A. DESCRIPTION OF PLAN

The following description of the Tavistock 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreements for a complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all employees of Tavistock Corporation (the Company). The original Plan was established effective August 24, 1996 by the Company for the benefit of its employees and the employees of any affiliated employer to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan was amended and restated January 19, 2016. Full time employees are eligible to become a participant in the Plan on the date when they have completed one month of service and attained the age of 21. Participants are eligible for the Company's discretionary matching contributions, and seasonal employees, interns, on-call employees, and temporary employees are eligible to participate in the Plan on the date when they have completed one year of service with 1,000 service hours. Plan entry dates are January 1st and July 1st. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Participants have the option to make before-tax contributions and qualified Roth contributions to the Plan of up to 100% of each participant's compensation, as defined by the Plan and subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at three percent of eligible compensation and their contributions invested in a target date fund according to their age until changed by the participant. Participants may change their elective deferral percentages and may terminate their elective deferrals at any time. The Company may elect to make discretionary matching and discretionary nonelective contributions each year. For the Plan year ending December 31, 2017, the Company did not make any discretionary matching or discretionary nonelective contributions.

3. Participants' Accounts

Each participant's account is credited with the participant's contribution and the Company's discretionary matching and discretionary nonelective contributions, as well as allocations of the Plan's earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF PLAN (Continued)

4. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants will vest in Company discretionary contributions based on the participant's years of service with the Company. A year of service is defined as 1,000 hours of service during a plan year. Company discretionary contributions are vested over a six year period pursuant to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

5. Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's vested account. The interest rate will be based on the rates available for similar notes from commercial lending institutions. Principal and interest is paid ratably through payroll deductions, at least quarterly.

6. Payment of Benefits

On termination of service, death, disability, or retirement, a participant may elect to receive the value of the participant's vested interest in his or her account as a lump sum payment.

7. Forfeited Accounts

At December 31, 2017 and 2016, forfeited non-vested accounts totaled $2,504 and $9,350, respectively. These amounts will be used to pay future Plan expenses. Any forfeitures left after paying Plan expenses will be used to reduce future employer contributions. During 2017, Plan expenses were reduced by $2,500 from forfeited nonvested accounts.

B. SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Certain adjustments have been made to the financial statements in order for them to conform to the accrual basis of accounting.

B. SUMMARY OF ACCOUNTING POLICIES (Continued)

2. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and the trustee. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as excess contributions payable, with a corresponding reduction to the contributions. The Plan distributed the 2016 excess contributions of $60,249 to the applicable participants prior to March 15, 2017. There were no excess contributions for the year ended December 31, 2017.

6. Payments of Benefits

Benefits are recorded when paid.

7. Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees on the statement of changes in net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments on the statement of changes in net assets available for benefits.

B. SUMMARY OF ACCOUNTING POLICIES (Continued)

8. Application of New Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-17), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value (NAV) per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, and early adoption is permitted. The Plan elected to early adopt the guidance issued in ASU 2015-07 for the year ended December 31, 2016. The Plan adopted the guidance retrospectively, which removes investments measured using the NAV per share practical expedient from the fair value hierarchy in all periods presented. The adoption of this accounting guidance did not have a material impact on the Plan's financial statements

C. TRUSTEE AND ADMINISTRATIVE SERVICES

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Fidelity Management Trust Company (the Trustee) provides services which included executing participants' investment transactions and the payment of benefits. The Trustee provided the 2017 and 2016 fund summaries by investment type to the administrators, which was used to prepare the Plan's financial statements.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Trustee as of and for the years ended December 31:

	2017	2016
Investments, at fair value	$ 14,413,694	$ 11,232,168
Note receivable from participants	$ 174,135	$ 172,082
Net appreciation in fair value of investments	$ 1,696,299	
Dividends and interest income	$ 573,258	
Interest income on notes receivable from participants	$ 6,994	

The Company pays the Plan's accounting fees and certain administrative fees. The Company incurred $9,600 for accounting and administrative fees during the year ended December 31, 2017. These fees are not reflected in the accompanying financial statements.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement and disclosures* (ASC 820) defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not assumptions specific to the entity.

ASC 820 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon the market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs other than the quoted market prices in active markets that are observable either directly or indirectly.

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methods or assumptions to estimate the fair value of certain financial statement items could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such items existed, or had such items been liquidated, and those differences could be material to the financial statements.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Collective trust funds: Valued at the NAV of units held. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Assets Measured at Fair Value

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$14,278,347	$ -	$ -	$14,278,347
Total assets in the fair value hierarchy	14,278,347	-	-	14,278,347
Investments measured at NAV as a practical expedient [(a)]	-	-	-	135,347
Total investments, at fair value	$14,278,347	$ -	$ -	$14,413,694

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$11,059,393	$ -	$ -	$11,059,393
Total assets in the fair value hierarchy	11,059,393	-	-	11,059,393
Investments measured at NAV as a practical expedient [(a)]	-	-	-	172,775
Total investments, at fair value	$11,059,393	$ -	$ -	$11,232,168

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or as equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Due to their short-term nature, the carrying value of short-term receivables and payables approximate their fair value as of December 31, 2017 and 2016.

Transfers Between Levels

For the year ended December 31, 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Investments Measured Using the Net Asset Value per Share Practical Expedient
The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible	Redemption Notice Period
Stable value collective trust fund	$ 135,347	n/a	Daily	12 months

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible	Redemption Notice Period
Stable value collective trust fund	$ 172,775	n/a	Daily	12 months

E. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

G. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and therefore these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations. These party in interest transactions are exempt from the prohibited transactions rules of ERISA.

H. INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Fidelity Management & Research Company (FMRC). FMRC received an opinion letter from the IRS, dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits for any tax periods in progress, however, there are currently no audits for any tax periods in progress.
