Report on the Financial Statements

We were engaged to audit the accompanying financial statements of URS Professional Solutions Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2017 and 2016 and for the years then ended, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

URS PROFESSIONAL SOLUTIONS PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the URS Professional Solutions Pension Plan (the “Plan”), is provided for general information purposes only. Participants should refer to the Plan document and the Summary Plan Description for more complete information regarding the terms of the Plan.

General: The Plan is a frozen noncontributory defined benefit pension plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Prior to the Plan Freeze Date (December 31, 2005), the Plan covered all employees of Washington Safety Management Solutions, LLC (the “Employer”) who, on October 1, 1997, were members of the pension plan maintained by Westinghouse Savannah River Company (“WSRC”). Other full-service employees, as defined by the Plan, not meeting the above requirements, were eligible for the Plan as of their first day of employment or reemployment with the Employer. All other employees were eligible for the Plan once they had completed one full year of service in accordance with the Plan. After the Plan Freeze Date, no new participants were allowed into the Plan and pension benefits stopped accruing.

AECOM E&C Holdings, Inc., a subsidiary of AECOM (collectively “the Company”), is the sponsor of the Plan. The Plan is administered by the Americas Benefits Administration Committee as authorized by AECOM.

Benefits: The Plan provides for normal retirement at age 65 with completion of 15 years of service and provides 100% cliff vesting upon completion of 5 years of service. Benefits are determined primarily as a function of both the years of service and the highest average compensation over 36 consecutive months at any time during the participants’ employment with the Employer. The Plan generally provides for a reduced benefit for early retirement.

Even though the Plan is frozen, a participant, through continued employment with the Employer, continued to earn eligibility credit for vesting and retirement purposes. Pension benefits for active participants in the Plan as of the Plan Freeze Date were based on pay and service earned through December 31, 2005.

Death and Disability Benefits: If an active employee dies, the spouse may be entitled to a spouse survivor benefit. Depending on the employee’s age and/or eligibility service at the time of death, the spouse may qualify for an immediate spouse survivor benefit or a deferred spouse survivor benefit. The amount of spouse survival benefit is dependent upon the employee’s length of service at time of death.

An active full-service employee who becomes permanently disabled and has at least 15 years of eligible service may qualify for a retirement benefit as long as the disability exists. The disability benefit is a lifetime-unreduced pension equal to the pension benefit earned as of the date of retirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Recent Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) No. 2015-07, *Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (“ASU 2015-07”). ASU 2015-07 seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. It is effective for annual reporting periods beginning after December 15, 2016. The Plan adopted ASU 2015-07 for the plan year ended December 31, 2017, and applied it retrospectively for all periods presented, as required. Investments measured at net asset value (“NAV”) are not classified within the fair value hierarchy. The impact of adopting this update is reflected in Note 7.

In February 2017, the FASB issued ASU No. 2017-06, *Employee Benefit Plan Master Trust Reporting* (“ASU 2017-06”). ASU 2017-06 clarifies and updates presentation and disclosure requirements for a plan’s interest in a master trust, and eliminates redundancy relating to disclosures for plans with 401(h) accounts. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Upon adoption, ASU 2017-06 is to be applied retrospectively to all periods presented. The Plan’s management is currently in the process of evaluating the impact of the adoption of ASU 2017-06 on its Plan financial statements.

Valuation of investments: The fair value of interest in the Master Trust is based on the beginning of the year value of the Plan’s interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for a description of fair value measurements under Accounting Standards Codification (“ASC”) 820.) Investment income (loss) and realized and unrealized gains or losses are reported as a single amount as plan interest in investment gain (loss) of the Master Trust. (See Note 7 for information about the Master Trust.)

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan’s gains and losses on investments bought and sold as well as those held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Administrative expenses: The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: The Plan has evaluated subsequent events through September 28, 2018, the date the financial statements were available to be issued.

3. FUNDING POLICY

The Company contributes such amounts as are necessary (calculated on an actuarial basis) to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. For 2017 and 2016, the minimum funding requirements of ERISA, as determined by consulting actuaries, have been met.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Because the benefits under the Plan are frozen, the accumulated plan benefits for active employees are based on their accrued benefits as of the December 31, 2005 Plan Freeze Date. Future active employee compensation and credited service increases are no longer applicable after the Plan Freeze Date. Due to the plan freeze, benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included and are fully attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits of the Plan is as follows:

	December 31, 2016	December 31, 2015
Vested benefits:		
Participants and beneficiaries currently receiving benefits	\$17,938,952	\$16,510,399
Other participants	<u>7,392,511</u>	<u>7,762,653</u>
Total vested benefits	25,331,463	24,273,052
Non-vested benefits	<u>123,060</u>	<u>183,564</u>
Total actuarial present value of accumulated plan benefits	<u>\$25,454,523</u>	<u>\$24,456,616</u>
	December 31, 2016	
Actuarial present value of accumulated plan benefits at beginning of period	<u>\$24,456,616</u>	
Increase (decrease) during the period attributable to:		
Benefits paid	(1,728,210)	
Interest due to the decrease in the discount period	1,698,661	
Actuarial losses	418,773	
Change in assumptions	<u>608,683</u>	
Net increase	<u>997,907</u>	
Actuarial present value of accumulated plan benefits at end of period	<u>\$25,454,523</u>	

The actuarial present value of accumulated plan benefits is determined by independent actuaries and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuations for 2016 and 2015 are shown below:

Interest rate	-	2016 – 7.00%
	-	2015 – 7.20%
Rate of pay increases	-	Not applicable

Mortality basis	-	2016 – Benefit weighted RP-2014 mortality table with experience through 2006 with white collar adjustment, and projected generationally with the MP-2017 projection scale thereafter
	-	2015 – Benefit weighted RP-2014 Mortality table with projected mortality improvements after 2006 removed, and projected generationally with the Mercer Modified MP-2016 projection scale with white collar adjustment
Average retirement age	-	Ranging from 1% at age 50 to 100% at age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Plan by a letter dated October 31, 2014, that the Plan, as amended and restated through December 2012, and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (“Code”) and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore believe the Plan and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

6. FAIR VALUE MEASUREMENTS

The URS Government Services Group Master Trust (see Note 7 for more information) holds investments in common trust funds. A common trust fund is a fund for the common investment and reinvestment of assets contributed from employee benefits plans maintained by more than one plan. These investments are valued using the net asset value (“NAV”) provided by the administrator of the common trust fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is used as a practical expedient to estimate fair value.

The valuation method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes

its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. INTEREST IN URS GOVERNMENT SERVICES GROUP MASTER TRUST

The Plan's investment assets are held in a trust account at The Bank of New York Mellon ("Trustee") and consist of an undivided interest in an investment account of the URS Government Services Group Master Trust ("Master Trust"), a master trust established by Westinghouse Government Services Company, LLC and Washington Government Environmental Services Company, LLC, subsidiaries of the Company, and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of two other pension plans sponsored by subsidiaries of a common parent company, AECOM, for investment and administrative purposes. Although assets of these pension plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The Plan had a 14% and 15% interest in the Master Trust's net assets at December 31, 2017, and 2016, respectively. At December 31, 2017 and 2016, the assets of the Master Trust were invested in common trust funds. The fair value of investments was \$201,226,581 and \$164,035,006 at December 31, 2017 and 2016, respectively.

The net investment earnings (losses) for the common trust funds of the Master Trust were \$28,945,766 and \$13,164,011 for the years ended December 31, 2017, and 2016, respectively.

FASB ASC 820 *Fair Value Measurement and Disclosure: Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* requires disclosures of certain attributes in entities that calculate a NAV per share (or its equivalent) and do not have a readily determinable fair value. The following table sets forth the disclosure of the attributes at December 31, 2017 and 2016:

8. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by the Trustee, as of December 31, 2017 and 2016.

The information certified by the Trustee was the annual report and accounting for the years ending December 31, 2017 and 2016, which includes beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment gains (losses).

9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan has certain investments that are managed by the Trustee. The Plan also invests in certain investments managed by Mercer Trust Company (“Mercer”), and Mercer acts as a trustee for those investments. Transactions in such investments qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services of the common trust funds were included as a reduction of the return on each fund. Fees paid by the Plan for investment fund services provided to the Master Trust were \$35,731 and \$45,632 for the years ended December 31, 2017 and 2016, respectively, and reported as a deduction in the Statements of Changes in Net Assets Available for Benefits.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the form of benefit payment elected by the participant at Plan termination. The ceiling varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.
Assumptions Related to Pre-65 Supplement	<p>Interest on Back-Payments: 5.75% per year through November 30, 2013, and 11.26% through July 31, 2015, and 3.32% from August 1, 2015 through December 31, 2016. These interest rates through July 31, 2015 applied per court order to the subclass are assumed to be extended to the newly eligible class under the expanded eligibility interpretation. Interest rates applicable after July 31, 2015 are based on actual trust returns over the period which is the same methodology applied under the court order for prior time periods.</p> <p>Certain members of the newly eligible class under the expanded eligibility interpretation are assumed to elect retroactive retirement or re-retirement and receive back-payments for the supplement and the early retirement benefit (or current benefit if currently retired). Interest on back-payments of regular retirement benefits was determined using an annual rate of 5.0% which is the rate used by the plan administrator.</p>

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year (zero since the plan was frozen) plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.20% during 2015 and 7.20% during 2016 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some</p>

years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits Not Valued All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of January 1, 2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust). Assumed expenses are rounded to the nearest ten thousand.
Expected return on assets	The assumed return of 6.65% during 2016, and 6.81% during 2015 used for asset smoothing is the third segment rate. The expected return on assets assumption was 7.20% during 2016 and 7.20% during 2015 under ASC 715. We have relied on the plan's investment consultants' estimate of expected return on assets. We understand that this assumption reflects the plan's investment consultants' estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the fiscal year that includes the valuation date, current market conditions and the expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination Rates	Termination rates were based on a table for pension participants believed to have similar characteristics to the plan population with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
Disability Rates	Disability rates were based on a table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions. Given the lack of credible disability experience for participants in this plan, and the materiality of this assumption, there is not a different assumption that the plan sponsor believes to be a better estimate.
Retirement Rates	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. Participants are assumed to commence benefits immediately upon retirement.
Benefit Commencement Date for deferred benefits	
<ul style="list-style-type: none"> Preretirement death benefit 	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
<ul style="list-style-type: none"> Deferred vested benefit 	<p>For active participants who terminate, deferred vested benefits are assumed to commence at age 65. Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.</p> <p>Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible.</p>
Form of payment	Participants are assumed to elect the normal form of benefit for married and single participants based on the assumed married percentage. Election of alternate optional forms of benefit is not expected to cause a material change in liability.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Change in Assumptions and Methods Since Prior Valuation

Change in Assumptions Since Prior Valuation Under the Pension Protection Act of 2006, the following assumption changes were made:

- The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation:

- Although the assumed return for asset smoothing during 2016 remained unchanged at 7.20% from 2015 (consistent with the expected return on assets (EROA) assumption under ASC 715), the actual assumed return used for 2016 changed from 2015 because the rate is capped at the third segment rate (reflecting corridors), which changed from 6.81% in 2015 to 6.65% in 2016.
- Rounding of the assumed plan-related expenses was changed from the nearest thousand to the nearest ten thousand. Otherwise the method for determining assumed plan-related expenses did not change. Assumed plan-related expenses added to the target normal cost were changed from \$389,000 for the prior valuation to \$430,000 for the current valuation to account for higher expected expenses to be paid from the trust.

Change in methods since prior valuation

- For the January 1, 2017 valuation, the plan sponsor elected to make a change to the segment interest rates used to determine the funding target in accordance with IRC §430. Specifically, the plan sponsor elected to use the segment rates based on average bond yields for the 24 months ending with the fifth month preceding the valuation date (August) and published during the fourth month preceding the valuation date (September) for the 2017 valuation. For the 2016 valuation, the plan sponsor had elected to use segment rates published during the month containing the valuation date (January).

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective October 1, 1997 and was frozen as of December 31, 2005. It was amended and restated effective August 10, 2012. This valuation accounts for the plan as amended through the valuation date.

Covered Employees	Eligible employees who were participating in the WSRC plan on September 30, 1997 became participants on the Effective Date. Employees of WSMS who are either a Full Service Employee (working at least 20 hours a week on a regular basis) or a Limited Service Employee (working part-time with less than 1,000 Hours of Service). Employees are no longer eligible to enter the plan as of December 31, 2005.
Participation Date	A Full Service Employee becomes a participant on date of hire. A Limited Service Employee becomes a participant after completing one year of Eligibility Service.

Definitions

Eligibility service	<p>Includes all service with WSMS and Affiliated Employers. Includes prior service under the Prior Plan in effect on March 31, 1989 and the WSRC Pension Plan as of September 30, 1997.</p> <p>For those Employees employed on or before December 31, 1995, at least 1,000 hours of service count as one full year of Eligibility Service. After January 1, 1996; however, Eligibility Service for a Full Service Employee begins on the date the Employee completes an Hour of Service. Eligibility Service for Full Service Employees also includes defined absences.</p>
Credited Service	<p>Full Service Employee: Credited Service begins on completion of an Hour of Service and ends on Severance Date.</p> <p>Limited Service Employee: one year of Credited Service for each year of Eligibility Service when the Employee completes 2,080 Hours of Service. However, if Hours of Service are at least 1,000, but less than 2,080, Credited Service is based on a fraction of Hours of Service over 2,080.</p> <p>Prior to September 30, 1997, all service as an Employee was generally included as Credited Service. Credited Service includes service with WSMS and WSRC.</p> <p>Credited service will no longer be accrued after the plan freeze date of December 31, 2005.</p>
Vesting Date	The date the Participant completes five years of Eligibility Service.

Schedule SB, Line 24 Change in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation:

- Rounding of the assumed plan-related expenses was changed from the nearest thousand to the nearest ten thousand. Otherwise the method for determining assumed plan-related expenses did not change. Assumed plan-related expenses added to the target normal cost were changed from \$389,000 for the prior valuation to \$430,000 for the current valuation to account for higher expected expenses to be paid from the trust.

Schedule SB, Line 25 Change in Method

In accordance with 1.430(h)(2)-1(e), automatic approval has been granted for some changes in funding methods permitted by the Pension Protection Act with respect to the interest rate methodology. For the January 1, 2017 valuation, the method for determining interest rates was changed from using segment rates published during the month containing the valuation date (January) to segment rates during the fourth month preceding the valuation date (September) and thus is automatically approved.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
