SOUTHERN TOWING COMPANY 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2017

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Southern Towing Company 401(k) Plan (the “Plan”) is provided for general information purposes. Participants should refer to the Plan documents for more complete information. A summary description of the Plan has been provided to all eligible employees of the Company.

General

The Plan is a defined contribution plan adopted by Southern Towing Company (the “Company”) in February 1979. The plan covers substantially all employees of the company who have three months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective August 1, 2017, the Plan spun off from the Trive Capital 401(k) Plan.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary matching contribution equal to a percentage of the elective deferral contributions. The Company may also make a discretionary contribution and a qualified non-elective contribution. For the period ended December 31, 2017, the Company made a matching contribution of \$381,570 and no discretionary contributions or non-elective contributions.

Forfeitures

If an employee terminates before his or her matching and profit sharing contribution accounts have become fully vested, such portions are forfeited. Participant forfeitures may be used to pay any administrative expenses or to reduce the Company’s contributions. For the year ended December 31, 2017, no forfeitures were used to reduce the Company’s contributions and plan expenses. As of December 31, 2017, there were no accumulated forfeitures.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contributions and (b) Plan earnings. Allocations are based on participant account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account. Participant accounts are participant-directed.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The notes receivable are secured by the balance in the participant’s account and bear interest at rates ranging from 4.25% to 5.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Vesting

Participants are immediately vested in all contributions, plus actual earnings thereon.

Payment of Benefits

Upon termination of service by death, early retirement, or retirement, the participant or the participant's beneficiary will receive their vested account balance in one lump sum. Normal retirement age is 65.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the plan sponsor and are excluded from these financial statements. Recordkeeping and other administrative expenses may be charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Additional fees are charged to participants based on their use of certain Plan features.

Date of Management's Review

The plan sponsor evaluated the Plan's December 31, 2017 financial statements for subsequent events through August 31, 2018, the date the financial statements were available to be issued. The plan sponsor is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan's investments are stated at fair market value (except for fully benefit-responsive investment contracts, which are reported at contract value), as defined by generally accepted accounting principles. See Note 3 for disclosure of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of investment income, realized gains (losses), and the unrealized appreciation (depreciation) on investments.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under generally accepted accounting principles are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017.

Mutual funds: Valued at the daily closing price as reported by fund. The mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account and collective trust fund: Valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Pooled separate accounts can be redeemed on a daily basis. Collective trust funds can be redeemed at NAV as of the measurement date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 244,553	\$ -	\$ -	\$ 244,553
Investments Measured at NAV				
Pooled separate accounts	-	-	-	238,948
Collective trust fund	-	-	-	14,370,727
Total investments at fair value	\$ 244,553	\$ -	\$ -	\$ 14,854,228

NOTE 4 – GUARANTEED INTEREST CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a traditional investment contract with Principal Life Insurance Company that maintains the contributions in a general account. The contract meets the fully-benefit responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation

4. A material amendment to the agreements without the consent of the issuer.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 – TAX STATUS

The Internal Revenue Service issued a determination letter dated March 31, 2014 stating that the Prototype Non-Standardized Profit Sharing Plan with CODA, which the Plan adopted, was designed in accordance with applicable Internal Revenue Code (IRC) requirements. The Plan has not requested a determination letter of its own. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan has not generated any taxable income and no federal or state income tax returns have been filed. Federal and state taxing authorities could request an examination of the financial records of the Plan to ascertain if any such taxable income exists, but no such examination has occurred or is pending.

NOTE 7 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are units in a guaranteed interest account or pooled separate accounts issued by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, certain Plan expenses paid directly by the plan sponsor also qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction provision of ERISA and the Internal Revenue Code.

NOTE 8 – INFORMATION PROVIDED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. The assets of the Plan are held by the trustee. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2017
- Investment activity, as shown in the Statement of Changes in Net Assets Available for Benefits for the period ended December 31, 2017
- The Schedule of Assets (Held at End of Year) as of December 31, 2017

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.
