Independent Auditors' Report

The Plan Administrator
Munich Reinsurance America, Inc. Pension Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of Munich Reinsurance America, Inc. Pension Plan (the Plan), which comprise the statements of net assets available for plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Reporting on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2017 is presented for the purpose of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PENSION PLAN

Notes to Financial Statements

For the Years Ended December 31, 2017 and 2016

(1) Description of Plan

The following description of the Munich Reinsurance America, Inc. Pension Plan (the Plan) is provided for general information purposes only. The Plan document should be referred to for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(a) General

The Plan is a defined benefit plan which covered all eligible employees of Munich Reinsurance America, Inc. (the Company) and participating affiliated companies who met certain age and service requirements prior to January 1, 2006. The Company is the plan sponsor and plan administrator, as plan administrator is defined by ERISA. The Plan's assets are administered by the Company and the trustee, Vanguard Fiduciary Trust Company (Vanguard). Benefits to Plan participants are administered by Mercer Retirement Administration.

(b) Plan Freeze

The Plan was closed to new entrants effective January 1, 2006. The Plan was frozen for all participants effective December 31, 2011, and all participants ceased accruing credited service on that date. Service subsequent to the plan freeze continues to count toward eligibility for early retirement, vesting, the lump sum option and survivor benefits.

(c) Benefits

Plan participants are entitled to annual pension benefits commencing at normal retirement age (age 65) equal to 1.75% of the participant's average highest consecutive five years of compensation, as defined, multiplied by years (up to 35) of credited service, as defined, at normal retirement date. If early retirement (age 55) is elected, participants with ten or more years of service are entitled to benefits based on service to date of early retirement, reduced 2% per year from age 60 to 62 and 4% per year from age 55 to 60. Participants can retire early with an unreduced benefit when they reach age 62 with ten or more years of service. In the event of the death of a participant with a minimum of five years of service, as defined, and prior to retirement, the surviving spouse is entitled to the benefits as if the participant had selected a 50% joint and survivor option just prior to death.

The Plan provides for a variety of actuarial equivalent annuity options at benefit commencement that include Single Life, 100% Joint and Survivor, 75% Joint and Survivor and 50% Joint and Survivor annuities. A Lump Sum payment option is available to certain participants for a portion of their accrued benefit if (a) a participant retires directly from the Company and the benefits are paid as soon as practicable after termination of employment with the Company, (b) if employment began before January 15, 1997 and (c) for benefits accrued through December 31, 2001. A lump sum payment is not available if termination of employment is prior to qualification for normal or early retirement, or if the participant chooses to defer pension commencement.

Notes to Financial Statements

For the Years Ended December 31, 2017 and 2016

(d) Contributions

Contributions from the Company are actuarially computed using the unit credit cost method and meet the funding requirements as specified by ERISA. Under the Internal Revenue Service (IRS) funding regulation there is no required minimum contribution to the Plan for 2017. Additional contributions may be made to meet IRS funding targets.

(e) Vesting

At December 31, 2017, all participants in the Plan were fully vested.

(f) Administrative Expenses

The administrative expenses incurred in operating the Plan are paid by the Company. Investment management expenses are paid from mutual fund investments and are reflected in net appreciation in fair value investments.

(f) Subsequent Events

There were no subsequent events requiring adjustment to the financial statements or disclosure through September 21, 2018, the date that the Plan's financial statements were available to be issued.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in conformity with U.S. generally accepted accounting principles (U.S. GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits, and changes therein at the date of the financial statements. Actual results could differ from those estimates and assumptions.

(c) Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. All shares of registered investment companies (mutual funds) are valued at quoted market prices. Cash and cash equivalents are recorded at cost, which approximates fair value.

Investment transactions are recorded on a trade-date basis. Dividends are recognized as income on the ex-dividend date. Interest income is recognized on the accrual basis.

MUNICH REINSURANCE AMERICA, INC.

PENSION PLAN

Notes to Financial Statements

For the Years Ended December 31, 2017 and 2016

(d) Benefits

Benefits are recognized when paid.

(e) Application of New Accounting Standards

All recently issued but not yet effective accounting and reporting standards are either not applicable to the Plan or are not expected to have an impact on the Plan.

(3) Fair Value Measurements

The fair value hierarchy, established by U.S. GAAP, prioritizes valuation technique inputs to measure fair value into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The Plan categorizes investments recorded at fair value as follows:

Level 1 – Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date. A market is considered active if: (i) pricing information is obtained from exchange traded securities, (ii) the securities are actively traded, and (iii) current pricing is available. The Plan's investments in publicly traded mutual funds are measured using Level 1 valuations.

Level 2 - Unadjusted quoted prices for similar assets or liabilities in active markets or inputs, other than quoted prices, that are observable or that are derived principally from, or corroborated by, observable market data through correlation or other means. The Plan holds no investments measured using Level 2 valuations.

Level 3 – Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. The Plan holds no investments measured using Level 3 valuations.

See note 2(c) for further information regarding the Plan's investment valuations. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016, and there were no transfers between levels during the periods then ended.

	<u>\$ 554,633,239</u>	<u>-</u>	<u>-</u>	<u>\$ 554,633,239</u>

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include those benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) spouses of employees who have died; and (c) current employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average highest compensation over five years prior to the freeze date, dependent on the participant's credited service and Plan entry. Amounts payable under circumstances of retirement, termination, and death are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered and compensation received to the date as of which benefit information is presented.

The actuarial present value of accumulated plan benefits was determined by an actuary from PricewaterhouseCoopers and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computation are as follows:

Mortality basis	The RP-2014 White Collar Mortality Table with the Mortality Improvement Scale MP-2017. (MP-2016 in prior year).
Retirement age	A moderate incidence of early retirement is assumed for ages 61 through 64, with remaining participants assumed to retire at normal retirement age of 65.
Discount rate	A discount rate of 3.20%, compounded annually (4.00% in prior year)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The latest actuarial valuation was performed as of December 31, 2016.

(5) Information Certified to by the Trustee (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was compiled from information certified as being complete and accurate by Vanguard, as trustee, as of and for the years ended December 31, 2017 and 2016, and was not subject to auditing procedures by the Plan's independent auditor.

The following presents the Plan's assets certified by the Trustee as of December 31, 2017 and 2016:

	<u>2017</u>	<u>2016</u>
Cash	\$ 2,407,903	1,685,096
Mutual funds:		
Vanguard Long-Term Bond Index Fund	388,299,557	356,944,366
Vanguard Long-Term Investment Grade Fund	149,461,228	139,556,875
Vanguard Institutional Total Stock Market Index Fund	59,147,774	58,131,998
Total mutual funds	<u>596,908,559</u>	<u>554,633,239</u>
Total investments and cash	<u>\$ 599,316,462</u>	<u>556,318,335</u>

For the years ended December 31, 2017 and 2016, the Plan's investment income was as follows:

	<u>2017</u>	<u>2016</u>
Interest and dividend income	\$ 23,994,842	24,901,567
Net appreciation in fair value of investments, including investments bought, sold, and held during the year:		
Mutual funds	42,169,293	14,984,998
Total investment income	<u>\$ 66,164,135</u>	<u>39,886,565</u>

(6) Risks and Uncertainties

The Plan invests in a variety of investment securities, consisting primarily of mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonable to expect that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statements of net assets available for plan benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across the Plan's three broad based mutual funds. As of December 31, 2017, the Vanguard Long-Term Bond Index Fund and the Vanguard Long-Term Investment Grade Fund are comprised of more than 2,000 positions and the Vanguard Institutional Total Stock Market Index Fund is comprised of more than 3,000 positions.

PENSION PLAN

Notes to Financial Statements

For the Years Ended December 31, 2017 and 2016

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(7) Plan Termination

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. In the event such discontinuance results in the termination of the Plan, the Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA and its related regulations, as described below:

- (i) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire in that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- (ii) Other vested benefits, if any, insured by and within the limit guaranteed by Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency.
- (iii) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (iv) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees, which is adjusted periodically. For plan terminations occurring during 2018, the ceiling is \$5,420 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

(8) Tax Status

The Plan received a determination letter dated December 12, 2016 from the IRS that stated the Plan and related trust, as then designed, were in compliance with applicable requirements of the Internal Revenue Code (IRC), and therefore, is exempt from taxes.

The Company is deemed to be part of a controlled group as defined by Section 414 of the IRC. In order for the Plan to continue to qualify under Section 401 of the IRC, the Plan must meet certain compliance requirements. As of and for the years ended December 31, 2017 and 2016, the Plan is in compliance with such requirements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or derecognize an asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or de-recognition of an asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Related Party Transactions (Parties-in-Interest)

Certain Plan investments including cash, cash equivalents, and shares of mutual funds were managed by the trustee during 2017 and 2016. Transactions of these investments qualify as party-in-interest transactions as defined by ERISA.

Spousal Information

80% of the active participants are assumed to be married, with the female spouse 3 years younger than the male spouse.

Economic Assumptions

Funding Interest Rate

Valuation interest rates are based on the 25-Year average of the three segment rates, with 90%-110% corridor as specified under HATFA, applicable for January, 2017 (4.16%, 5.72%, 6.48%). This results in an effective interest rate of 5.91%.

Lump Sums

Lump sums on benefits accrued through December 31, 2001 for participants hired before January 15, 1997 are valued at the valuation interest rate. It is assumed that 50% of the eligible population will elect the lump sum option and 50% will elect the annuity option on these benefits.

STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

Actuarial Cost Method

For Funding Valuation

The actuarial cost method is the Unit Credit Actuarial Cost Method. Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of plan assets. The normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year.

Asset Valuation Method

For Funding Valuation

The actuarial value of assets is equal to the market value of assets, including discounted contributions receivable.
