The Plan consists of guaranteed investment accounts and pooled separate accounts under contract with Massachusetts Mutual Life Insurance Company (MassMutual). Contributions to the Plan, including participant salary deferrals, matching contributions, and rollovers from other plans, can be invested in any fund or combination of funds included in the Plan and are participant directed. A participant may change his or her investment options at any time via telephone service or the internet, once enrolled.

MassMutual and State Street Bank and Trust Company (State Street) serve as custodians of Plan investments and have provided certification statements as to the completeness and accuracy of the information provided to the Plan sponsor for the years ended December 31, 2017 and 2016. Accordingly, the Plan has elected to instruct the auditors not to perform any auditing procedures with respect to the information prepared and certified by the custodians, pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. This limited scope exemption applies only to the Plan investment assets, transactions, income, and supplemental schedule of assets.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to the annual deferral limitations as specified in section 401(g) of the Internal Revenue Code (IRC). For the year ended December 31, 2017, the deferral limitation is $18,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The EGTRRA includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law, to contribute an additional $6,000 for the year ended December 31, 2017.

The Company contributes 50 percent of the first six percent of eligible compensation that a participant contributes to the Plan (matching contribution). For the years ended December 31, 2017 and 2016, the Company made a matching contribution of $893,213 and $932,779, respectively. The Company may also make an additional discretionary contribution as determined annually by the board of directors (discretionary contribution). For the years ended December 31, 2017 and 2016, the Company made a discretionary contribution of $339,000 and $362,000, respectively. Additionally, the Company may make a special qualified nonelective employer contribution (QNEC contribution) as necessary to comply with the annual actual deferral percentage (ADP) test. Employer contributions are invested as directed by the participant and shall not exceed the maximum amount deductible by the Company for federal income tax purposes. Effective January 1, 2018, the formula for the discretionary contribution was amended to be a uniform dollar amount.

Participant Accounts

A Plan participant's account is credited with the employee's contribution and an allocation of (a) the Employer's contribution, if any, and (b) Plan earnings and expenses. Allocations are based on participant compensation, account balance, as defined, or actual contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. A Plan participant, whose employment is terminated due to death, disability, retirement, or any other reason, is entitled to the full value of his or her vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant vests ratably beginning at two years of service and is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Loans to participants are not permitted under this Plan.

Payments of Benefits

Upon separation or termination of service due to death, disability, retirement, or due to other reasons, the value of the participant's vested interest in his or her account may be distributed in lump sums or in partial withdrawals.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled $170,980 and $217,788, respectively. These accounts will be used to reduce current and future Employer contributions. During 2017 and 2016, the Company contributions were reduced by $259,758 and $159,886, respectively, from forfeited nonvested accounts.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when paid. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 3, 2018, the date the financial statements were available to be issued.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of investments and investment income for the years ended December 31, 2017 and 2016, was obtained or derived from information provided to Plan management and certified as complete and accurate by MassMutual, the custodian of the Plan.

The Plan has a fully benefit responsive group annuity contract (GAC) with MassMutual. MassMutual maintains the contributions in a fixed investment account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and fees. The GAC is included in the financial statements at contract value as reported to the Plan by Mass Mutual. The contract value represents the principal balance plus contributions, interest, less participant withdrawals and fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the GAC. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a semi-annual basis for resetting. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan document (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-off of a subsidiary) that cause significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no change in the methodology used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at NAV of shares held by the Plan at year end based on quoted market prices. The NAV as provided by the Custodian is used as a practical expedient to estimate fair value.

The following table summarizes the Plan's assets at fair value as of December 31, 2017 and 2016:

	2017	2016
Investments measured at net asset value:		
Pooled separate accounts	$ 37,665,563	$ 31,670,948
Investments at fair value	$ 37,665,563	$ 31,670,948

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2017 and 2016, respectively.

	2017	2016
Pooled separate accounts		
Fair value	$ 37,665,563	$ 31,670,948
Unfunded commitment	None	None
Redemption frequency	Immediate	Immediate
Other redemption restrictions	None	None
Redemption notice period	None	None
	$ 37,665,563	$ 31,670,948

Note 5. Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are units of pooled separate accounts and guaranteed investment accounts provided through MassMutual. MassMutual is the record keeper and custodian for the Plan and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

Note 7. Tax Status

The Plan is a MassMutual prototype plan adopted by David E. Harvey Builders, Inc. The Internal Revenue Service has determined and informed MassMutual by a letter dated May 11, 2009, that the prototype plan is designed in accordance with applicable sections of the IRC. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2014.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Events

As noted in Note 1, effective January 1, 2018, the discretionary contribution formula was amended to be calculated as a uniform dollar amount.

Schedule C Soft Dollar Compensation
Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
