Report on the Financial Statements

We have audited the accompanying financial statements of CTL Engineering, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Administrative Committee
CTL Engineering, Inc. Employee Stock Ownership Plan

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2017 and 2016

Note 1: Plan Description and Basis of Presentation

The following brief description of the CTL Engineering, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

CTL Engineering, Inc. (the "Company") established the Plan effective as of April 1, 1990. The Plan has been amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Administrative Committee comprised of one or more persons appointed by the Company's Board of Directors. The Plan's Trustee is an officer of the Company.

The Plan purchased Company common shares using the proceeds of bank and Company borrowings and holds the stock in a trust established under the Plan. The borrowings were repaid during 2006 by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings were collateralized by the unallocated shares of stock and were guaranteed by the Company. The lenders had no rights against shares once they were allocated to participants in accordance with the terms of the ESOP. Since the borrowings were repaid, the financial statements of the Plan as of December 31, 2017 and 2016, and for the year ended December 31, 2017, reflect the accounts of employees with vested rights in allocated stock ("Allocated"). There are no unallocated shares.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service and are 21 years old or over. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. The latter condition does not apply if employment termination is due to temporary or seasonal lay-off, normal or early retirement, disability, or death.

Employer Contributions

The Company, at its discretion, can make contributions to the Plan in cash or Company stock. Employee contributions are not permitted.

Note 1: Plan Description and Basis of Presentation (continued)

Payment of Benefits

Distributions on account of death, disability or retirement are made in lump sum in the Plan year following the event. Effective January 1, 2016, upon the attainment of age 65, a participant may elect to receive an in-service distribution, payment of which may be delayed up to an additional five Plan years after distribution has been approved. Distributions for other separations from service may be delayed by the Plan Administrator up to an additional five Plan years after such termination of service. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash. Benefits exceeding $25,000 can be paid evenly over five years.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2017, the Company recycled 408 shares from participants at prices determined from an independent appraisal.

The Plan allows for the transfer of account balances of retired or terminated participants to the CTL Engineering, Inc. 401(k) Profit Sharing Plan and Trust ("Profit Sharing Plan"). During 2017, there was $762,050 in transfers to the Profit Sharing Plan.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Administrative expenses paid by the Plan for the year ended December 31, 2017 consisted of key-man insurance premiums for a term life policy on a Company executive, the Trustee of the Plan, and fees relating to administration of the Plan. All other expenses of maintaining the Plan are paid by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote on any allocated shares for which instructions have not been given by a participant. The Administrative Committee has the right to direct the Trustee as to the voting of any unallocated shares held in the Plan on behalf of the collective best interests of Plan participants and beneficiaries.

Note 1: Plan Description and Basis of Presentation (continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation and length of service, relative to total eligible compensation and total years of service. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service after two years, and are 100 percent vested after six years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. If the total value is in excess of $5,000, the Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. In each of the first five years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. After the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution upon eligibility for distribution.

Note 1: Plan Description and Basis of Presentation (continued)

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the designated point system of compensation and years of service. Forfeitures of terminated non-vested account balances allocated to remaining participants for the year ended December 31, 2017 consisted of 1.9 shares and $26,863 in cash.

Rebalancing

The Plan allows for the rebalancing of participant accounts as of the end of each Plan year designed to result in all participant accounts having the same proportion of employer securities.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair value. See Note 3 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through June 25, 2018, the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3: Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Cash: Valued at cost, which approximates fair value.

Sponsor Company common stock: Valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market, income and net value valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser under contract. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	2017
Cash	$ 256,913	$ -	$ -	$ 256,913
Sponsor Company common stock	-	-	13,554,127	13,554,127
Investments at fair value	$ 256,913	$ -	$ 13,554,127	$ 13,811,040

	Level 1	Level 2	Level 3	2016
Cash	$ 360,352	$ -	$ -	$ 360,352
Sponsor Company common stock	-	-	11,424,429	11,424,429
Investments at fair value	$ 360,352	$ -	$ 11,424,429	$ 11,784,781

Note 3: Fair Value Measurements (continued)

Changes in Fair Value of Level 3 Assets

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017:

Balance, beginning of year	$ 11,424,429
Unrealized gains relating to assets still held at the reporting date	2,129,698
Shares repurchased from participants related to diversification and minimum required distributions	(100,368)
Shares redistributed to participants	100,368
Balance, end of year	$ 13,554,127

Note 4: Related-Party and Party-In-Interest Transactions

The Plan invests in Company common stock. This is a related-party and party-in-interest transaction. As described in Note 1, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note 5: Risk and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the Company common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 6: Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Administrative Committee directs the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 7: Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 25, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
