proposed merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or any similar transactions that are specified in regulations interpreting Section 409(e)(3) of the IRC. Participants are notified by the Trustee prior to the time such rights are to be exercised. The Trustee shall vote the shares of Company common stock which are not allocated to any participant, and the shares with respect to which no direction is received from the participant, in the manner determined by the Committee.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year end based upon shares of Company common stock in the participant's account at year end.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan (continued)

Plan Termination

The Company reserves the right to terminate the Plan at any time by action of its Board of Directors, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will become 100% vested and distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Investments held in Spinnaker Holding, Inc. common stock are valued at the fair market value as of December 31, 2017 and 2016, as determined by an annual independent appraisal.

The aggregate of (a) the net unrealized appreciation or depreciation in the fair value of investments for the year ended December 31 and (b) the net gains or losses on dispositions of investments during the year are reflected as net depreciation in the net changes in the fair value of the investments. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

A significant estimate used in the preparation of these financial statements is the valuation of the Spinnaker Holding Inc. common stock recorded at its fair value for which the ultimate realization of the investment is based upon future economic factors related to the investment.

For the aforementioned estimate, it is reasonably possible that the recorded amounts or related disclosures could significantly change in the near future as new information is available about the value of Spinnaker Holding Inc. common stock, which represents a significant investment of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and are excluded from these financial statements.

Subsequent Events

The Plan evaluated subsequent events through September 7, 2018, the date the accompanying financial statements were available to be issued. No material subsequent events have occurred through September 7, 2018 that required recognition or disclosure in these financial statements.

3. Investments

The Plan's investments in the Company's common stock at December 31, 2017 and 2016, are as follows:

4. Loan Payable

On January 31, 2012, the Plan entered into a \$4,815,000 term loan agreement with Spinnaker Holding Inc. The agreement provides for the loan to be repaid over 35 years. The proceeds were used to purchase 250,000 shares of Spinnaker Holding Inc.'s common stock. Principal and interest payments of approximately \$224,000 are due annually with interest at 3%. As the Plan makes each payment of principal and interest, an appropriate percentage of common stock is allocated to the eligible participants' accounts in accordance with applicable regulations under the IRC.

5. Fair Value Measurements

Accounting Standards Codification (“ASC”) Topic 820, “*Fair Value Measurements and Disclosures*,” establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

5. Fair Value Measurements (continued)

Common stock - Investments in Spinnaker Holding Inc. common stock are valued by an annual independent appraisal. In approaching the valuation, a variety of factors are taken into consideration, including:

- a. the nature and history of the business, its current position, and its outlook;
- b. the general and relevant economic conditions prevailing at the time of the appraisal; and
- c. the current conditions and outlook in the market in which the subject company competes.

The approach in determining fair value of the common stock involved the following:

- a. Determine estimated fair value of shares of common stock using the Guideline Company Method. This valuation analysis is a technique that determines a value based on a direct comparison of the subject company to publicly traded companies.
- b. Determine estimated fair value of shares of common stock using the Transaction Method. The primary focus of this method is to examine the terms, prices, and conditions found in either actual sales of the Company's common stock or sales of companies in the industry and as a result estimate an implied value.
- c. Determine estimated fair value of shares of common stock using the Discounted Cash Flow Method. Discounted cash flow method values a company based on projected cash flows.
- d. Determine estimated fair value of shares of common stocks using the Asset Approach. The Asset Approach is typically used in the valuation of holding companies and in operating companies where the value of the underlying assets exceeds the value of the business as a going concern. Although this method was considered, this method was not utilized in the analysis of the Company.

The valuation process involves plan management's selection of an independent appraiser under contract for a certain term with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company and other internal management resources, such as management forecasts and projections. The appraiser prepares a preliminary report which plan management reviews in detail, discusses and approves. The results of this process is documented by plan management.

Policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third party information.

The investment in the Company's common stock is considered a Level 3 measure as a number of the inputs to the valuation methodology are unobservable.

5. Fair Value Measurements (continued)

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2017.

	2017
Balance , at beginning of year	\$ 2,750,000
Unrealized losses to assets still held at the reporting date	(700,000)
Purchases and issuances	31,155
Sales and repayments	(31,155)
Balance , at end of year	\$ 2,050,000

Gains and losses (realized and unrealized) included in changes in net assets (deficit) available for benefits for the year ended December 31, 2017, are reported in net depreciation in fair value of investments.

6. Related Party and Party-In-Interest Transactions

All Plan investments are shares of Spinnaker Holding Inc. common stock. The Plan held 250,000 shares of Spinnaker Holding Inc. common stock at December 31, 2017 and 2016, valued at \$2,050,000 and \$2,750,000, respectively. The investment qualifies as a party-in-interest transaction which is exempt from the prohibited transaction rules of ERISA. Diversification payments also qualify as party-in-interest transactions. No diversification payments were made for 2017.

GreatBanc Trust Company is the Trustee as defined by the Plan, and Principal Financial Group provides certain recordkeeping and administrative services to the Plan. These organizations are considered to be parties-in-interest under ERISA.

7. Tax Status

The Plan sponsor obtained its latest determination letter on October 3, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan sponsor believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

**Spinnaker Holding Inc.
Employee Stock Ownership Plan**

Notes to Financial Statements

7. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years prior to 2014.

8. Risks and Uncertainties

The Plan invests in the Company's common stock. The Company's common stock is exposed to various risks such as market volatility as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Company's common stock, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets (deficit) available for benefits.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Spinnaker Holding Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2017, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the Spinnaker Holding Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

Spinnaker Holding Inc. (the “Company” or “Plan Sponsor”) established the Spinnaker Holding Inc. Employee Stock Ownership Plan effective as of January 1, 2012. The Plan operates as an employee stock ownership plan (“ESOP”), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, (the “IRC”), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974.

The Plan is administered by an Employee Benefits Administration Committee (the “Committee”) comprising of up to three persons appointed by the Company’s Board of Directors. GreatBanc Trust Company has been appointed as the Plan’s trustee (“Trustee”). The Company contributions are held by the Spinnaker Holding Inc. Employee Stock Ownership Trust (the “Trust”) and managed by the Trustee, which invests Plan income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan purchased common shares of Spinnaker Holding Inc. using the proceeds of a secured borrowing with the Company on January 31, 2012 (See Note 4). Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year’s payments, plus all future years’ principal and interest payments. There were 7,625 shares released and allocated by the Plan for the year end December 31, 2017.

The Company has no rights against the shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the accompanying financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of participants with vested and non-vested rights in allocated shares of Company common stock (allocated); and
- (b) shares of Company common stock not yet allocated to participants (unallocated).

Prior to January 1, 2014, shares were released and allocated upon payment of principal and interest made during the year. Effective January 1, 2014, shares are released and allocated based upon payment of principal and interest made during the year, plus the Company contribution receivable related to the plan year.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan (continued)

Eligibility

Employees of the Company are generally eligible to participate in the Plan on the first day of the quarter following the attainment of one (1) year of service, providing they worked at least 1,000 hours during the plan year. A participant who fails to work at least 1,000 hours during a plan year or is not employed on the last working day of a plan year is generally not eligible for an allocation of the Company contributions for that year.

Contributions

Company contributions are determined annually at the discretion of the Company's Board of Directors and may be in the form of cash, shares of Company common stock, or by means of the forgiveness of any amounts due under the outstanding ESOP loan. The contributions are allocated among eligible participants of the Plan in the ratio that the compensation of each eligible participant bears to the total of all such compensation of all eligible participants. The Plan does not permit voluntary contributions.

In addition, for any year during which the ESOP loan is outstanding, the Company shall pay over to the Trustee as contributions to the Plan for that year, no less than the amounts necessary to enable the Trustee to pay any maturing obligations under the outstanding ESOP loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant.

Any Company contributions and the forfeitures arising under the Plan during the year shall be allocated among participants who are credited with a year of service for such fiscal year and who are employed by the Company on the last day of such fiscal year, or who die, incur a disability or retire on a normal retirement date during such fiscal year, in the proportion that such participant's compensation for that year bears to all such participants' compensation for that year.

Dividends on the Company's common stock and all other income, losses and expenses earned or incurred on Plan investments are allocated pro rata among the accounts of the participants in proportion to their account balances. The Company did not declare any dividends for the year ended December 31, 2017.

Vesting

A participant's vesting percentage increases 20% per year, commencing on the second year of completed service, until becoming fully vested after six years of service. An individual becomes automatically 100% vested upon death, disability or normal retirement age, which is defined as age 65.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan (continued)

Forfeitures

Forfeitures are allocated in the same manner as Company contributions as described above. At December 31, 2017 and 2016, there are no forfeited non-vested accounts. Forfeitures allocated to participants during the year ended December 31, 2017 totaled approximately \$150.

Payment of Benefits

Generally, participants are entitled to receive distributions of their account balance following retirement, death, disability or other termination of employment. For so long as either the Company is an "S corporation" for federal income tax purposes or the articles of incorporation or the by-laws of the Company restrict the ownership of substantially all outstanding shares of common stock of the Company to current employees of the Company and to the Trust, then distribution of the balance credited to a Participant's Company Common Stock Account shall be made in the form of either (a) cash or (b) Company common stock, subject to the requirement that the Company common stock be immediately sold to the Company or back to the Trust at a price equal to its fair market value determined as of the most-recent valuation date. The Company adopted a Distribution Policy in 2013, pursuant to which only cash distributions are made from the Plan. During 2017, the Company repurchased from participants 3,861 shares at prices determined from the independent appraisal. These shares were then allocated to the remaining participants.

Voting Rights

Each participant is entitled to direct the Trustee as to how to vote the shares allocated to his or her account with respect to any proposed merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or any similar transactions that are specified in regulations interpreting Section 409(e)(3) of the IRC. Participants are notified by the Trustee prior to the time such rights are to be exercised. The Trustee shall vote the shares of Company common stock which are not allocated to any participant, and the shares with respect to which no direction is received from the participant, in the manner determined by the Committee.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year end based upon shares of Company common stock in the participant's account at year end.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan (continued)

Plan Termination

The Company reserves the right to terminate the Plan at any time by action of its Board of Directors, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will become 100% vested and distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Investments held in Spinnaker Holding, Inc. common stock are valued at the fair market value as of December 31, 2017 and 2016, as determined by an annual independent appraisal.

The aggregate of (a) the net unrealized appreciation or depreciation in the fair value of investments for the year ended December 31 and (b) the net gains or losses on dispositions of investments during the year are reflected as net depreciation in the net changes in the fair value of the investments. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

A significant estimate used in the preparation of these financial statements is the valuation of the Spinnaker Holding Inc. common stock recorded at its fair value for which the ultimate realization of the investment is based upon future economic factors related to the investment.

For the aforementioned estimate, it is reasonably possible that the recorded amounts or related disclosures could significantly change in the near future as new information is available about the value of Spinnaker Holding Inc. common stock, which represents a significant investment of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and are excluded from these financial statements.

Subsequent Events

The Plan evaluated subsequent events through September 7, 2018, the date the accompanying financial statements were available to be issued. No material subsequent events have occurred through September 7, 2018 that required recognition or disclosure in these financial statements.

3. Investments

The Plan's investments in the Company's common stock at December 31, 2017 and 2016, are as follows:

December 31, 2017

	Allocated	Unallocated	Total
Common stock, Spinnaker Holding Inc.:			
Number of shares	56,461	193,539	250,000
Cost	\$ 1,087,446	\$ 3,727,554	\$ 4,815,000
Estimated Fair Value	\$ 462,983	\$ 1,587,017	\$ 2,050,000

December 31, 2016

	Allocated	Unallocated	Total
Common stock, Spinnaker Holding Inc.:			
Number of shares	48,837	201,163	250,000
Cost	\$ 940,590	\$ 3,874,410	\$ 4,815,000
Estimated Fair Value	\$ 537,201	\$ 2,212,799	\$ 2,750,000

4. Loan Payable

On January 31, 2012, the Plan entered into a \$4,815,000 term loan agreement with Spinnaker Holding Inc. The agreement provides for the loan to be repaid over 35 years. The proceeds were used to purchase 250,000 shares of Spinnaker Holding Inc.'s common stock. Principal and interest payments of approximately \$224,000 are due annually with interest at 3%. As the Plan makes each payment of principal and interest, an appropriate percentage of common stock is allocated to the eligible participants' accounts in accordance with applicable regulations under the IRC.

Notes to Financial Statements

4. Loan Payable (continued)

The scheduled amortization of the loan for the next five years and thereafter is as follows:

<i>Year ending December 31,</i>	<i>Total</i>
2018	\$ 102,763
2019	105,846

2022	115,660
Thereafter	3,498,955
Total Loan Payments	\$ 4,044,537

5. Fair Value Measurements

Accounting Standards Codification (“ASC”) Topic 820, “*Fair Value Measurements and Disclosures*,” establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Spinnaker Holding Inc. Employee Stock Ownership Plan

Notes to Financial Statements

5. Fair Value Measurements (continued)

Common stock - Investments in Spinnaker Holding Inc. common stock are valued by an annual independent appraisal. In approaching the valuation, a variety of factors are taken into consideration, including:

- a. the nature and history of the business, its current position, and its outlook;
- b. the general and relevant economic conditions prevailing at the time of the appraisal; and
- c. the current conditions and outlook in the market in which the subject company competes.

The approach in determining fair value of the common stock involved the following:

- a. Determine estimated fair value of shares of common stock using the Guideline Company Method. This valuation analysis is a technique that determines a value based on a direct comparison of the subject company to publicly traded companies.
- b. Determine estimated fair value of shares of common stock using the Transaction Method. The primary focus of this method is to examine the terms, prices, and conditions found in either actual sales of the Company's common stock or sales of companies in the industry and as a result estimate an implied value.
- c. Determine estimated fair value of shares of common stock using the Discounted Cash Flow Method. Discounted cash flow method values a company based on projected cash flows.
- d. Determine estimated fair value of shares of common stocks using the Asset Approach. The Asset Approach is typically used in the valuation of holding companies and in operating companies where the value of the underlying assets exceeds the value of the business as a going concern. Although this method was considered, this method was not utilized in the analysis of the Company.

The valuation process involves plan management's selection of an independent appraiser under contract for a certain term with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company and other internal management resources, such as management forecasts and projections. The appraiser prepares a preliminary report which plan management reviews in detail, discusses and approves. The results of this process is documented by plan management.

Policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third party information.

The investment in the Company's common stock is considered a Level 3 measure as a number of the inputs to the valuation methodology are unobservable.

5. Fair Value Measurements (continued)

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2017.

	2017
Balance , at beginning of year	\$ 2,750,000
Unrealized losses to assets still held at the reporting date	(700,000)
Purchases and issuances	31,155
Sales and repayments	(31,155)
Balance , at end of year	\$ 2,050,000

Gains and losses (realized and unrealized) included in changes in net assets (deficit) available for benefits for the year ended December 31, 2017, are reported in net depreciation in fair value of investments.

6. Related Party and Party-In-Interest Transactions

All Plan investments are shares of Spinnaker Holding Inc. common stock. The Plan held 250,000 shares of Spinnaker Holding Inc. common stock at December 31, 2017 and 2016, valued at \$2,050,000 and \$2,750,000, respectively. The investment qualifies as a party-in-interest transaction which is exempt from the prohibited transaction rules of ERISA. Diversification payments also qualify as party-in-interest transactions. No diversification payments were made for 2017.

GreatBanc Trust Company is the Trustee as defined by the Plan, and Principal Financial Group provides certain recordkeeping and administrative services to the Plan. These organizations are considered to be parties-in-interest under ERISA.

7. Tax Status

The Plan sponsor obtained its latest determination letter on October 3, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan sponsor believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

7. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years prior to 2014.

8. Risks and Uncertainties

The Plan invests in the Company's common stock. The Company's common stock is exposed to various risks such as market volatility as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Company's common stock, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets (deficit) available for benefits.
