GRAY AMERICA CORP. SAVINGS & RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF PLAN

The following description of Gray America Corp. Savings & Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution savings plan established by Gray America Corp. (the Sponsor) and its wholly owned subsidiaries, L&H Threaded Rods Corp., A-Lab Corp., Scarlet & Gray Corp., and New Dimension Metals Corp., and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation in the Plan is entirely voluntary. An eligible employee is any person employed by Gray America Corp. and its wholly owned subsidiaries who has attained age 21 on the Plan entry dates of January 1, April 1, July 1, or October 1. Leased employees are not eligible to participate.

Contributions - Participants may contribute up to 100% of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Sponsor may make a discretionary matching contribution at an amount determined annually by management. All eligible participants of the Plan are eligible to receive the matching contribution. For 2017 and 2016, the Sponsor matched 50% of the participant's compensation deferred, with a maximum match of \$780. Sponsor discretionary matching contributions were \$32,158 in 2017 and \$35,886 in 2016. In addition, the Sponsor may make a discretionary annual profit sharing contribution, which is allocated to each eligible participant based on the ratio of the participant's compensation to the total compensation of all participants. Participants must complete twelve months of service to be eligible for the profit sharing contribution. Sponsor profit sharing contributions were \$10,000 in 2017 and \$0 in 2016. Participants direct the investment of their contributions and sponsor contributions into one or more funds currently available through the Plan.

Excess Contributions - Contributions made by certain active participants during a plan year are returned to them in order to satisfy the relevant nondiscrimination provisions of the Plan. Excess contributions payable, including earnings, at December 31, 2017 are \$6,889. Excess contributions payable, including earnings, at December 31, 2016 and returned to participants during the year ended December 31, 2017 were \$10,849.

Participants' Accounts - Each participant's account is credited with its proportionate share of employee elective deferrals, the Sponsor's discretionary matching contributions and profit sharing contributions, if any, and the Plan's earnings. Allocations of contributions and Plan earnings are based on participants' elective deferrals, compensation, or account balances, as provided in the Plan agreement. Each participant is entitled only to the benefits that can be provided from that participant's account.

Vesting - Participants are immediately vested in their contributions plus earnings thereon. Participants' vested interests in Sponsor discretionary matching and profit sharing contributions increase from 20% after the second year of service to 100% after the sixth year of service.

Notes Receivable from Participants - Participants may borrow from their account up to a maximum of 50% of their total vested account balance, not to exceed \$50,000, reduced by their highest outstanding note balance during the preceding twelve months. Transactions are treated as transfers between an investment fund and notes receivable. Notes receivable must be repaid within five years unless the purpose is to acquire, construct or reconstruct a principal residence. Each note is secured by the balance in the participant's account and bears a fixed rate of interest of prime plus one percent. Interest rates on outstanding notes at December 31, 2017 range from 4.25% to 5.25%. Interest rates on outstanding notes at December 31, 2016 ranged from 4.25% to 4.75%. Note payments are made by automatic payroll deduction.

Payment of Benefits - Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not exceeding the participant's life expectancy (or the life expectancy of the participant and his or her designated beneficiary). There were no benefits payable to terminated participants at December 31, 2017 and 2016, respectively. In-service distributions are permitted once a participant has attained age 59½. Upon proof, to the satisfaction of the Plan administrator, of an immediate financial need, amounts contributed may be withdrawn for a hardship purpose.

Forfeiture Accounts - Forfeitures may be used to either 1) reduce the amount of any legally permitted expenses incurred in connection with the administration of the Plan which are not otherwise paid by the Sponsor or 2) reduce the Sponsor's future matching and profit sharing contributions. Forfeitures used to reduce administrative expenses were \$0 in 2017 and \$15 in 2016. Forfeitures used to reduce Sponsor matching and profit sharing contributions were \$12,704 in 2017 and \$0 in 2016. Forfeited nonvested accounts at December 31, 2017 and 2016 were \$610 and \$9,183, respectively.

Tax Status - The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes. The Internal Revenue Service has determined and informed the Sponsor by an opinion letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving its acceptance under section 401 of the IRC, the plan administrator and Sponsor believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years 2014 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through August 23, 2018, the date the financial statements were approved and authorized by the Plan administrator.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan has an investment contract with Voya Retirement Insurance and Annuity Company at December 31, 2017 and 2016. This contract is a fully benefit-responsive investment contract for the Voya Fixed Account Fund.

Investment Valuation and Income Recognition - The Plan's investments in securities are stated at fair value determined using year-end market prices which represent the net asset value of shares held by the Plan. Transamerica Life Insurance Company, the former custodian, and Voya Retirement Insurance and Annuity Company, the current custodian, provide market prices to the Plan. Unrealized gains or losses are allocated to participants' accounts. Security transactions are recorded on trade dates; the specific-identification method is used in computing gains or losses. Investment income is stated net of investment fees.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed at the beginning of the loan. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Expenses of the Plan - The Sponsor has elected to pay certain administrative expenses of the Plan and provides administrative services at no cost to the Plan. If not paid by the Sponsor, administrative expenses become a liability and are paid out of the Plan. Administrative expenses paid from the Plan are fees charged to each participant for notes receivable and distribution processing.

3. INVESTMENTS

The following information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2017 and 2016 was obtained from data prepared by Transamerica Life Insurance Company, the former custodian of the Plan, and Voya Retirement Insurance and Annuity Company, the current custodian of the Plan. The plan administrator has obtained certifications from the custodians that such information is complete and accurate. The following represents the fair values of the investments in the separate identifiable funds administered by the custodians:

	2017	2016
Investments, at fair value	\$ 3,408,742	\$ 2,651,624
Investments, at contract value	73,332	93,567
Net appreciation in contract value of investments	3,029	1,104
Net appreciation in fair value of investments	485,072	230,665

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities is based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly

Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued based on quoted market prices of the underlying securities of the account, with adjustments for dividend rates and a management fee. The underlying mutual funds are deemed to be actively traded and are valued based on the closing price as reported by the fund.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts		\$ 3,408,742		\$ 3,408,742

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts		\$ 2,651,624		\$ 2,651,624

5. INVESTMENT CONTRACTS

The Plan has an investment contract with Voya Retirement Insurance and Annuity Company (Voya), the current custodian of the plan. Voya maintains the contributions in a general account, the Voya Fixed Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Voya is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Voya Fixed Account is considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The Voya Fixed Account is presented on the statement of net assets available for benefits at contract value which equals fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Prior to each January 1, the effective annual rate of interest for the Voya Fixed Account is established for the following year. Interest is credited based upon the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the year. The contract minimum annual interest rate for the Voya Fixed account is 1%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain transfers, withdrawals for purposes other than benefits, or termination of the contract. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

The Voya Fixed Account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Voya Fixed Account are as follows at December 31, 2017 and 2016:

	2017	2016
Based on actual earnings	1.20%	1.20%
Based on interest rate credited to participants	1.20%	1.20%

6. NONPARTICIPANT-DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	2017	2016
Net assets	\$ <u>610</u>	\$ <u>9,183</u>
Changes in net assets:		
Forfeitures from participants	\$ 4,055	\$ 4,176
Forfeitures used to reduce Sponsor matching and profit sharing contributions	(12,704)	
Forfeitures used to pay administrative expenses		(15)
Earnings (losses)	<u>76</u>	<u>(325)</u>
Net increase (decrease) in net assets	\$ <u>(8,573)</u>	\$ <u>3,836</u>

7. PARTY-IN-INTEREST TRANSACTIONS

Certain investments are mutual funds managed by the trustees (or affiliates of the trustees) of the Plan. The mutual funds sell portfolio shares to separate accounts offered by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
