1 - DESCRIPTION OF PLAN

General

The Pegasus Logistics Group, Inc. 401(k) Plan (the "Plan") is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was established on January 1, 2001, and covers substantially all employees of Pegasus Logistics Group, Inc. (the "Company" or "Plan Sponsor"). Securian Financial Group ("SFG") and Minnesota Life Insurance Company, a subsidiary of SFG, provides record keeping services and serves as the Plan's custodian (the "Custodian"), respectively. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility and participant accounts

Employees become eligible for participation at the age of eighteen and after completing three months of service, as defined by the Plan document. Subject to certain limitations on annual additions, each participant's account is credited with employee elective deferrals, Company matching contributions, an allocation of Plan earnings, and charged with administrative expenses. The allocations are based on participant earnings or account balances, as defined. Participants may modify investment elections, transfer existing account balances, and obtain information regarding the investments on a daily basis.

Contributions

The Plan is funded through employee elective deferrals and Company contributions. A participant may elect to contribute up to 100% of his or her pretax compensation, subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC") ($18,000 for the year ended 2017). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($6,000 for the year ended 2017). Rollover contributions representing distributions from other qualified defined benefit or contribution plans are permitted by the Plan.

The Plan allows for employer discretionary matching contributions in amounts to be determined by the Company. The Company elected to contribute matching contributions in the amount of 50% of the participant's elective deferrals up to 4% of a participant's eligible compensation. Employer matching contributions made by the Company totaled $203,653 during the year ended December 31, 2017.

Investment Options

The Plan provides for contributions to be invested by the participants among a variety of investments in accordance with participant investment elections and the provisions of the trust agreement. Participants should refer to the Plan website for additional fund information.

Distributions to participants

Upon normal retirement age, death, disability, or termination, a participant or his or her beneficiary may elect to receive a lump sum amount equal to the value of the participant's vested account balance or to roll over a portion or the entire vested balance to another qualified plan. Participants age 59 ½ or enduring hardships specifically defined by the Plan may also request in-service withdrawals of their funds.

1 - DESCRIPTION OF PLAN, CONTINUED

Vesting

Participants are immediately vested in elective deferrals, rollover contributions, qualified non-elective contributions, and the actual earnings received thereon. Vesting in the company's matching contributions plus actual earnings thereon are vested at a rate of 20% each year after the first year of service and are 100% vested after five years of service.

Effective January 1, 2017, vesting in the company's matching contributions plus actual earnings thereon are vested at a rate of 33% each year after the first year of service and are 100% vested after 3 years of service.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to pay Plan expenses or reduce future employer contributions. These amounts are reported in investments as a component of net assets available for benefits. At December 31, 2017 and 2016, forfeited non-vested accounts available for future use totaled $8,381 and $15,622, respectively. During 2017, forfeitures in the amount of $3,004 and $17,454 were used to pay Plan expenses and reduce employer contributions, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance minus the highest note receivable balance outstanding during the previous twelve month period. A one-time origination fee is charged at the inception of the note receivable. Note terms range from 1-5 years, unless for the purchase of a primary residence in which the term will be defined by the Plan Administrator upon origination of the loan for a reasonable term. The notes receivable from participants are secured by the vested balance in the participant's account and bear interest commensurate with the prevailing interest rate charged on similar loans under like circumstances by persons in the business of lending money. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. Notes receivable from participants as of December 31, 2017, have interest rates between 3.94% and 4.27% and maturities from May 2018 to February 2047. Notes receivable from participants as of December 31, 2016, have interest rates between 3.97% and 4.25% and maturities from January 2017 to June 2021.

Administrative Expenses

Certain costs and expenses of the Plan and its administration, including all fees and expenses of the Custodian, are paid by the Plan Sponsor. Distribution and loan fees are charged directly to the requesting participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions and to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their accounts, which will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting with accounting principles generally accepted in the United States ("U.S. GAAP").

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value except for fully benefit-responsive investment contracts ("FBRIC"), which are valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see "Note 3 – Fair Value Measurements"). Contract value is the relevant measure attributable to FBRICs because contract value is the amount participants would receive if they were to initiate permitted transactions under the provision of the Plan (see "Note 5 – Guaranteed Return Account"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income earned on participant accounts is allocated on a daily basis using the previous day's ending account balance. Net appreciation (depreciation) in fair value of investments includes the Plan's gain and losses on the investments bought and sold, as well as held during the year.

Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon terms of the plan document or loan policy of the Plan.

3 – FAIR VALUE MEASUREMENTS

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-7, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as the practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share as the practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-7 is effective for fiscal years beginning after December 15, 2015 for public entities and December 15, 2016 for all other entities with early adoption permitted. Effective January 1, 2017, the Plan adopted ASU No. 2015-7 with no material impact to the Plan.

Investment Valuation and Leveling

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3 – FAIR VALUE MEASUREMENTS, CONTINUED

In establishing a fair value hierarchy for the Plan's investments in accordance with ASC 820, the following value methodologies were used for each type of investment:

Pooled separate accounts: Valued at the NAV of shares held by the Plan at year end, as determined by Minnesota Life Insurance Company ("MLIC"). The NAV, as provided by MLIC, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; even so, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 5,481,449	$ -	$ 5,481,449
Total investments at fair value	$ -	$ 5,481,449	$ -	$ 5,481,449

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,679,774	$ -	$ 3,679,774
Total investments at fair value	$ -	$ 3,679,774	$ -	$ 3,679,774

4 – INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by Minnesota Life Insurance Company, the Custodian and party-in-interest as defined by ERISA, as of December 31, 2017 and 2016, and for the year ended December 31, 2017, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2017	2016
Investments, at fair value:		
Pooled separate accounts, at fair value	$ 5,481,449	$ 3,679,774
Total investments, at fair value	$ 5,481,449	$ 3,679,774
Guaranteed investment contracts, at contract value	$ 24,506	$ 34,648
Total investments	$ 5,505,955	$ 3,714,422
Notes receivable from participants	$ 278,748	$ 188,863
Interest on notes receivable from participants	$ 9,559	
Net appreciation in fair value of investments	$ 841,124	

5 – GUARANTEED RETURN ACCOUNT

The Minnesota Life Guaranteed Return Account ("GRA") is a fully benefit-responsive investment contract issued by MLIC. Funds in the GRA represent investments in the general assets of Minnesota Life, which consist predominately of fixed income investments (bonds, mortgages, private placements) and are high quality. Payment of principal and interest is guaranteed by Minnesota Life, subject to a market value adjustment if the contract is terminated by the Plan. The GRA is credited with contributions and interest earnings and is charged for participant withdrawals and administrative expenses. The interest crediting rate for the GRA is set by Minnesota Life based on historical contributions and withdrawals, current market conditions, the GRA investment portfolio turnover and estimated contributions and withdrawals for the upcoming quarter. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The rate is adjusted quarterly but cannot be less than an annualized rate of 1.50%. Participants may ordinarily direct the withdrawal or transfer all of or a portion of their investment at contract value. Certain unobservable inputs are assessed through review of contract terms (ex: duration or payout date) while others are substantiated utilizing available market data (ex: swap curve rate).

5 – GUARANTEED RETURN ACCOUNT, CONTINUED

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan terminations or mergers
- Changes to the Plan's prohibition or competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor event (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers or that also limited the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contact
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer
- The Plan is terminated
- The Plan is no longer deemed to be a "qualified plan" under Section 401 of the Internal Revenue Code or other section of the Code allowing similar tax treatment.

6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the DOL Regulations as any fiduciary (including, but not limited to, any administrator, officer, trustee or custodian), counsel, an employee of such employee benefit plan, an employer, and certain others. Some of the Plan's investments are shares of pooled separate accounts and a guaranteed return account managed by the Custodian. Transactions in such investments qualify as exempt party-in-interest transactions.

7 – TAX STATUS OF THE PLAN

The Plan is based on a volume submitter profit sharing plan developed by MLIC, which received a favorable opinion letter dated March 31, 2014. The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2014.

8 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

9 – DELINQUENT CONTRIBUTIONS

During the years ended 2015, 2016 and 2017, employee withholdings totaling $86,177, $273,772 and $115,024, respectively, were inadvertently not remitted to the Plan on a timely basis due to unintentional delays. The Company is in the process of remitting lost earnings and interest calculated following the DOL guidelines for late deposits identified during 2018.

10 – RECONCILIATION TO THE 2017 FORM 5500, SCHEDULE H

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2017 and 2016:
