Independent Auditor's Report

The Administrative Committee
Nationwide Savings Plan:

We have audited the accompanying financial statements of Nationwide Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017 and supplemental Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2017 presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NATIONWIDE SAVINGS PLAN

Notes to December 31, 2017 and 2016 Financial Statements

(1) Description of the Plan

The following description of the Nationwide Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

General

The Plan is a defined contribution plan covering all eligible employees of Nationwide Mutual Insurance Company ("the Plan Sponsor") and certain subsidiaries and affiliates ("Employers"). The Plan is a multiple employer plan covering eligible employees of the Plan Sponsor and two participating employers, Nationwide Mutual Fire Insurance Company and Farmland Mutual Insurance Company. The Plan was established to provide a savings plan for those employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective December 31, 2017, the Jefferson National Financial Corp. Savings Plan merged into the Plan. All Jefferson National associates actively employed as of December 19, 2017 will be 100% vested in their employer matching contribution account, which shall include amounts transferred from their employer matching contributions account under the Jefferson National Financial Corp. Savings Plan, as in effect on December 31, 2017.

Fidelity Investments is the third-party trustee, custodian and recordkeeper of the Plan.

Under the terms of the Plan, employees are eligible to participate on their date of hire. Associates who have not enrolled after 60 days from their date of hire are automatically enrolled in the target maturity model closest to their 65th birthday, until they make an investment election or decline participation.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Employers' contributions.

Contributions and Forfeitures

A participant may authorize payroll deductions from 1% to 80% of base salary (subject to certain defined limitations) as contributions to be invested as directed by the participant. Participants may also roll over amounts into the Plan representing distributions from an eligible retirement plan. Participants direct their contributions into various investment options offered by the Plan. Participants may elect to change their investment authorizations with respect to current contributions and may elect to change their investment authorizations with respect to their existing account balances on any business day. Participants over 50 years of age are eligible to contribute an additional \$6,000 for 2017 and 2016 called "catch-up" contributions. Total "catch-up" contributions were \$7.7 million and \$7.2 million for the years ended December 31, 2017 and 2016, respectively. The Employers matched 50% of the first 6% of participant contributions in 2017. After-tax contributions are not eligible for Employer matching contributions.

Forfeited nonvested accounts (including earnings) are used to reduce future Employers' contributions. The following table is a rollforward schedule, as of the dates indicated:

<i>(in thousands)</i>	December 31,	
	2017	2016
Beginning balance, forfeited nonvested accounts	\$ 3,449	\$ 3,510
Forfeitures created during the Plan year	3,220	2,641
Forfeitures used to reduce Employers' contributions	(6,534)	(2,702)
Ending balance, forfeited nonvested accounts	\$ 135	\$ 3,449

Plan Amendment

Effective January 1, 2018, the employer matching contribution is 50% of the first 7% of participant contributions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account, or installment payouts, as defined in the Plan document. After 60 months of vested service, participants may apply to withdraw certain Plan accounts. Participants may withdraw their rollover contribution accounts at any time.

NATIONWIDE SAVINGS PLAN

Notes to December 31, 2017 and 2016 Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employers' matching contributions and an allocation of Plan earnings. Each participant's account is charged with an allocation of asset management fees and certain other recordkeeping expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting is based upon years of continuous service. A participant is vested immediately in their contributions and any related investment earnings. A participant vests in the Employers' matching contributions and related investment earnings ratably over years of credited service. A participant is 100% vested after 60 months of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts up to the lesser of \$50,000 (less the highest balance of all outstanding loans from the Plan during the past twelve months in excess of the outstanding balance of loans from the Plan on the date on which the loan is made) or 50% of their vested account balance (less the outstanding balance of any other loans made under the Plan). Loan terms range from 1 – 5 years for general loans or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Loans bear interest at the prime interest rate plus 1%. Principal and interest are paid ratably through payroll deductions. Loans to participants are treated as notes receivable and are carried at the unpaid principal balance and accrued interest. Notes receivable from participants in default are treated as deemed distributions. Participant loans in default were \$1.4 million and \$1.1 million as of December 31, 2017 and 2016, respectively.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S.") ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant estimates include certain investment valuations. Actual results could differ significantly from those estimates.

Contributions

Participant contributions are recognized when withheld, and Employers' contributions are recognized when due. Rollovers are recognized when approved by the Plan Sponsor.

Distributions

Benefit distributions are recognized when requested, approved for payment and distributed.

Investments

Purchases and sales of securities and the related realized gains and losses are recorded on the trade date. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date, reinvested and added to the participant accounts. Realized and unrealized gains and losses are recognized in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Third party advisors manage all of the NSP assets except for those investments that participants direct to be held in the Nationwide Guaranteed Investment Fund ("GIF"). For commingled funds, the Plan owns direct investments in the underlying assets. These underlying investments are presented as such on the statements of net assets available for benefits. Fair value of the underlying assets is determined using various valuation techniques relying predominately on observable market inputs. In cases where observable inputs are not available, the Plan will utilize non-binding broker quotes to determine fair value, and these assets are classified accordingly in the fair value hierarchy. For investments in mutual funds and commingled funds, the Plan owns investments in the fund only and not the underlying holdings of the specific funds.

The GIF is measured at contract value. Refer to Note 3 for further information.

Mutual funds and commingled funds are reported at fair value using the daily published net asset value ("NAV"). These funds had no unfunded commitments or restrictions and the Plan participants always have the ability to redeem the investment in these funds with the investee at net asset value daily.

NATIONWIDE SAVINGS PLAN

Notes to December 31, 2017 and 2016 Financial Statements

All other investments are reported at fair value and are valued based on closing market prices provided by independent pricing services, where available. For these securities, the Plan obtains the pricing services' methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy. Certain investments, including private placements and bank loans, which are included in fixed maturity securities, are valued using other independent sources. The method for valuation includes a corporate pricing matrix which is developed using publicly and privately available spreads for privately placed corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular fixed maturity security to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that security. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular security.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Plan's view of market assumptions in the absence of observable market information. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Plan uses various methods, including market, income and cost approaches.

The Plan categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Plan categorizes assets and liabilities held at fair value in the statements of net assets available for benefits as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, London Interbank Offered Rate, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimates of the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs.

The Plan reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in the observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

Administrative Expenses

Administrative expenses are recognized when incurred and primarily relate to audit fees, recordkeeping services, proxy voting service fees and residence loan title search fees.

Subsequent Events

The Plan evaluated subsequent events through September 28, 2018, the date the financial statements were issued.

(3) Investments

The Plan provides investment options for participants to direct their contributions, which are administered within the Plan trust. A summary of investment options is available to all participants through the Plan document.

Guaranteed Investment Fund

A GIF is a promise by an insurance company to repay principal plus a fixed rate of return for the duration of the contract. The Plan invests in a benefit-responsive GIF issued by Nationwide Life Insurance Company ("NLIC"), an affiliate. As of December 31, 2017, NLIC had a credit rating of A+.

NATIONWIDE SAVINGS PLAN

Notes to December 31, 2017 and 2016 Financial Statements

As the GIF issued by NLIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the GIF. Contract value, as reported to the Plan by NLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no events that would limit the ability of the Plan to transact at contract value.

The average yield for the investment contracts based on actual earnings and on interest rate credited to participants was 3.08% and 3.30% for the years ended December 31, 2017 and 2016, respectively.

The GIF meets all of the following criteria as a benefit-responsive contract:

- The GIF is affected directly between the GIF and the issuer (NLIC) and is prohibited from being assigned or sold without the consent of NLIC;
- The repayment of principal and interest is a financial obligation of NLIC;
- Participant-initiated transactions occur at contract value;
- Events that limit the GIF to transact at contract value are not probable; and
- Participants must have reasonable access to their funds.

(5) Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Plan Sponsor by a letter dated May 14, 2015 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has since been amended, the Plan Administrator and Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management determined that during 2016, two participants' 401(k) deferrals and matching employer contributions were not made timely. The amounts involved were immaterial to the Plan's financial statements. The Plan Sponsor took necessary corrective action in 2017 to: (i) make corrective contributions to the participants' accounts (with lost earnings); (ii) file Form 5330 with the IRS; and (iii) pay the applicable excise taxes to the IRS. Based on management's review of the administrative oversights and corrective actions, there does not appear to be an impact to the Plan's tax status.

NATIONWIDE SAVINGS PLAN

Notes to December 31, 2017 and 2016 Financial Statements

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(6) Related Party Transactions

In July 1996, the Plan entered into a benefit-responsive group annuity contract, the GIF, with NLIC. NLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at the contract value.

NLIC receives all contributions to the GIF and provides investment and accounting services. NLIC is compensated for such services through investment and administrative fees, which are netted against interest income in the accompanying financial statements. These fees were \$10.6 million for the year ended December 31, 2017. This includes NLIC charges of \$7.6 million related to investment performance guarantees for the year ended December 31, 2017.

The average crediting interest rate was 3.08% and 3.30% for 2017 and 2016, respectively. The crediting interest rate is based on a formula agreed upon with NLIC. Such interest rates are reviewed and reset on a quarterly basis.

(7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to the Form 5500, as of the dates indicated:
