NOTES TO FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2017 and as of and for the
Ten Months Ended December 31, 2016

NOTE 1 - Plan Description

The following brief description of the Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan, which includes all salaried and clerical employees of Oshkosh Corporation, Oshkosh Defense, LLC, Oshkosh Airport Products, LLC and Oshkosh Commercial Products, LLC (collectively the "Company") hired prior to September 30, 2012 and not covered by a plan maintained pursuant to a collective bargaining agreement. Benefits were frozen for all participants effective December 31, 2012. Beginning January 1, 2013, a participant no longer earns additional pension benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan was in compliance with these minimum funding requirements for the year ended December 31, 2017 and for the ten months ended December 31, 2016.

Vesting

Employees earn one year of vesting service for each year (defined as March 1 through February 28) that they provide at least 1,000 hours of service. If an employee transfers to an affiliate of the Company, the employee continues to earn vesting service under the Plan for his or her employment with that affiliate. Participants vest in their accrued benefits if they reach the age of 65 while employed by the Company or according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than five	0%
Five or more	100%

NOTES TO FINANCIAL STATEMENTS

Ten Months Ended December 31, 2016

NOTE 1 - Plan Description (cont.)

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 55 and 65 with a minimum of five years of vesting service. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of benefit service, Social Security benefits, and monthly salary, averaged over the highest five consecutive years of service prior to December 31, 2012. The Plan was frozen on December 31, 2012. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefits beginning on the participant's normal retirement date in the amount of his or her accrued benefit or early retirement date, in which case benefits will be reduced by multiplying the accrued benefit by the appropriate early retirement factor set forth by the Plan. Participants may elect to receive their distributions, subject to certain Plan provisions, in the following forms, which include a single life method, a joint and 50%, 75% or 100% surviving spouse method, a five-year or ten-year certain and life method, a survivor benefit method, and a lump-sum payment. A participant may elect to receive a lump-sum payment when the distribution amount is more than \$1,000 but not more than \$10,000. Effective January 1, 2017, if the participant's accrued benefit is more than \$1,000 but less than \$5,000 and the participant does not affirmatively elect to receive a lump-sum distribution, an automatic rollover to an individual retirement account is established in the participant's name. If the participant's accrued benefit is \$1,000 or less, the participant is paid a lump sum. If a participant becomes disabled before retirement, the participant may receive benefit payments at the time the participant qualifies for Social Security Disability Benefits.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. Expenses paid by the Company are excluded from these financial statements. These expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums, investment management fees, and trustee fees.

Plan Amendments

The plan was amended during 2017 to allow for a one-time opportunity for terminated vested participants and other payees to elect either a lump-sum distribution or immediately payable annuity. Eligible participants must have terminated employment with the Company prior to April 1, 2017, been entitled to a vested retirement benefit and have not yet begun to receive payment of their Plan benefit. The lump-sum distributions and initial annuity payments occurred in September 2017 and totaled \$5,009,456.

The Plan was amended in December 2016 to change the "Plan Year" from the twelve-consecutive-month period ending the last day of February to the twelve-consecutive-month period ending December 31. This change was effective January 1, 2017.

Termination of Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

NOTES TO FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2017 and as of and for the
Ten Months Ended December 31, 2016

NOTE 1 - Plan Description (cont.)

Termination of Plan (cont.)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities, and changes therein, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Basis of Presentation

As a result of the change in the Plan's year-end, the accompanying financial statements present the Plan's Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016 and Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 and for the ten months ended December 31, 2016.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Valuation of Investments

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (the "Master Trust"). The Master Trust is a multiple-plan trust. In November 2015, the Plan began to implement a liability driven investment strategy. The objective of this strategy is to more closely align the pension plan assets with the pension plan liabilities in terms of how both respond to changes in interest rates. Plan assets are allocated to two investment categories, including a category containing high quality fixed income securities and another category comprised of traditional securities and alternative asset classes. Assets are managed externally according to guidelines approved by Plan management. Over time, the Plan intends to reduce assets allocated to the return seeking category and correspondingly increase assets allocated to the high quality fixed income category to align more closely with the pension plan obligations. The change in investment strategy resulted in the Plan's interest in the Master Trust becoming segregated and specifically identifiable from the investments that support the Company's other sponsored plans that participate in the Master Trust.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The fair value of investments in common stocks, bonds and notes, money market funds, and mutual funds are determined by quoted market prices on the last business day of the Plan year. The fair value of investments in common collective funds are determined using the net asset value ("NAV") per share (or its equivalent) practical expedient. See Note 4 for a discussion of fair value measurements.

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Master Trust provides for investments in common stocks, bonds and notes, money market funds, mutual funds, and common collective funds. Investment securities are exposed to various risks, including, but not limited to, interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Retirement Benefits

The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

Recent Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965); Employee Master Trust Reporting ("ASU 2017-06")*. The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. The Plan has not yet determined the impact ASU 2017-06 will have on the financial statements.

NOTE 3 - Information Certified by the Trustee (Unaudited)

Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 and for the ten months ended December 31, 2016.

The following is a summary of the unaudited information regarding the Master Trust as of December 31, 2017 and 2016 and for the year ended December 31, 2017 and for the ten months ended December 31, 2016, included in the Plan's financial statements, that was prepared by or derived from information prepared by the trustee, and furnished to the plan administrator. NOTE 4 - Fair Value Measurement

The FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, Plan management performs periodic analysis on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

NOTE 4 - Fair Value Measurement (cont.)

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Common Stocks, Bonds and Notes, Money Market Funds, and Mutual Funds: Valued at fair value based on quoted market prices on the last business day of the Plan year.

Common Collective Funds: Valued at fair value based on NAV per share (or its equivalent) practical expedient.

Venture Capital Closely Held Limited Partnership: These investments finance new and rapidly growing companies and do not have readily determinable market values given the specific investment structures involved and the nature of the underlying investments. Valuation is determined by various sources such as issuer, investment manager, etc.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2017, the fair values of the Master Trust's investments were as follows:

	Level 1	Level 2	Level 3	Total
Investments				
Common stocks	\$ 75,610,720	\$ 3,683,711	\$ -	\$ 79,294,431

As of December 31, 2016, the fair values of the Master Trust's investments were as follows:

	Level 1	Level 2	Level 3	Total
Investments				
Common stocks	\$ 69,562,921	\$ 5,061,257	\$ -	\$ 74,624,178

Investments measured at NAV ^(a)				<u>169,085,822</u>
				<u>\$ 312,954,073</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Notes to Financial Statements.

The following table sets forth additional disclosures for the fair value measurement of the fair value of the Master Trust assets that calculate fair value based on NAV per share practical expedient as of December 31, 2017 and 2016:

December 31, 2017				
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective funds	\$ 191,907,240	\$ -	N/A	15 days

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective funds	\$ 169,085,822	\$ -	N/A	15 days

The change in the fair value of the Master Trust's Level 3 investment assets for the year ended December 31, 2017 and for the ten months ended December 31, 2016 was not significant.

Ten Months Ended December 31, 2016

NOTE 5 - Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on years of benefit service, Social Security benefits, and monthly salary, averaged over the highest five consecutive years of service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Aon, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuation as of January 1, 2017, were as follows:

- > Mortality basis – The 2006 Base Rates from the RP-2014 Mortality Study with a fully generational mortality improvement projection using scale MP-2017
- > Actuarial cost method – Standard unit credit cost method
- > Normal retirement age – Active Participants: Graduated rates between age 55 and age 65
- > Interest rate used in accrued benefit calculations – 3.75%
- > Rate of return – 6.50%

The foregoing assumptions are based on the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 6 - Reimbursement of Plan Benefit Payments

Beginning March 1, 2001 and continuing through July 1, 2016, a retiree of the Company received a monthly retirement benefit from the Plan. In late calendar 2015, the trustee of the Plan conducted an audit of the payees of the Plan and identified the retiree as a contractor and not an employee of the Company. Contractors are not eligible to participate in any qualified retirement plan and, as a result, the Company was required to reimburse the Master Trust for the cumulative benefit payments plus a reasonable estimate of any earnings. On September 2, 2016 the Company reimbursed the Master Trust \$493,175, of which \$57,571 related to the ten months ended December 31, 2016.

NOTE 7 - Exempt Party-In-Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

NOTES TO FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2017 and as of and for the
Ten Months Ended December 31, 2016

NOTE 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - Concentrations

As of December 31, 2017, the Master Trust had investments of \$177,852,179 concentrated in three funds. As of December 31, 2016, the Master Trust had investments of \$118,939,368 concentrated in two funds. These funds invest in a diversified pool of investments.

NOTE 10 - Subsequent Events

Management of the Plan has evaluated subsequent events through September 26, 2018, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age. Two different groups, participants with under 30 years of service at retirement and participants with 30 or more years of service at retirement, are used to develop the average. Based on the current active population, approximately 60% of the participants retire with 30 or more years of service. Therefore, the estimated weighted average retirement age is 61 (60% x 60.73 + 40% x 61.91).

Average Monthly Compensation

Average monthly compensation is the sum of the highest five consecutive completed calendar years' compensation prior to the participant's normal retirement age or other date of termination, divided by 60.
