1. Description of the Plan

The following description of the Ellison Technologies/ACIETA Employees Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which was adopted effective October 1, 2000 under the provisions of Section 401(a) of the Internal Revenue Code ("Code") with a cash or deferred arrangement qualified under Section 401(k) of the Code. Ellison Technologies, Inc. ("Ellison"), is the Plan sponsor, and the Plan also includes a related party company, ACIETA LLC ("ACIETA"), as a participating employer. The Plan covers all employees of Ellison and ACIETA with three months of service who are age eighteen or older, with Plan entry dates on the first day of a calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act, as amended ("ERISA").

Contributions

Participants may elect to reduce their compensation, as defined by the Plan, by a certain amount and have that amount contributed to the Plan as a pre-tax salary deferral or as an after-tax (Roth) salary deferral. Participants who have attained age 50 before the Plan year-end are also eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 8 percent of eligible compensation and their contributions invested in a target date fund until changed by the participant. The Employers may make matching contributions to eligible participants of the Plan. The basic matching contribution is determined for each Plan year wherein the Employer contributes a certain percentage of the participant's contribution. The supplemental matching contribution is determined for any Plan year, wherein the Employer contributes a certain percentage of the participants' contribution if the participant is still employed on the last day of the Plan year. The Employer may also make a profit sharing contribution for participants who are employed on the last day of the Plan year and have at least 1000 hours of service during the Plan year. For the year ended December 31, 2017, Ellison and ACIETA made a basic matching contribution of 10 percent, and also Ellison made a supplemental matching contribution of 10 percent. Contributions are subject to certain limits.

1. Description of the Plan (continued)

Participant Accounts

Participants direct the investment of contributions to various mutual options or to a fixed account invested in the Great-West Life & Annuity Insurance Company general account and which are reflected in individual participant accounts maintained by the Plan. These accounts reflect the participant's contributions, and an allocation of (a) the Employer's contributions, and (b) the Plan's earnings and administrative expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum loan of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loans must be repaid within 5 years or within 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate (at the date of the loan issuance) plus 2 percent. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement or for other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installments. Under certain conditions, in-service withdrawals are permitted.

Forfeiture/Asset Holding Account

At December 31, 2017 and 2016, the Plan's forfeiture/asset holding account totaled $22,026 and $5,222, respectively. These accounts are available to pay administrative expenses and/or reduce future employer contributions. In 2017, employer contributions were reduced by $40,086 and administrative expenses of $9,150 were paid from the forfeiture/asset holding account.

Plan Termination

Although it has not expressed any intent to do so, the Employers have the right under the Plan to discontinue its contributions at any time and the Plan sponsor can terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosures regarding fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis, which approximates when interest is received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expense are reflected as a reduction of investment income for such investments.

Notes Receivable from Participants

Notes receivable from participants are stated at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid or upon distribution.

2. Summary of Significant Accounting Policies (continued)

Expenses

The Plan pays expenses for Plan recordkeeping and for fees related to withdrawals, managed accounts and notes receivable from participants. Such expenses are charged directly to the participant's account and are included in administrative expenses. The Plan may also pay administrative expenses related to investment advisory fees, and certain third-party administrator fees and audit fees. Other expenses of maintaining the Plan are paid directly by the Employers, at their option, and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Other Income

The Plan receives revenue sharing income from the Plan recordkeeper which is reflected as other income and credited to the Plan's forfeiture/asset holding account and used to pay Plan expenses.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 21, 2018, which is the date the financial statements were available to be issued.

3. Financial Information Certified by Trustee

The following is a summary of financial information reflected in the Plan financial statements at December 31, 2017 and 2016, and for the year ended December 31, 2017, as certified by Great-West Trust Company, LLC, the trustee of the Plan, in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Total income certified	$8,661,259

In addition, the investments reflected on the supplemental schedule of assets (held at end of year) were certified by the trustee.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy with the related inputs to the valuation methodology are described as follows:

Level 1	Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access.
Level 2	Significant other observable (directly or indirectly) inputs, including quoted prices for similar assets in active markets or in inactive markets and other market observable inputs such as interest rate, credit risks, etc.
Level 3	Significant unobservable inputs, including the Plan's own assumptions in determining the fair value of investments.

The valuation methodology used for the Plan's investments in mutual funds measured at fair value is that the mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that

4. Fair Value Measurements (continued)

price. The mutual funds held by the Plan are deemed to be actively traded. There have been no changes in the methodologies used at December 31, 2017 and 2016.

The following table sets forth by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total
As of December 31, 2017 -				
Mutual funds	$59,375,839	$ -	$ -	$59,375,839
As of December 31, 2016 -				
Mutual funds	$53,028,401	$ -	$ -	$53,028,401

5. Investment in Insurance Company General Account at Contract Value

The Plan's investment in the Key Guaranteed Portfolio Fund is a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company ("Great-West"), and is therefore reported at contract value. Contract value is the relevant measure for a fully benefit-responsive investment contract because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Great-West maintains the Plan funds in its general account and represents a fixed account that is considered evergreen (no maturity date), with no market value adjustment upon discontinuance. Great-West, as the guaranteed investment contract issuer, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The account is credited with earnings at interest rates which are announced in advance and guaranteed for a specific time period. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate (cannot be less than zero percent), as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Normally while the contract is active, transfers among investment options and distributions to participants will be made immediately. Generally there are not any events that could limit the ability of the Plan to transact at contract value and there are not any events that allow the issuer to terminate the contract and which require the Plan to settle at an amount different than contract value. However, upon contract termination, Great-West reserves the right to defer payment of the contract up to 12 months.

6. Tax Status

The Plan obtained its latest determination letter on April 13, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-In-Interest Transactions

The Plan has an investment in the Great-West Life & Annuity Insurance Company general account. During 2017, the Plan also paid Plan expenses of $85,970 and received other income of $20,000, to/from other Great-West entities who are affiliates of the Plan trustee. In addition, the Plan paid expenses of $17,000 to its investment advisor. These transactions, including the notes receivable from participants, qualify as allowable party-in-interest transactions for which there are statutory exemptions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
