SOUTHERN GRAPHICS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2016 AND 2015, AND FOR THE YEAR ENDED

DECEMBER 31, 2016

1. DESCRIPTION OF THE PLAN

The following description of the Southern Graphics, Inc. Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's information.

General—The Plan is a defined contribution plan covering all full-time employees of Southern Graphics, Inc. (the "Plan Sponsor/Company/Employer") who have completed ninety days of service. Employees covered by a collective bargaining agreement, leased employees, or temporary employees with less than 1,000 hours of service within the 12 month period beginning on the employment commencement date or the first day of any Plan Year beginning subsequent to such employment commencement date are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions—Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) matching contributions made by the Company, and (iii) participant rollovers from another plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions; these additional contributions are ineligible for a Company matching contribution.

Participants may elect to contribute a percentage of their compensation, excluding bonuses and commissions, to the Plan each year, subject to the limitations, as defined in the plan document. Participants determine if these contributions will be included in their taxable income for federal income tax purposes at the time of compensation (contribution) or excluded from their taxable income until received as a withdrawal or distribution from the Plan.

For the year ending December 31, 2016, employer matching contributions were 50% of that portion of a participant's pre-tax contributions that does not exceed 8% of the participant's eligible compensation.

The Company may elect to make additional discretionary contributions. No additional discretionary contributions were made in 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts—Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contribution and related matching contributions, discretionary contributions, and Plan earnings. Participant accounts are also charged with withdrawals and an allocation of plan earnings/losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments—Participants may direct the investment of their contributions, employer matching contributions and/or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. The Plan currently offers twenty-eight mutual funds, one stable value fund, and one personal choice retirement account as investment options for participants. The latter of these options (a PCRA) makes available to the participant a wider range of investments and the ability to more independently manage their investments and make trade decisions.

Vesting—Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service using the cliff vesting method. A participant is 100% vested in the Company's contributions after three years of continuous service.

Notes Receivable from Participants—Participants may borrow from their account an amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment funds and the loan fund. Participants may only have one loan outstanding at any given time. Loan terms range from one to five years, with the exception of loans for the purchase of a primary residence. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates at the time the funds are borrowed. Principal and interest are paid ratably through payroll deductions. Interest rates ranged from 4.25% to 6.0% for the year ended December 31, 2016 with maturity dates ranging from January 2017 to January 2030.

Payment of Benefits—On termination of service with the Company (including termination of service due to death, disability, or retirement), a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments, or any other form authorized by the Internal Revenue Service (IRS), as defined in the Plan.

Participants are also eligible to make hardship withdrawals from the Plan in the event of certain financial hardships, provided they meet the provisions described in the Plan. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Forfeited Accounts—When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. The plan document permits the use of forfeitures to either reduce future employer contributions or plan administrative expenses for the plan year. However, if a participant is reemployed and fulfills certain requirements, as defined in the plan document, the account will be reinstated. At December 31, 2016 and 2015, forfeited account balances totaled \$152,130 and \$49,654, respectively. During 2016, employer contributions were reduced by \$182,997 from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provides various investment options to its participants. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

After the adoption of ASU 2015-12, contract value is the only required measure for fully benefit-responsive investment contracts. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the contract value of the investment contracts. The statement of changes in net assets available for benefits is prepared using the contract value basis as well.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

Administrative Expenses—Administrative expenses of the Plan are paid by the Plan Sponsor as provided in the plan document. All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits—Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who elected to withdraw from participation in the Plan but were not yet paid at December 31, 2016 and 2015.

Excess Contributions Payable—The Plan is required to return contributions received during the Plan year in excess of the IRC limits. There were no such amounts at December 31, 2016.

Plan Mergers—There were three plan mergers that occurred in 2016. On January 1, 2016 the Armstrong-White Inc. and Stevenson Color, Inc. plans were terminated and all eligible employees were included in the Plan. Participant account balances of \$1,731,930 were transferred from the Armstrong-White Inc. Plan, in January 2016. Participant account

balances of \$8,701,034 were transferred from the Stevenson Color, Inc. Plan in January 2016. Additionally in April 2016, the Multi-Ad Services, Inc. Plan was terminated and all eligible employees were included in the Plan. Participant account balances of \$9,273,097 were transferred from the Multi-Ad Services, Inc. Plan in April 2016. Outstanding loan and unallocated plan asset balances for all three of the previous plans totaling \$357,814 were also transferred over during these time periods. All plans were merged into the Plan to consolidate defined contribution plans for the Company. These mergers provide consistency in the related benefits for employees across the Company and improve administrative efficiencies.

Subsequent Events—Subsequent events were evaluated through September 30, 2017, the date the financial statements were available to be issued.

During the second quarter of 2017, it was announced that as of July 1, 2017, the company would no longer be giving a matching contribution to the employees for the remainder of 2017. No other subsequent events were noted.

** Note that certain mutual funds are parties-in-interest.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Personal Choice Retirement Accounts—Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund—Valued at the net asset value of units of a bank collective trust. The net asset value as provided by the custodian, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. Redemption for common collective trusts is permitted daily with no other restrictions or notice periods and there are no unfunded commitments. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. In accordance with GAAP, the stable value fund measured at net asset value has not been classified in the fair value hierarchy. The fair value amount presented in the table below is intended to permit reconciliation to the amounts presented in the Statement of Net Assets Available for Benefits.

The stable value fund (the "Fund") is a collective trust fund sponsored by Wells Fargo. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant net asset value (NAV) of \$1 per unit. Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of \$1 per unit; although there is no guarantee that the Fund will be able to maintain this value.

Cash Reserve Account—Held primarily in short-term money market funds, which are valued at cost plus accrued interest.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2016 and 2015.

Total investments	<u>\$ 113,176,909</u>	<u>\$ -</u>	<u>\$ 129,738,828</u>

* Party-in-interest.

** Certain funds are parties-in-interest.

Transfers between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2016 and 2015, there were no transfers between levels.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are in investment funds managed by State Street Bank and Trust Company or its affiliates. State Street Bank and Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services were \$77,104 for the year ended December 31, 2016.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

7. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to having received the aforementioned letter the Plan has been amended and restated to apply to the code outlined in the letter. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.
