The following description of the FKG Oil Company MOTOMART 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision

1. *General.* The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, completed one thousand hours of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted January 1, 1997, with a restatement effective July 30, 2014.

2. *Contributions.* Each year, participants may contribute up to 15 percent of pretax annual compensation, as defined in the Plan. The Company may make discretionary matching contributions at the option of the Company's board of directors. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and, (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Upon enrollment in the Plan, a participant may direct employee and employer contributions in directed increments in any of the investment options provided by the custodian of the Plan's assets, Great-West Trust Company, LLC. The Plan currently offers various mutual funds and an insurance group annuity contract (Key Guaranteed Portfolio Fund) as investment options for participants.

4. *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. *Notes Receivables from Participants.* Participants may borrow from their fund accounts as provided by the Plan document. Interest rates on outstanding loans as of December 31, 2017 ranged from 4.25% to 9.25%; principal and interest is required to be repaid within five years through payroll deductions, unless otherwise stipulated by the Plan.

6. *Payment of Benefits.* On termination of service due to death, disability, retirement or any other reason, a participant will receive a lump-sum amount equal to the value of their vested account.

B. Summary of Accounting Policies

Date of Management's Review
Subsequent events were evaluated through October 03, 2018, which is the date the financial statements were available to be issued.

B. Summary of Accounting Policies (Continued)

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes Receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded by the registered investment company.

Fully Benefit-Responsive Investment Contract

The Plan reports its direct and indirect interests in fully benefit-responsive investment contracts at fair value in the investments caption of the statements of net assets available for benefits. In addition, any material difference between the fair value of these investments and their contract value is presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts. Management has determined that the estimated fair value of the Plan's investment contract with Great West Life & Annuity Insurance Company as of December 31, 2017 and 2016 approximates contract value. Accordingly, the statement of net assets available for benefits reflect no adjustment for the difference between net assets at fair value and net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

C. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

C. Fair Value Measurements (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are significant other observable inputs, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of interest bearing cash is based on quoted market prices.

Level 2 Fair Value Measurements

The fair value for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017	2016
Level 1:		
Mutual funds	$ 11,080,039	$ 9,241,195
Level 2:		
Group Annuity Contract	280,959	213,389
Total investments, at fair value	$ 11,360,998	$ 9,454,584

D. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2017	2016
BlackRock LifePath Index 2020 K	$ 3,057,535	$ 2,551,137
BlackRock LifePath Index 2025 K	1,780,681	1,648,453
BlackRock LifePath Index 2030 K	1,740,754	1,425,083
BlackRock LifePath Index Retirement K	1,137,278	956,146
BlackRock LifePath Index 2035 K	1,007,848	809,291
BlackRock LifePath Index 2040 K	624,700	605,509

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are entitled to their vested account balances. In the event the Plan is terminated because the Company ceases to operate, participants not 100 percent vested become 100 percent vested.

F. Account Balances of Retired and Separated Employees

Net assets available for benefits at December 31, 2017 include $109,974 allocated to the accounts of persons who as of or prior to that date have elected to withdraw from the plan but have not been paid.

G. Group Annuity Contract

The Plan has a fully benefit-responsive group annuity contract with an insurance company, which is called the Key Guaranteed Portfolio Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The group annuity contract is included in the financial statements at fair value which approximates contract value.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The insurance company may not terminate the contract at any amount less than the contract value.

The crediting interest rate of the contract is based on the earnings of the underlying assets in the issuer's entire medium-long new portfolio and prevailing market conditions. The interest crediting rate is reset quarterly. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year.

Average Yield:	2017	2016
Based on interest rate credited to participants	1.10%	1.10%
Based on actual earnings	1.10%	1.10%

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2017	2016
Net assets available for benefits per the financial statements	$ 11,781,782	$ 9,834,316
Deemed loans that are not active	(8,428)	(15,983)
Net assets available for benefits per Form 5500	$ 11,773,354	$ 9,818,333

I. Tax Status

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan administrator believes the Plan is no longer subject to income tax examinations prior to 2013. Furthermore, the plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements.

J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

K. Party-in-Interest Transactions

Certain Plan investments are managed by Great-West Life & Annuity Insurance Company. Both Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (trustees) are part of the Great West Retirement Services family, and therefore these transactions qualify as party-in-interest transactions.

Participant loans held as of December 31, 2017 were $416,233. These transactions are considered party-in-interest transactions.
