Good Start Genetics, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Good Start Genetics, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan originally established by Good Start Genetics, Inc. (the "Company", "Employer" or "Plan Sponsor") on January 1, 2010. Voya Retirement Insurance and Annuity Company ("Voya") serves as the current trustee of the Plan. AFC Pensions administers the Plan. The Plan is subject to the provisions of the Internal Revenue Code of 1986, as amended (the "Code") and the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan merger: The Board of Directors approved the Plan merged into the Invitae 401(k) Plan effective as of January 1, 2018 (the merger date). Net assets totaling \$5,222,313 were transferred to the legal control of the Invitae 401(k) Plan effective January 1, 2018. As a result, eligible participants could begin participating in the Invitae 401(k) Plan as of the merger date. The current custodian's services were retained until March 7, 2018 when net assets were liquidated and funds were transferred to the successor custodian. The transfer is reported as "Net transfer to Invitae 401(k) Plan" on the 2018 Statement of Changes in Net Assets Available for Plan Benefits.

Eligibility: The Plan covers all employees of the Company. An employee is eligible to be enrolled into the Plan on the date of hire. On January 1, 2018, no new employees were eligible to enter the Plan.

Contributions: Each year, participants could contribute to the Plan an amount up to 100% of their pre or post tax annual eligible compensation as defined by the Plan, subject to certain Code limitations. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("rollover") provided such contributions did not impact the tax status of the Plan. The Plan provided that participants who were projected to be age 50 or older by the end of the calendar year were permitted to make additional catch-up contributions subject to Code limitations.

The Company could make employer discretionary matching and qualified nonelective employer contributions as declared by its trustees. For the year ended December 31, 2017, the Company's employer discretionary matching contributions were 25% of the first 6% of eligible compensation, as defined by the Plan. Employer discretionary matching contributions were subject to certain limitations under the Code. For the year ended December 31, 2017, there were no qualified nonelective employer contributions. In conjunction with the merger of the Plan, effective January 1, 2018, participants were no longer able to contribute to the Plan.

Participant accounts: Individual accounts were maintained for each participant. Each participant's account was credited with the participant's contributions and any employer discretionary matching contributions and allocations of any qualified nonelective employer contributions, Plan earnings (losses) and administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. All amounts in participant accounts were participant-directed.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting: Participants were vested immediately in participant, rollover and qualified employer contributions plus actual earnings thereon. Participants were vested in the Company's employer nonelective and matching contributions plus actual earnings thereon based on years of continuous service as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

A year of service was defined as a Plan year in which an employee had worked at least 1000 hours. A participant become fully vested in the event of normal retirement, total and permanent disability or death while still employed. Due to the Plan merger, effective January 1, 2018, all participants became fully vested in all contributions.

Forfeitures: Forfeitures resulting from non-vested portions of terminated participants' account balances could be used to pay administrative expenses with any excess to be used to reduce employer contributions. During the year ended December 31, 2017, forfeitures were utilized to pay administrative expenses of \$7,671 and to offset the employer matching contributions of \$12,192. During the year ended December 31, 2017, the Plan had forfeitures generated of \$17,259 and forfeiture income of \$10. As of January 1, 2018, December 31, 2017 and December 31, 2016, unallocated forfeiture amounts available were \$0, \$0 and \$2,594, respectively.

Investment options: Upon enrollment in the Plan, participants could direct their contributions into selected investment options as made available and determined by the person who was responsible for the management of the Plan ("Plan Administrator"). The Plan allowed investments in various pooled separate accounts and a guaranteed income fund. Participants could change their investment options daily.

Payment of benefits: Upon termination of service due to death, disability, retirement or other reasons, a participant could elect to receive a lump-sum or partial distribution amount up to the value of the vested interest in his or her account. In-service withdrawals were also permitted for certain financial hardships or when a participant attains age 59 ½.

Administrative expenses: Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. The remaining administrative expenses of the Plan could be paid from assets of the Plan. Investment related expenses were included in net appreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board ("FASB") and are prepared on the accrual basis of accounting. The FASB sets U.S. generally accepted accounting principles ("GAAP") to ensure net assets available for plan benefits and changes in net assets available for plan benefits are consistently reported. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification ("FASB ASC").

Good Start Genetics, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value - See Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determined the Plan's valuation policies utilizing information provided by Voya or its investment advisor. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation within the statements of changes in net assets available for plan benefits includes interest income, dividends and the Plan's gains and losses on investments bought, sold and held during the year.

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Fair value measurements: FASB ASC 820 – *Fair Value Measurements and Disclosures* ("FASB ASC 820"), defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability; either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Good Start Genetics, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used as of January 1, 2018, December 31, 2017 and December 31, 2016.

Pooled separate accounts: Unit value is calculated based on the net assets of the underlying pool of securities, which value their investment securities at fair value. The pooled separate accounts are valued daily based on the net asset value ("NAV") of shares of the underlying funds. The Plan has no specific intentions to sell investments at amounts other than NAV. These investments can be redeemed on a daily basis and have no lockup or funding commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of benefits: Benefits are recorded when paid.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Plan management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 3. Information Prepared and Certified by Plan's Trustee

The following is a summary of the Plan's asset information as of January 1, 2018, December 31, 2017 and December 31, 2016 and for the period ended January 1, 2018 and year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Voya and furnished to the plan administrator. The plan administrator has obtained certifications from Voya that the information provided to the plan administrator by Voya related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information related to the following assets:

	2018	2017	2016
Assets at fair value, using NAV per share:			
Pooled separate accounts	\$ -	\$ 5,149,301	\$ 4,306,422
Assets at contract value:			
Guaranteed income fund	-	28,461	92,829
	\$ -	\$ 5,177,762	\$ 4,399,251

Voya certified to the completeness and accuracy of \$846,903 of net appreciation in fair value of investments, \$626 of interest income and \$1,486 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 5. Guaranteed Income Fund

The Plan's guaranteed income fund is an investment contract with an insurance company, which is renewed annually. The issuing insurance company is Voya. The contributions were maintained in a general account. The account was credited with earnings on the underlying investments and charged with plan withdrawals and administrative expenses. The guaranteed income fund, Voya Fixed Account, has no stated maturity and has a contract value of \$28,461 and \$92,829 as of December 31, 2017 and 2016, respectively. Interest rates are reset at least annually, during which a new interest rate is applied daily to the total outstanding balance of the investment.

The guaranteed income fund issuer is contractually obligated to repay the principle and a specified interest rate that is guaranteed to the Plan. As the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed income fund. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on the formula agreed upon with the issuer. Such interest rates are reviewed at least annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with Voya. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination, merger with another plan or premature termination of the contract by the Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Due to the Plan merger the guaranteed income fund contract was terminated when the assets were liquidated from investments on March 7, 2018.

Good Start Genetics, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 6. Tax Status

The Plan received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the Plan is designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving this opinion letter, however, the Plan Administrator believes the Plan was designed and was operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, was qualified and tax exempt.

Note 7. Party-in-Interest Transactions

Certain of the Plan's investments were managed by Voya, which qualifies as an exempt party-in-interest transaction, as defined by ERISA. The Plan Sponsor paid certain administrative expenses of the Plan, which qualifies as an exempt party-in-interest transaction, as defined by ERISA. In addition, the Plan issued loans to participants, which were secured by the balances in the participants' account. These transactions qualified as party-in-interest transactions as that term is defined in Section 3(14) of ERISA.

Note 8. Subsequent Events

The Plan has evaluated subsequent events through October 1, 2018, the date on which the financial statements were available to be issued.
