REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Hillshire Brands Company
Salaried Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of The Hillshire Brands Company Salaried Pension Plan (the Plan), which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits – modified cash basis for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in note G, except for comparing such information with the related information included in the financial statements. We have been informed by the

Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of and for the years ended December 31, 2017 and 2016, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of accounting

We draw attention to note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in note G, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2017 and 2016

NOTE A - DESCRIPTION OF PLAN

The following brief description of The Hillshire Brands Company Salaried Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the applicable summary plan description for the Plan for a more complete description of the Plan's provisions. Participants in former plans sponsored by certain divisions or subsidiaries of The Hillshire Brands Company (the Company) that merged into the Plan should refer to the Supplements section of the Plan for additional information.

On August 28, 2014, The Hillshire Brands Company was acquired by Tyson Foods, Inc. (Tyson) and became a wholly owned subsidiary of Tyson.

General

The Plan is a defined benefit pension plan covering eligible employees of the Company who are members of a group or class of employees to which the Plan has been and continues to be extended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective April 30, 2010, the Plan was frozen with respect to all employees such that no additional benefits were accrued under the Plan on or after May 1, 2010, and no employee became eligible to be a participant in the Plan on or after such date. Notwithstanding the foregoing sentence, a Supplement AC Participant was eligible to accrue benefits under the Plan through June 30, 2010. Effective July 1, 2010, Supplement AC Participants were reclassified as hourly paid employees and became eligible to accrue benefits under the Sara Lee Corporation Consolidated Hourly Pension Plan. No additional benefits were accrued under the Plan on or after July 1, 2010.

The Plan has two separate benefit components - one for selected groups of employees in the branded apparel businesses of the Company (the SLBA Benefits Part) and one for selected groups of employees in various businesses of the Company (the SLC Benefits Part).

The Plan was amended effective September 28, 2015, to allow any vested participant who had been terminated as of December 31, 2014 (including deferred beneficiaries), to make an election for a lump sum distribution between September 28, 2015 and November 25, 2015. This option did not apply to those over the age of 65, those with linked nonqualified benefits, and those with qualified domestic relations orders and their alternate payees. Participants electing for lump sum distribution received benefits between December 1, 2015 and December 31, 2015.

Effective April 27, 2015, the investment committee of the Plan directed a restructure of the investment structure for The Hillshire Brands Company Salaried and Consolidated Hourly Pension Plans. Prior to the restructure both the salaried and hourly pension plans shared ownership of a single investment pool. After the directed restructure, each plan owned its own pool of assets; however the structure of the trust remained a Master Trust.

Contributions

The funding policy for the Plan is to make the necessary contributions to meet minimum funding requirements, as determined by the Plan's independent actuary. No voluntary employee contributions are permitted. The Plan was in compliance with applicable ERISA minimum funding requirements for the years ended December 31, 2017 and 2016.

Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2017 and 2016

Eligibility

Eligible employees begin participation as follows:

SLC Benefits Part - Either attainment of age 30 or attainment of age 21 and completion of one year of service. Effective July 1, 2005, newly hired or rehired employees are not eligible to participate in the Plan.

SLBA Benefits Part - If an SLBA Participant becomes eligible to receive a monthly pension under the SLC Plan on account of retirement before normal retirement date, such pension will include the amount of such Participant's SLBA benefit.

Retirement Benefits

Benefits provided under the SLC Benefits Part are as follows:

Normal Retirement Benefits - Normal retirement is at age 65. Monthly benefits are determined based on the following formula: 1.75% of final average monthly compensation per year of credited service, up to 35 years, minus Social Security allowance, times credited service up to 35 years. A participant's benefits shall include the amount of any benefits accrued under a plan that merged into the Plan.

Early Retirement Benefits - An eligible participant who is at least age 55 and has completed 10 years of service may receive a pension calculated in the same way as the pension at the normal retirement date, but based on service and compensation as of the early retirement date; however, if benefits commence before age 62, this amount is reduced to take into account the participant's younger age and earlier commencement of the participant's pension.

Disability Retirement Benefits - An employee who is eligible for Social Security disability benefits may receive a pension equal to a monthly pension determined by assuming continued compensation at the disability pension and assuming continued compensation at the same rate as in effect immediately preceding the date active employment ceased on account of disability. A disabled participant may select the commencement date, but not earlier than age 55 and not later than age 70.

Deferred Retirement Benefits - An eligible participant who retires after the normal retirement date may receive a pension calculated in the same manner as for normal retirement, with an actuarial increase for benefits not paid upon normal retirement age. If a participant continues to work, benefit payments will commence on April 1 of the calendar year immediately following the calendar year in which the participant attains age 70-1/2.

Termination Benefits - A vested participant who terminates employment prior to normal retirement age may receive a deferred monthly benefit payment calculated in the same way as the pension at normal retirement, but based on final average monthly compensation, covered compensation and credited service as of the date employment terminates.

Preretirement Death Benefits - A participant who has completed five years of credited service or attained age 65 is eligible to have his or her spouse receive 50% of the amount of the monthly benefit calculated at the time of his or her death. Employees who die in active employment are immediately vested for this purpose, and the surviving spouse receives an unreduced survivor benefit immediately of 50% of the participant's accrued benefit.

Benefits provided under the SLBA Benefits Part are as follows:

Normal Retirement Benefits - Normal retirement age is 65. The benefit earned for credited service before July 1, 1995, is calculated using the formula in effect at the time the credited service was earned. Beginning July 1, 1995, the formula for the credit earned for each year of credited service is determined as follows: (1) 1.25% of career average pay times (2) the number of months of credited service for the current year, divided by 12.

Early Retirement Benefits - An eligible participant who is at least age 55 and has completed 10 years of service may receive a pension calculated in the same way as the pension at the normal retirement date, but based on service and compensation as of the early retirement date; however, if benefits commence before age 65, this amount is reduced to take into account the participant's younger age and earlier commencement of the participant's pension.

Deferred Retirement Benefits - Benefits provided are the same as the deferred retirement benefits under the SLC Benefits Part.

Termination Benefits - A vested participant who terminates employment with the Company prior to normal retirement age may receive a deferred benefit equal to the sum of the participant's retirement credits as of the date employment terminates.

Preretirement Death Benefits - A participant who has completed five to ten years of service or who has attained age 65 is eligible to have his or her spouse receive 50% of the amount of the monthly benefit calculated at the time of his or her death.

Benefits under the Plan are subject to certain minimum and maximum amounts. In addition, benefit reductions may apply depending on the form of payment chosen.

Vesting

Participants are fully vested upon completion of five years of service or, if earlier, at age 65, provided he or she is still working for the Company.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP). Under the modified cash basis of accounting, investments are recorded at fair value, income is recorded as earned, and payments and contributions are recorded as the cash is paid or received.

If the Plan's financial statements had been prepared using the accrual basis of accounting in accordance with U.S. GAAP, an administrative expense payable of \$247,625 and \$262,087 and contribution receivables of \$-0- and \$10,000,000 would have been recorded in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, respectively.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting conformity requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from these estimates.

Valuation of Investments

The Plan's interest in The Hillshire Brands Company Master Investment Trust for Defined Benefit Plans (the Master Investment Trust) is based on the Plan's relative aggregate contributions, benefit payments and other relevant factors. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities through its interest in the Master Investment Trust. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Expenses

Plan expenses are paid by the Plan unless paid by the Company at its discretion. Plan expenses include fees related to actuary, audit, investing and administration costs, and are included in Plan expenses on the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Reclassifications

Certain amounts in the prior period presented have been reclassified to conform to the current period financial statement presentation. These reclassifications have no effect on previously reported net assets available for benefits.

NOTE C - PLAN INTEREST IN MASTER INVESTMENT TRUST

The Plan's investments are in the Master Investment Trust, which was established for the investment of assets of the Plan and several other defined benefit plans sponsored by the Company. The assets of the Master Investment Trust are held by The Northern Trust Company (the Trustee). At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Investment Trust was approximately 75.6% and 76.8%, respectively. Investment income relating to the Master Investment Trust is allocated to the individual plans based on average balances invested by each plan. The Plan's interest in the net assets of the Master Investment Trust is included in the accompanying statements of net assets available for benefits. A summary of the net assets of the Master Investment Trust as of December 31, 2017 and 2016, is as follows:

	2017	2016
Investments, at fair value		
Cash and cash equivalents	\$ -	\$ 3,152
Interest in collective trusts	<u>1,455,802,981</u>	<u>1,326,190,461</u>
Total investments	1,455,802,981	1,326,193,613
Receivables	5,959	96,484,650
Liabilities	<u>-</u>	<u>(96,480,000)</u>
Net assets of Master Investment Trust	<u>\$1,455,808,940</u>	<u>\$1,326,198,263</u>

Master Investment Trust income allocated to the participating plans for the years ended December 31, 2017 and 2016, is as follows:

	2017	2016
Net appreciation (depreciation)		
Cash and cash equivalents	\$ -	\$ (3)
Corporate stocks - common	1,395	3,220
Interest in collective trusts	175,281,300	119,839,339
Other income from derivative activity	<u>-</u>	<u>100</u>
Net appreciation in fair value of investments	175,282,695	119,842,656
Interest and dividends	<u>99,603</u>	<u>71,458</u>
Net investment income	<u>\$175,382,298</u>	<u>\$119,914,114</u>

NOTE D - VALUATION OF INVESTMENTS IN THE MASTER INVESTMENT TRUST

Accounting guidance defines fair value as the price that would be received by the Master Investment Trust for an asset or paid by the Master Investment Trust to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Master Investment Trust's principal or most advantageous market for the asset or liability. The guidance establishes a fair value hierarchy that requires the

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2017 and 2016

Master Investment Trust to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Master Investment Trust has the ability to access as of the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Significant unobservable inputs for the asset or liability (including the Master Investment Trust's own assumptions about the assumptions that market participants would use in pricing an asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of investments apply to investments held as underlying investments of the Master Investment Trust:

Cash and cash equivalents - Valued at cost, which approximates fair value.

Collective trusts - Based on the NAV provided by the administrator of the fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments in units of collective trust funds and short-term investment funds are valued at their respective NAVs as reported by the funds daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED

assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2017			
	Level 1	Level 2	Level 3	Total
Investments, at fair value				
Interest in common/collective trusts ⁽¹⁾	\$ -	\$ -	\$ -	\$1,455,802,981
Total investments	\$ -	\$ -	\$ -	\$1,455,802,981

Investments, at fair value				
Interest in common/collective trusts ⁽¹⁾	\$ -	\$ -	\$ -	\$1,326,190,461
Total investments	\$ -	\$ -	\$ -	\$1,326,190,461

(1) Common/collective trusts that are measured at fair value using the net asset value per share practical expedient have not been categorized in the fair value hierarchy. Redemptions are generally permitted daily and there are no unfunded commitments. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in note C.

NOTE E - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to the following: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent that they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Aon Hewitt, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED

date and the expected date of payment. Significant actuarial assumptions used in the valuations as of December 31, 2016 and 2015, are as follows:

	2016	2015
Interest rate	4.36%	4.31%
Mortality	RP – 2014 Mortality table projected generationally by Scale MP-2017 (adjusted from 2006)	RP- 2014 mortality table projected generationally by Scale MP-2016 (adjusted from 2006)
Normal retirement age	65	65

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits as of December 31, 2017 and 2016, is as follows:

	2017	2016
Actuarial present value of accumulated Plan benefits		
Vested benefits		
Participants currently receiving payments	\$645,408,638	\$ 655,995,354
Other participants	<u>344,026,847</u>	<u>365,787,953</u>
Total actuarial present value of accumulated Plan benefits	<u>\$989,435,485</u>	<u>\$1,021,783,307</u>

The change in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2015, consists of the following:

Actuarial present value of accumulated Plan benefits as of December 31, 2015	\$1,021,783,307
Change during the year attributed to	
Interest accumulation	42,729,917
Benefits paid	(61,387,414)

Net change	<u>(32,347,822)</u>
Actuarial present value of accumulated Plan benefits as of December 31, 2016	<u>\$ 989,435,485</u>

¹ The changes in actuarial assumptions are due to an increase in the interest rate from 4.31% to 4.36%, a change in the mortality assumption for healthy participants from the RP-2014 mortality table projected generationally

by Scale MP-2016 (adjusted from 2006) to the RP-2014 mortality table projected generationally by Scale MP-2017 (adjusted from 2006), and a change in the mortality assumption for disabled participants from the RP-2014 disabled mortality table projected generationally with Scale MP-2016 (adjusted from 2006) to the RP-2014 disabled mortality table projected generationally with Scale MP-2017 (adjusted from 2006).

² The “Other Changes” component represents the normal operation of the pension plan. It consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.

NOTE F - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION MATTERS

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, distribution of the Plan assets shall be made to the participants according to the provisions for such distribution in the Plan. In addition, the Company reserves the right to amend or modify the Plan from time to time to the extent permitted by applicable law.

If the Plan terminates, a portion of the benefits under the Plan is insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits; however, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

In June 2018, the Sponsor’s Board of Directors resolved to terminate the plan effective December 31, 2018, subject to regulatory approval from the PBGC and the Internal Revenue Service (IRS). The net assets of the Plan will be allocated for payment of plan benefits to the participants and beneficiaries in an order of priority determined in accordance with ERISA and its related applicable regulations and the Plan document. The majority of the benefit payments will be provided for by the then existing net assets of the Plan with additional funding from the Sponsor as needed.

As a result of the termination, each affected participant’s accrued benefit to the date of termination, to the extent funded, became fully vested and nonforfeitable. In accordance with the resolution to terminate the Plan, benefit obligations will be satisfied with distribution of plan assets available for benefits through the purchase of annuity contracts from an insurer or single lump-sum payments.

The Sponsor determined that termination was not considered to be imminent as of December 31, 2017, as the resolution to terminate the Plan was not approved until June 2018; therefore, liquidation basis accounting was not applied. The amendment to terminate the Plan is not included in the actuarial present value of accumulated plan benefits in note E.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investment, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- Plan interest in The Hillshire Brands Company Master Investment Trust for Defined Benefit Plans net investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016.
- Master Investment Trust investment information, as shown in note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE H - TAX STATUS

The IRS has determined and informed the Company by a letter dated December 11, 2015, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions from time to time; however, there are currently no audits for any tax period in progress.

NOTE I - RELATED-PARTY TRANSACTIONS

Certain assets of the Master Investment Trust are invested in investments managed by the Trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan during 2017 and 2016 for legal, accounting and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE J- SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 28, 2018, the date these financial statements were available for issuance.

In June 2018, the Sponsor's Board of Directors resolved to terminate the Plan effective December 31, 2018, subject to regulatory approval from the PBGC and the IRS. See note F for further discussion.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Late Retirement
Eligibility

First day of the month following the participant's termination after normal retirement date.

Benefit

The actuarial equivalent of the normal retirement benefit payable at the late retirement date. Actuarial equivalence is based on the single interest rates that is equivalent to the adjusted first, second, and third segment rates under Section 417(e)(3) for the month of October preceding the plan year in which payment is made.

Vested Termination
Eligibility

Five years of service.

Benefit

The accrued benefit as of the earlier of termination date and the applicable plan freeze. Reduced payments may begin any time after age 55. The benefit will be actuarially reduced at the early commencement age.

Disability
Eligibility

Condition resulting from injury or illness which results in:

- Receipt of monthly disability insurance benefit under the Federal Social Security Act; or
- Receipt of benefits under The Hillshire Brands Company's disability income plan.

Benefit

The disability benefit will be equal to the normal retirement benefit, determined by assuming continued credited service up to the freeze date and continued compensation at the same rate that was in effect immediately preceding disability.

Surviving Spouse
Eligibility

Five years of service.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 50% of the amount payable if the participant had retired early with a 50% joint and survivor benefit.

Postretirement Death Benefit
Eligibility

Age 65 or age 55 and 10 years of service.

Benefit

A participant may elect a lump sum benefit of \$1,000, \$2,000 or \$3,000 to be paid upon death after retirement to a designated beneficiary. The participant's monthly benefit shall be reduced by \$4 for \$1,000 elected. This election cannot be made if it would reduce the monthly benefit below \$20.

Normal Form of Annuity

Single life annuity or, if married, a reduced 50% joint and survivor annuity.

Optional Forms of Annuity

Single life annuity;
50%, 66⅔%, or 75% joint and survivor annuity;
5, 10 or 15 year certain and life annuity;
Social Security level income annuity.

Actuarial Equivalence

8.5% and the 1984 Unisex Pension Mortality Table.

Definitions

Credited Service
