Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Third Federal Savings Retirement Plan, which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Life Insurance Company (Member Company of the Principal Financial Group), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The Schedule of Assets Held for Investment Purposes at End of Year and the Schedule of Reportable Transactions as of and for the year ended December 31, 2017 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of Plan

The following description of the Third Federal Savings Retirement Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which was restated effective January 1, 2013, is a defined benefit pension plan covering all eligible employees of Third Federal Savings and Loan Association of Cleveland and affiliated companies (the "Company"). The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees of the Company age twenty-one and older and who were employed for one year prior to December 31, 2002, are eligible to participate in the Plan.

Contributions:

The Company is required annually to contribute an amount to the Plan which is actuarially determined. The Company's contributions to the Plan for 2017 and 2016 met the minimum funding requirements of ERISA.

Pension Benefits:

The Plan provides for normal retirement benefits for the life of the participant, beginning the first day of the month after attaining age 65, with reduced benefits for retirement before this time but after the participant has reached age 55, provided the participant has at least five years of vesting service at the time of early retirement.

Effective December 31, 2011, participants will not earn any additional pension benefit accruals under the Plan. The "frozen" pension benefit under the Plan is calculated as if the participant terminated employment on December 31, 2011, based on the participant's years of benefit service through December 31, 2011 and average annual compensation determined on that date. Participants will continue to earn vesting service for purposes of the Plan's vesting, early retirement and early commencement features and will be paid as provided by the Plan.

Death Benefit:

The Plan provides a death benefit if a participant or a retired or former participant dies after becoming entitled to vested retirement benefits under the Plan and prior to their pension commencement date. The participant's surviving spouse, if any, is eligible for a pre-retirement surviving spouse benefit as provided by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition:

The Plan's investments are stated at estimated fair value. Units of pooled separate accounts are valued by the asset custodian at the daily net asset value, which represents the cumulative market values of the pooled separate accounts' underlying investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Effective December 31, 2011, no further benefit accruals or death benefit payments will be paid, other than the pre-retirement surviving spouse benefit, for participants for any deaths occurring on or after March 22, 2012. The actuarial present value of accumulated plan benefits reflects this Plan requirement.

Benefits under the Plan are based on the employee's average annual compensation, as defined in the Plan document. The accumulated plan benefits for active employees are based on their average annual compensation on the date at which benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date. The average annual compensation is calculated as of December 31, 2011, and benefits will not increase as a result of service or compensation after that date.

Administrative Fees:

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document.

2 Summary of Significant Accounting Policies, Continued

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Risks and Uncertainties:

The Plan's investments include investments in pooled separate accounts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is reasonably possible that changes in these estimates and assumptions could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 3, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

The Internal Revenue Service has determined and informed the Plan by letter dated May 29, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

Under generally accepted accounting standards, a framework has been established for measuring fair value. That framework for provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

In 2016, the Plan adopted Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07). This standard removes, from the fair value hierarchy, investments for which fair value is measured using the net asset value per share practical expedient under ASC 820.

The Plan investments are in units of pooled separate accounts, and are valued at the net asset value ("NAV") of shares held by the Plan at year end. The investment strategies are varied and include long term growth of capital and income, market capitalization, high level of current income consistent with preservation of principal and maintenance of liquidity. They may invest in a broad range of domestic and foreign equities, real estate investments and fixed income funds with the objective of matching or exceeding the total return of certain market indices.

There have been no changes in the methodologies used at December 31, 2017 and 2016. While, the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

4 Fair Value Measurements, Continued

Investments Measured Using the Net Asset Value per Share Practical Expedient:

	December 31, 2017			
	Fair Value	**Unfunded Commitments**	**Redeption Frequency (if currently eligible)**	**Redemption Notice Period**
Pooled Separate Accounts	**$ 74,385,832**	**$ -**	**Daily**	**30 days**

Investments Measured Using the Net Asset Value per Share Practical Expedient:

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redeption Frequency (if currently eligible)	Redemption Notice Period
Pooled Separate Accounts	$ 65,131,403	$ -	Daily	30 days

If the Plan were to initiate the full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay disbursements from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5 Accumulated Plan Benefits

The actuarial present value of accumulated benefits as of January 1, 2017 was determined by consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment (by means of decrements for withdrawal due to death and termination of employment).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, other assumptions and factors might be applicable in determining the actuarial present value of accumulated Plan benefits. A schedule of vested and non-vested accumulated Plan benefits is as follows:

	January 1, 2017
Actuarial present value of accumulated plan benefits:	
Vested benefits	
Participants currently receiving payments	$ 15,042,569
Other participants	51,403,413
	$ 66,445,982

5 Accumulated Plan Benefits, Continued

Changes in accumulated plan benefits from the previous valuation date are presented below:

Actuarial present value of accumulated plan benefits at January 1, 2016	$ 59,779,516
Increase (decrease) during the period attributable to:	
Benefits accumulated and Plan experience (gains and losses)	(458)
Benefits paid	(3,097,045)
Increase for interest due to decrease in the discount period	4,078,003
Changes in assumptions	5,685,966
Net Increase	6,666,466
Actuarial present value of accumulated plan benefits at January 1, 2017	$ 66,445,982

The change in benefits accumulated and Plan experience (gains and losses) is based on the actuary's expectation of retirees and deaths in the current valuation period.

The increase attributable to change in actuarial assumptions is primarily due to the changes in the discount rate used. The annual update to mortality is included in the Plan experience.

Significant assumptions underlying the actuarial computations of accumulated plan benefits include:

Discount Rate – 5.75%

Mortality Rates – Based on the RP-2006 mortality table projected to future years with historical and assumed mortality improvement rates using the Principal Mortality Improvement Scale. RP-2006 is a baseline mortality rates table underlying the Statement of Actuaries' RP-2014 experience study. The mortality assumption has been updated to reflect historical U.S. mortality data to 2014.

Retirement age rates vary by age (average age is 65). Below are the retirement age rates assumptions:

Age	Rate
55-59	2%
60-64	10%
65	75%
66	50%
67	100%

Inactive participants are assumed to retire at age 65.

6 Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Principal Life Insurance Company (Member Company of the Principal Financial Group) ("Principal"):

	2017	2016
Investments, at fair value	**$ 74,385,832**	$ 65,131,403
Net unrealized/realized appreciation	**$ 9,633,036**	$ 3,428,305

7 Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Professional fees for the administration and audit of the Plan may be paid by the Plan or the Company.

At December 31, 2017 and 2016, all of the Plan's investments are units of pooled separate accounts managed by Principal. Principal is the Trustee as defined by the Plan, and therefore, these investments qualify as party-in-interest investments. Principal provides certain administrative services to the Plan pursuant to a service agreement between the Company and Principal. Principal receives revenue from certain investment sub-advisors in connection with services provided to the Plan. The revenue is used to offset administrative fees owed to Principal for its administrative services to the Plan. If the revenue received by Principal exceeds the required amount under the Plan’s service agreement, the excess is used to pay administrative expenses of the Plan. There were no fees paid by the Plan for the administrative services for 2017 and 2016.

Assumptions prescribed by law

Mortality

During benefit payment period
IRS Prescribed Mortality - Generational Annuitant, male and female.

Before benefit payment period
IRS Prescribed Mortality - Generational Non-annuitant, male and female.

Assumptions selected by actuary

Asset return

6.25% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. See Long Term Capital Market Assumptions 2016.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants are assumed to retire at the following rates:

Age	Probability of retirement
55 - 59	2%
60 - 64	10%
65	75%
66	50%
67	100%

All inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability

None.

This plan does not offer a subsidized disability benefit; therefore, the disability assumption is built into the withdrawal assumption.

Marriage

75% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Basic Age Table, multiplied by 0.40. We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.40 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit and basis	50% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages and 50% of the active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid immediately. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement ages. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. The single sum benefit is based on the applicable mortality projected to decrement and the plan's funding target interest rates, as prescribed.
Retirement cost of living adjustment	1.00% per year The plan provides that each retired participant who has attained age 66 and is receiving monthly benefits shall be eligible for annual post-retirement increases equal to 1.00% of the participant's annual retirement benefit multiplied by the number of years from the calendar year in which the participant attained age 65 to the current year.

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions; therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

any retiree benefit index or floor

amounts for HCEs who were previously restricted

an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Segment 1	Segment 2	Segment 3
years 0-5	years 5-20	years 20+
2.04%	4.03%	4.82%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are generally treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post-retirement death benefits for non-retired participants except as noted in the Plan Provisions. For purposes of this valuation, all liability is shown as fully vested.

Assumptions and methods elected by actuary - plan accounting (ASC 960)
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on RP-2006 total dataset mortality table projected to future years with historical and assumed mortality improvement (MI) rates using the Principal Mortality Improvement Scale (PFG2012-10). RP-2006 is a baseline mortality rates table underlying the SOA RP-2014 experience study as of central year of the experience data for 2004-2008 years. The Principal Mortality Improvement scale is based on the SOA MI model RPEC_2014_v2016 and Principal-selected assumption set published November 2016. For detailed rationale please see full Mortality documentation.
Interest rate used to value liabilities	5.75% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. See Long Term Capital Market Assumptions 2016.

Basis for lump sums	Interest rate: Based on the three segment yield curve 4.15%, 4.55% and 5.45%. The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high-quality corporate bond yields. According to our most recent study, the long-term expected yields for short, intermediate and long corporate bonds are 4.15%, 4.55% and 5.45%. See Long Term Capital Market Assumptions 2016. Mortality: We have selected the same mortality assumption for lump sum payments but with a 50/50 blend of male and female mortality and improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
THIRD FEDERAL SAVINGS RETIREMENT PLAN
EIN 34-0573493 Plan No. 003

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of $4,000,000 contributions received after the plan year end with a discounted value of $3,896,066.

Schedule SB, Line 22 - Description of Weighted Average Retirement Age
THIRD FEDERAL SAVINGS RETIREMENT PLAN
EIN 34-0573493 Plan No. 003

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 07/01/2013 through amendment number 1 signed 07/22/2014.

Plan eligibility

Age	Attained age 21.
Service	1,000 hours of service.
Class	A participant of the plan before December 31, 2002.
Entry date	The earlier of the first day of the calendar quarter of the plan year coinciding with or following the date on which an employee meets the eligibility requirements.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life with continuance, upon his death, of a monthly benefit to his beneficiary for the remainder, (if any) of the ten-year term. (Optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The difference of (a) less (b): (a) 2.00% of average compensation multiplied by years of service (b) the accrued benefit as of June 30, 1996 under the FIRF plan for a participant who elected not to transfer this benefit at that date. No additional benefits shall accrue under the plan for any participant after December 31, 2011.

Post-retirement increase

Age	Attained age 66.
Annual amount	1.00% of the participant's annual retirement benefit multiplied by the number of years from the calendar year in which he attained age 65 to the current year at the end of which such increment is payable.

Early retirement benefit

Age	Attained age 55.
Service	Five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced 6% for each of the first five years and 4% each year between five and ten in which early retirement date precedes normal retirement date.

Late retirement benefit

Age	Not later than age 70.
Form	Same as normal retirement benefit.
Amount	The greater of the accrued benefit on late retirement date or the accrued benefit on normal retirement date increased by 0.8% per month that late retirement date follows normal retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Qualified for disability benefits under the Federal Social Security Act.
Form	Deferred annuity payable at normal retirement date.
Amount	Accrued benefit on date of disability.

Survivor annuity death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Average compensation	Average of annual compensation paid during each calendar year of employment during which the employee has been a participant and disregarding those years in which the participant is credited with fewer than 1,000 hours of service.
FIRF plan	The Financial Institutions Retirement Fund and Comprehensive Retirement Program, as in effect on June 30, 1996, with respect to employees of Third Federal Savings and Loan Association of Cleveland.

Optional forms of benefit payments

The optional forms of benefit payments are:

Monthly annuity payable for life, or 10 years certain and life

Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 or 100.

Single sum payment equal to the present value of the retirement benefit

The optional form conversion basis is 7.50% interest and the mortality table in Revenue Ruling 95-6 for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of each quarter of the plan year in which occurs the participant's pension commencement date.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
THIRD FEDERAL SAVINGS RETIREMENT PLAN
EIN 34-0573493 Plan No. 003

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan.

The assumed asset return for the current year has decreased from 7.00% to 6.25%. This rate is used in the calculation of the actuarial value of plan assets.
