NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2017, as of and for the
Five Months Ended December 31, 2016 and as of and for the Year Ended July 31, 2016

NOTE 1 - Plan Description

The following brief description of the Oshkosh Corporation Hourly Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan, which includes all hourly employees of Oshkosh Defense, LLC (the "Company") in the bargaining unit represented by Local 578, United Auto Workers hired prior to October 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Employees were automatically enrolled in the Plan as of their date of hire. Per an amendment dated September 29, 2013, employees hired after October 1, 2016 are not eligible for the Plan. Participants continue to earn service credit for vesting and eligibility requirements.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan was in compliance with these minimum funding requirements for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016.

For the year ended December 31, 2017, the Company made a $3,000,000 voluntary contribution to the Plan, which was funded in July 2018. For the five months ended December 31, 2016, the Company made a $6,000,000 voluntary contribution to the Plan, which was funded in June 2017. The Company made no such voluntary contribution to the Plan for the year ended July 31, 2016.

Vesting

Employees earn one year of vesting service for each year (defined as August 1 through July 31) that they provide at least 1,000 hours of service. If an employee transfers to an affiliate of the Company, the employee continues to earn vesting service under the Plan for his or her employment with that affiliate. Participants vest in their accrued benefits if they reach the age of 65 while employed with the Company or according to the following schedule:

Years of Vesting Service	Vested Percentage
Less than five	0%
Five or more	100%

NOTE 1 - Plan Description (cont.)

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 60 and 65 with a minimum of 15 years of vesting service. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of service times a benefit dollar multiplier. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefits beginning on the participant's normal retirement date in the amount of his or her accrued benefit or early retirement date, in which case benefits will be reduced by multiplying the accrued benefit by the appropriate early retirement factor set forth by the Plan. Participants may elect to receive their distributions, subject to certain Plan provisions, in the following forms, which include a single life method, a joint and 50%, 75% or 100% surviving spouse method, a five-year or ten-year certain and life method, a survivor benefit method, and a lump-sum payment. A participant may elect to receive a lump-sum payment when the distribution amount is more than $1,000 but not more than $10,000. Effective January 1, 2017, it the participant's accrued benefit is more than $1,000 but less than $5,000 and the participant does not affirmatively elect to receive a lump-sum distribution, an automatic rollover to an individual retirement account is established in the participant's name. If the participant's accrued benefit is $1,000 or less, the participant is paid a lump sum. If a participant becomes disabled before retirement, the participant may receive benefit payments at the time the participant qualifies for Social Security Disability Benefits.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. Expenses paid by the Company are excluded from these financial statements. These expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums, investment management fees, and trustee fees.

Plan Amendments

The plan was amended during 2017 to allow for a one-time opportunity for terminated vested participants and other payees to elect either a lump-sum distribution or immediately payable annuity. Eligible participants must have terminated employment with the Company prior to April 1, 2017, been entitled to a vested retirement benefit and have not yet begun to receive payment of their Plan benefit. The lump-sum distributions and initial annuity payments occurred in September 2017 and totaled $6,698,744.

The Plan was amended in December 2016 to change the "Plan Year" from the twelve-consecutive-month period ending July 31 to the twelve-consecutive-month period ending December 31. This change was effective January 1, 2017.

Termination of Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

NOTE 1 - Plan Description (cont.)

Termination of Plan (cont.)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities, and changes therein, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Basis of Presentation

As a result of the change in the Plan's year-end, the accompanying financial statements present the Plan's Statements of Net Assets Available for Benefits as of December 31, 2017, December 31, 2016 and July 31, 2016 and Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016.

Valuation of Investments

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (the "Master Trust"). The Master Trust is a multiple-plan trust. Historically, interest in the Master Trust was divided among individual plans sponsored by the Company and its subsidiaries based on allocated units of participation. Each participation unit has a value equal to the total fair value of the Master Trust's net assets divided by the total participation units outstanding. The Master Trust net assets and net gain or loss was allocated to the individual plans based on units of participation.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Valuation of Investments (cont.)

In November 2015, one of the other Company sponsored plans began to implement a liability driven investment strategy. The change in investment strategy resulted in the other Company sponsored plan's interest in the Master Trust becoming segregated and specifically identifiable from the investments that support the Plan and the other Company sponsored plan that participate in the Master Trust. For the remainder of the investments within the Master Trust, the investment strategy continues to be based on an expectation that, over time, equity securities will provide higher returns than debt securities. The Master Trust primarily minimizes the risk of larger losses under this strategy through diversification of investments by asset class, by investing in different styles of investment management within the classes and by using a number of different investment managers.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The fair value of investments in common stocks, bonds and notes, money market funds, and mutual funds are determined by quoted market prices on the last business day of the Plan year. The fair value of investments in common collective funds are determined using the net asset value ("NAV") per share (or its equivalent) practical expedient. See Note 4 for a discussion of fair value measurements.

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Master Trust provides for investments in common stocks, bonds and notes, money market funds, mutual funds and common collective funds. Investment securities are exposed to various risks, including, but not limited to, interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Retirement Benefits

The Plan includes scheduled and bargained for increases in the benefit dollar multipliers. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Recent Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting* ("ASU 2017-06"). The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. The Plan has not yet determined the impact ASU 2017-06 will have on the financial statements.

NOTE 3 – Information Certified by the Trustee (Unaudited)

The assets of the Plan are commingled and are not segregated in the accounts of the Master Trust. Although assets of the Plan are commingled in the Master Trust, Wells Fargo Bank, N.A., the trustee of the Master Trust and the Plan, maintains supporting records for the purpose of allocating the net gain or loss of the investment assets to the participating plans. The net investment income or loss of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2017, December 31, 2016 and July 31, 2016 and for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017, December 31, 2016 and July 31, 2016 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016.

The following is a summary of the unaudited information regarding the Master Trust as of December 31, 2017, December 31, 2016 and July 31, 2016 and for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016, included in the Plan's financial statements, that was prepared by or derived from information prepared by the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

NOTE 4 – Fair Value Measurement

The FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e. exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, Plan management performs periodic analysis on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used as of December 31, 2017, December 31, 2016 and July 31, 2016.

Common Stocks, Bonds and Notes, Money Market Funds, and Mutual Funds: Valued at fair value based on quoted market prices on the last business day of the Plan year.

Common Collective Funds: Valued at fair value based on NAV per share (or its equivalent) practical expedient.

Venture Capital Closely Held Limited Partnership: These investments finance new and rapidly growing companies and do not have readily determinable market values given the specific investment structures involved and the nature of the underlying investments. Valuation is determined by various sources such as issuer, investment manager, etc.

NOTE 4 – Fair Value Measurement (cont.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2017, the fair values of the Master Trust's investments were as follows:

	Level 1	Level 2	Level 3	Total
Investments				
Common stocks	$ 75,610,720	$ 3,683,711	$ -	$ 79,294,431

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Notes to Financial Statements.

NOTE 4 – Fair Value Measurement (cont.)

The following table sets forth additional disclosures for the fair value measurement of the fair value of the Master Trust assets that calculate fair value based on NAV per share practical expedient as of December 31, 2017, December 31, 2016 and July 31, 2016.

	December 31, 2017			
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective funds	$ 170,987,982	$ -	N/A	15 days

The change in the fair value of the Master Trust's Level 3 investment assets for the year ended December 31, 2017, for the five months ended December 31, 2016 and for the year ended July 31, 2016 was not significant.

NOTE 5 - Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the employees' number of years of qualified service multiplied by a benefit multiplier. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Aon, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 5 - Actuarial Present Value of Accumulated Benefits (cont.)

Significant actuarial assumptions used in the valuation as of January 1, 2017, were as follows:

- Mortality basis – The 2006 Base Rates from the RP-2014 Mortality Study with a fully generational mortality improvement projection using scale MP-2017
- Actuarial cost method – Standard unit credit cost method
- Retirement age – Graduated rates between age 60 and age 69
- Interest rate used in accrued benefit calculations – 3.80%
- Rate of return – 5.50%

Significant actuarial assumptions used in the valuation as of August 1, 2016, were as follows:

- Mortality basis – The 2006 Base Rates from the RP-2014 Mortality Study with a fully generational mortality improvement projection using scale MP-2016
- Actuarial cost method – Standard unit credit cost method
- Retirement age – Graduated rates between age 60 and age 69
- Interest rate used in accrued benefit calculations – 3.80%
- Rate of return – 5.75%

The foregoing assumptions are based on the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - Actuarial Present Value of Accumulated Benefits (cont.)

The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits, as of and for the five months ended January 1, 2017 and as of and for the year ended August 1, 2016 were as follows:

	January 1, 2017	August 1, 2016

Actuarial Present Value of Accumulated Benefits, at End of Period	$ 139,662,849	$ 133,140,510

The effect of past Plan amendments on accumulated plan benefits is recognized during the year in which such amendment provisions become effective. Effective October 1, 2015, the Plan increased the minimum benefit rate from $33.00 to $34.00. Effective October 1, 2016, the Plan increased the minimum benefit rate from $34.00 to $35.00. Effective October 1, 2017, the Plan increased the minimum benefit rate from $35.00 to $36.00.

As part of the Company's agreement with the Local 578 United Auto Workers Bargaining Unit Employees, the minimum normal benefit multiplier per year of credited service was agreed to be changed as follows: $37.00 effective October 1, 2018; $38.00 effective October 1, 2019; and $39.00 effective October 1, 2020. A retiring participant's benefit will, in part, be based on the benefit multiplier in effect at the time of retirement. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

NOTE 6 - Exempt Party-In-Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

NOTE 7 – Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, December 31, 2016 and July 31, 2016, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - Concentrations

As of December 31, 2017, the Master Trust had investments of $177,852,179 concentrated in three funds. As of December 31, 2016, the Master Trust had investments of $118,939,368 concentrated in two funds. As of July 31, 2016, the Master Trust had investments of $118,117,489 concentrated in two funds. These funds invest in a diversified pool of investments.

NOTE 9 - Subsequent Events

Management of the Plan has evaluated subsequent events through September 26, 2018, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 90% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $215,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
