Independent Auditor's Report

To the Retirement Committee, Plan Administrator and Participants
Integrated DNA Technologies, Inc. Savings Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the trustees/custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees/custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees/custodians as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the trustees/custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i – Schedule of assets (held at end of year) as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees/custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently restated January 1, 2017, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator, and is responsible for oversight of the Plan.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential), are the trustees, custodians and recordkeepers of the Plan.

Eligibility: Employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for automatic enrollment at a deferral rate of 3 percent of compensation, as defined, beginning on the first day of the month following or coinciding with the completion of the three-month service period. Effective January 1, 2017, the Plan's automatic enrollment began increasing by 1 percent per year up to a maximum of 10 percent of compensation.

The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

- a. **Participant-directed contributions:** Each year, participants may contribute to the Plan pre-tax eligible compensation, as defined in the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute to the Plan Roth deferrals. Roth deferrals are subject to federal income taxes in the year of deferral.

The Plan allows "catch-up contributions" for participants who are age 50 and older.
- b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 7 percent of eligible compensation, as defined by the Plan, for those individuals active in the Plan and also meeting the three-month eligibility requirement in 2017.
- c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2017.
- d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from other qualified deferred compensation plans.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce any matching contributions or pay administrative expenses of the Plan. At December 31, 2017 and 2016, forfeited nonvested amounts approximated \$15,100 and \$5,800, respectively. In 2017, a total of approximately \$73,300 of nonvested accounts were forfeited. In 2017, approximately \$64,000 of forfeited nonvested funds were used to reduce employer discretionary matching contributions.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs his/her account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have no more than one loan outstanding at any given time. Loan terms range from one to five years or up to ten years if used for the purchase of a primary residence. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2017, ranged from 3.25 percent to 4.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 59.5 or by determination that a financial hardship, as defined, has been incurred.

At December 31, 2017, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments: The Plan's investments are stated at fair value (except for direct investments in fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Retirement Committee determines the Plan's valuation policies using information provided by the investment trustees/custodians and insurance company. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through October 3, 2018, the date the financial statements were available to be issued.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2017 and 2016.

Shares of pooled separate accounts: Valued at the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The NAV is used as a practical expedient to estimate fair value. The NAV for the shares of pooled separate accounts is based on the fair value of the underlying investments held by the fund less its liabilities. The Plan's interest in the shares of pooled separate accounts is valued based on information provided by the investment advisor. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Units of common/collective trusts: Valued at the NAV of units of the common/collective trusts at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,084,454	\$ -	\$ -	\$39,084,454
Total assets in fair value hierarchy	\$ 39,084,454	\$ -	\$ -	39,084,454
Investments measured at NAV (a)				8,719,411
Investments at fair value				\$ 47,803,865

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 35,283,982	\$ -	\$ -	\$35,283,982
Total assets in fair value hierarchy	\$ 35,283,982	\$ -	\$ -	35,283,982
Investments measured at NAV (a)				24,939
Investments at fair value				\$ 35,308,921

- (a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2017 and 2016:

Investment	Fair Value		Unfunded Commitment		Redemption Frequency	Redemption Notice Period
	2017	2016	2017	2016		
Shares of pooled separate accounts	\$ 51,878	\$ 24,939	\$ -	\$ -	Monthly	None
Units of common/collective trusts	8,667,533	-	-	-	Immediate	None
	\$ 8,719,411	\$ 24,939	\$ -	\$ -		

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date at which the money will be moved from the old account fund to the new account fund.

Change in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The Plan Trustees evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset and income information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified and provided by the trustees/custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees/custodians that information provided to the Plan Administrator by the trustees/custodians related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

	2017	2016
Shares of pooled separate accounts, at fair value	\$ 51,878	\$ 24,939
Units of common/collective trusts, at fair value	8,667,533	-
Mutual funds, at fair value	39,084,454	35,283,982
Guaranteed income fund, at contract value	4,291,408	4,128,195
Notes receivable from participants	443,431	434,648
Net appreciation in fair value of mutual funds	6,636,976	
Net appreciation in fair value on units of common/collective trusts	692,721	
Net appreciation in fair value on shares of pooled separate accounts	4,696	
Dividends from mutual funds	550,335	
Interest on guaranteed income fund	76,971	
Other income	75,953	
Interest on notes receivable from participants	14,737	

Note 5. Investment Contract with Insurance Company

The Plan has entered into a direct investment in a fully benefit-responsive insurance contract with Prudential Retirement Insurance and Annuity Company (PRIAC). The fully benefit-responsive guaranteed investment insurance contract provides preservation of principal, maintains a stable interest rate, and provides daily liquidity at contract value for participant withdrawals and transfer in accordance with the provisions of the Plan. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the guaranteed insurance contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, layoffs, plan termination, business closings, re-organization, liquidations and the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code (IRC). The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed insurance contract does not permit Prudential to terminate the agreement prior to the scheduled maturity date.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 7. Income Tax Status

By an opinion letter dated April 29, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

The Plan follows the provisions of the Financial Accounting Standards Board guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 8. Related-Party and Party-in-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2017, were \$87,047. In addition, certain administrative functions are performed by employees of the Sponsor for which no compensation is received from the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2017 and 2016:

	2017	2016
Net assets available for benefits per the financial statements	\$ 52,803,301	\$ 39,923,151

Notes receivable from participants	(443,431)	(434,648)
Net assets available for benefits per Form 5500	<u>\$ 52,538,704</u>	<u>\$ 39,923,151</u>

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2017:

	2017
Net increase in net assets available for benefits per the financial statements	\$ 12,880,150
Participant contributions	(148,410)
Employer matching contributions	(116,187)
Earnings on investments - interest on participant loans	(14,737)
Interest on participant notes receivable	14,737
Net increase in net assets available for benefits per Form 5500	<u>\$ 12,615,553</u>

Note 11. Subsequent Events

Subsequent to year-end, effective January 1, 2018, the Plan was amended to (1) exclude further items from the definition of eligible compensation, (2) decrease the enrollment period once eligible to immediate regardless of length of service or age; and (3) reduce the vesting period of the Sponsor's contribution accounts from over a period of six years to over a period of two years.

Independent Auditor's Report

To the Retirement Committee, Plan Administrator and Participants
Integrated DNA Technologies, Inc. Savings Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the trustees/custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees/custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees/custodians as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the trustees/custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i – Schedule of assets (held at end of year) as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees/custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently restated January 1, 2017, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator, and is responsible for oversight of the Plan.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential), are the trustees, custodians and recordkeepers of the Plan.

Eligibility: Employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for automatic enrollment at a deferral rate of 3 percent of compensation, as defined, beginning on the first day of the month following or coinciding with the completion of the three-month service period. Effective January 1, 2017, the Plan's automatic enrollment began increasing by 1 percent per year up to a maximum of 10 percent of compensation.

The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

- a. **Participant-directed contributions:** Each year, participants may contribute to the Plan pre-tax eligible compensation, as defined in the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute to the Plan Roth deferrals. Roth deferrals are subject to federal income taxes in the year of deferral.

The Plan allows "catch-up contributions" for participants who are age 50 and older.
- b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 7 percent of eligible compensation, as defined by the Plan, for those individuals active in the Plan and also meeting the three-month eligibility requirement in 2017.
- c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2017.
- d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from other qualified deferred compensation plans.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce any matching contributions or pay administrative expenses of the Plan. At December 31, 2017 and 2016, forfeited nonvested amounts approximated \$15,100 and \$5,800, respectively. In 2017, a total of approximately \$73,300 of nonvested accounts were forfeited. In 2017, approximately \$64,000 of forfeited nonvested funds were used to reduce employer discretionary matching contributions.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs his/her account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have no more than one loan outstanding at any given time. Loan terms range from one to five years or up to ten years if used for the purchase of a primary residence. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2017, ranged from 3.25 percent to 4.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 59.5 or by determination that a financial hardship, as defined, has been incurred.

At December 31, 2017, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments: The Plan's investments are stated at fair value (except for direct investments in fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Retirement Committee determines the Plan's valuation policies using information provided by the investment trustees/custodians and insurance company. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through October 3, 2018, the date the financial statements were available to be issued.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2017 and 2016.

Shares of pooled separate accounts: Valued at the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The NAV is used as a practical expedient to estimate fair value. The NAV for the shares of pooled separate accounts is based on the fair value of the underlying investments held by the fund less its liabilities. The Plan's interest in the shares of pooled separate accounts is valued based on information provided by the investment advisor. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Units of common/collective trusts: Valued at the NAV of units of the common/collective trusts at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,084,454	\$ -	\$ -	\$39,084,454
Total assets in fair value hierarchy	\$ 39,084,454	\$ -	\$ -	39,084,454
Investments measured at NAV (a)				8,719,411
Investments at fair value				\$ 47,803,865

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 35,283,982	\$ -	\$ -	\$35,283,982
Total assets in fair value hierarchy	\$ 35,283,982	\$ -	\$ -	35,283,982
Investments measured at NAV (a)				24,939
Investments at fair value				\$ 35,308,921

- (a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2017 and 2016:

Investment	Fair Value		Unfunded Commitment		Redemption Frequency	Redemption Notice Period
	2017	2016	2017	2016		
Shares of pooled separate accounts	\$ 51,878	\$ 24,939	\$ -	\$ -	Monthly	None
Units of common/collective trusts	8,667,533	-	-	-	Immediate	None
	\$ 8,719,411	\$ 24,939	\$ -	\$ -		

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date at which the money will be moved from the old account fund to the new account fund.

Change in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The Plan Trustees evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset and income information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified and provided by the trustees/custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees/custodians that information provided to the Plan Administrator by the trustees/custodians related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

	2017	2016
Shares of pooled separate accounts, at fair value	\$ 51,878	\$ 24,939
Units of common/collective trusts, at fair value	8,667,533	-
Mutual funds, at fair value	39,084,454	35,283,982
Guaranteed income fund, at contract value	4,291,408	4,128,195
Notes receivable from participants	443,431	434,648
Net appreciation in fair value of mutual funds	6,636,976	
Net appreciation in fair value on units of common/collective trusts	692,721	
Net appreciation in fair value on shares of pooled separate accounts	4,696	
Dividends from mutual funds	550,335	
Interest on guaranteed income fund	76,971	
Other income	75,953	
Interest on notes receivable from participants	14,737	

Note 5. Investment Contract with Insurance Company

The Plan has entered into a direct investment in a fully benefit-responsive insurance contract with Prudential Retirement Insurance and Annuity Company (PRIAC). The fully benefit-responsive guaranteed investment insurance contract provides preservation of principal, maintains a stable interest rate, and provides daily liquidity at contract value for participant withdrawals and transfer in accordance with the provisions of the Plan. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the guaranteed insurance contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, layoffs, plan termination, business closings, re-organization, liquidations and the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code (IRC). The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed insurance contract does not permit Prudential to terminate the agreement prior to the scheduled maturity date.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 7. Income Tax Status

By an opinion letter dated April 29, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

The Plan follows the provisions of the Financial Accounting Standards Board guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 8. Related-Party and Party-in-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2017, were \$87,047. In addition, certain administrative functions are performed by employees of the Sponsor for which no compensation is received from the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants	(443,431)	(434,648)
Net assets available for benefits per Form 5500	<u>\$ 52,538,704</u>	<u>\$ 39,923,151</u>

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2017:

	2017
Net increase in net assets available for benefits per the financial statements	\$ 12,880,150
Participant contributions	(148,410)
Employer matching contributions	(116,187)
Earnings on investments - interest on participant loans	(14,737)
Interest on participant notes receivable	14,737
Net increase in net assets available for benefits per Form 5500	<u>\$ 12,615,553</u>

Note 11. Subsequent Events

Subsequent to year-end, effective January 1, 2018, the Plan was amended to (1) exclude further items from the definition of eligible compensation, (2) decrease the enrollment period once eligible to immediate regardless of length of service or age; and (3) reduce the vesting period of the Sponsor's contribution accounts from over a period of six years to over a period of two years.

Independent Auditor's Report

To the Retirement Committee, Plan Administrator and Participants
Integrated DNA Technologies, Inc. Savings Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the trustees/custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees/custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees/custodians as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the trustees/custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i – Schedule of assets (held at end of year) as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees/custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently restated January 1, 2017, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator, and is responsible for oversight of the Plan.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential), are the trustees, custodians and recordkeepers of the Plan.

Eligibility: Employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for automatic enrollment at a deferral rate of 3 percent of compensation, as defined, beginning on the first day of the month following or coinciding with the completion of the three-month service period. Effective January 1, 2017, the Plan's automatic enrollment began increasing by 1 percent per year up to a maximum of 10 percent of compensation.

The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

- a. **Participant-directed contributions:** Each year, participants may contribute to the Plan pre-tax eligible compensation, as defined in the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute to the Plan Roth deferrals. Roth deferrals are subject to federal income taxes in the year of deferral.

The Plan allows "catch-up contributions" for participants who are age 50 and older.
- b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 7 percent of eligible compensation, as defined by the Plan, for those individuals active in the Plan and also meeting the three-month eligibility requirement in 2017.
- c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2017.
- d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from other qualified deferred compensation plans.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce any matching contributions or pay administrative expenses of the Plan. At December 31, 2017 and 2016, forfeited nonvested amounts approximated \$15,100 and \$5,800, respectively. In 2017, a total of approximately \$73,300 of nonvested accounts were forfeited. In 2017, approximately \$64,000 of forfeited nonvested funds were used to reduce employer discretionary matching contributions.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs his/her account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have no more than one loan outstanding at any given time. Loan terms range from one to five years or up to ten years if used for the purchase of a primary residence. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2017, ranged from 3.25 percent to 4.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 59.5 or by determination that a financial hardship, as defined, has been incurred.

At December 31, 2017, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments: The Plan's investments are stated at fair value (except for direct investments in fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Retirement Committee determines the Plan's valuation policies using information provided by the investment trustees/custodians and insurance company. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through October 3, 2018, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2017 and 2016.

Shares of pooled separate accounts: Valued at the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The NAV is used as a practical expedient to estimate fair value. The NAV for the shares of pooled separate accounts is based on the fair value of the underlying investments held by the fund less its liabilities. The Plan's interest in the shares of pooled separate accounts is valued based on information provided by the investment advisor. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Units of common/collective trusts: Valued at the NAV of units of the common/collective trusts at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,084,454	\$ -	\$ -	\$39,084,454
Total assets in fair value hierarchy	\$ 39,084,454	\$ -	\$ -	39,084,454
Investments measured at NAV (a)				8,719,411
Investments at fair value				\$ 47,803,865

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 35,283,982	\$ -	\$ -	\$35,283,982
Total assets in fair value hierarchy	\$ 35,283,982	\$ -	\$ -	35,283,982
Investments measured at NAV (a)				24,939
Investments at fair value				\$ 35,308,921

- (a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2017 and 2016:

Investment	Fair Value		Unfunded Commitment		Redemption Frequency	Redemption Notice Period
	2017	2016	2017	2016		
Shares of pooled separate accounts	\$ 51,878	\$ 24,939	\$ -	\$ -	Monthly	None
Units of common/collective trusts	8,667,533	-	-	-	Immediate	None
	\$ 8,719,411	\$ 24,939	\$ -	\$ -		

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date at which the money will be moved from the old account fund to the new account fund.

Change in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The Plan Trustees evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset and income information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified and provided by the trustees/custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees/custodians that information provided to the Plan Administrator by the trustees/custodians related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

	2017	2016
Shares of pooled separate accounts, at fair value	\$ 51,878	\$ 24,939
Units of common/collective trusts, at fair value	8,667,533	-
Mutual funds, at fair value	39,084,454	35,283,982
Guaranteed income fund, at contract value	4,291,408	4,128,195
Notes receivable from participants	443,431	434,648
Net appreciation in fair value of mutual funds	6,636,976	
Net appreciation in fair value on units of common/collective trusts	692,721	
Net appreciation in fair value on shares of pooled separate accounts	4,696	
Dividends from mutual funds	550,335	
Interest on guaranteed income fund	76,971	
Other income	75,953	
Interest on notes receivable from participants	14,737	

Note 5. Investment Contract with Insurance Company

The Plan has entered into a direct investment in a fully benefit-responsive insurance contract with Prudential Retirement Insurance and Annuity Company (PRIAC). The fully benefit-responsive guaranteed investment insurance contract provides preservation of principal, maintains a stable interest rate, and provides daily liquidity at contract value for participant withdrawals and transfer in accordance with the provisions of the Plan. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the guaranteed insurance contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

Integrated DNA Technologies, Inc. Savings Plan and Trust

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, layoffs, plan termination, business closings, re-organization, liquidations and the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code (IRC). The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed insurance contract does not permit Prudential to terminate the agreement prior to the scheduled maturity date.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 7. Income Tax Status

By an opinion letter dated April 29, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

The Plan follows the provisions of the Financial Accounting Standards Board guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 8. Related-Party and Party-in-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2017, were \$87,047. In addition, certain administrative functions are performed by employees of the Sponsor for which no compensation is received from the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants	(443,431)	(434,648)
Net assets available for benefits per Form 5500	<u>\$ 52,538,704</u>	<u>\$ 39,923,151</u>

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2017:

	2017
Net increase in net assets available for benefits per the financial statements	\$ 12,880,150
Participant contributions	(148,410)
Employer matching contributions	(116,187)
Earnings on investments - interest on participant loans	(14,737)
Interest on participant notes receivable	14,737
Net increase in net assets available for benefits per Form 5500	<u>\$ 12,615,553</u>

Note 11. Subsequent Events

Subsequent to year-end, effective January 1, 2018, the Plan was amended to (1) exclude further items from the definition of eligible compensation, (2) decrease the enrollment period once eligible to immediate regardless of length of service or age; and (3) reduce the vesting period of the Sponsor's contribution accounts from over a period of six years to over a period of two years.
